**The Secrets of an Aborted Decolonisation**  
Carlson Anyangwe, 2010-10-08 A remarkable feature of the collapse of the British Empire is that the British departed from almost every single one of their colonial territories invariably leaving behind a messy situation and an agenda of serious problems that in most cases still haunt those territories to this day One such territory is the Southern British Cameroons There the British Government took the official view that the territory and its people were expendable It opposed for selfish economic reasons sovereign statehood for the territory in clear violation of the UN Charter and the norm of self determination It transferred the Southern Cameroons to a new colonial overlord and hurriedly left the territory The British Government's bad faith duplicity deception wheeling and dealing and betrayal of the people of the Southern Cameroons is incredible and defies good sense Ample evidence of this is provided by the declassified documents in this book Among the material are treaties concluded by Britain with Southern Cameroons coastal Kings and Chiefs and the boundary treaties of the Southern Cameroons treaties defining the frontiers with Nigeria to the west and the frontier with Cameroun Republic to the east The book contains documents that attest to the Southern Cameroons as a fully self governing country ready for sovereign statehood These include debates in the Southern Cameroons House of Assembly and the various Constitutions of the Southern Cameroons The book also reproduces British declassified documents on the Southern Cameroons covering the three critical years from 1959 to 1961 documents which speak to the inglorious stewardship of Great Britain in the Southern Cameroons This book removes lingering doubts in some quarters that the people of the Southern Cameroons were cheated of independence Its contents are further evidence of their inalienable right and sacred duty to assert their independence No one who reads this book can possibly be indifferent to the just struggle of the Southern Cameroons for sovereign statehood

model of a murder victim's face. Her fascination with that case led to a dramatic midlife career change. She would go back to school to become a forensic anthropologist and one of the most respected and best known bone hunters in the nation. As a student working with the FBI in Waco, Emily helped uncover definitive proof that many of the Branch Davidians had been shot to death before the fire, including their leader David Koresh, whose bullet-pierced skull she reconstructed with her own hands. Upon graduation, Emily landed a prestigious full-time job as forensic anthropologist for the Commonwealth of Kentucky, a state with an alarmingly high murder rate and thousands of square miles of rural backcountry where bodies are dumped and discovered on a regular basis. But even with her work there, Emily has been regularly called to investigations across the country, including the site of the terrorist attack on the Murrah Building in Oklahoma City, where a mysterious body part—a dismembered leg—was found at the scene and did not match any of the known victims. Through careful scientific analysis, Emily was able to help identify the leg's owner, a pivotal piece of evidence that helped convict Timothy McVeigh. In September 2001, Emily received a phone call summoning her to New York City, where she directed the night shift triage at the World Trade Center's body identification site, collaborating with forensics experts from all over the country to collect and identify the remains of September 11 victims. From the biggest news stories of our time to stranger-than-true local mysteries, these are unforgettable stories from the case files of Emily Craig's remarkable career.
