The Secret Police Dossier of Herta Müller Valentina N. Glajar, Valentina Glajar, 2023. An in-depth investigation of the Romanian secret police's file on Müller, winner of the 2009 Nobel Prize for Literature, re-creating a file story of her surveillance. Herta Müller should share her Nobel with the Securitate. This comment by a former officer in the Romanian secret police or Securitate was in reaction to hearing that Müller, a German writer originally from Romania, had won the 2009 Nobel Prize for Literature. Communist Romania's infamous secret police was indeed a protagonist in Müller's work, though an undesired and dreaded one. Most of her writings are deeply and explicitly anchored in Ceaușescu's Romania and her own traumatic experiences with the Securitate. Müller's file traces her surveillance from 1983 until after she emigrated to West Germany in 1987. She has written extensively in reaction to reading her file but primarily addresses its gaps, begging the question: what information the file does in fact contain. This book is an in-depth investigation of Müller's file and engages with other related files, including that of her then husband, the writer Richard Wagner. Valentina Glajar treats the files as primary sources in order to re-create the story of Müller's surveillance by the Securitate. In such an intrusive culture of surveillance, surviving the system often meant a certain degree of entanglement for victims, collaborators, and implicated subjects alike. Veiled in secrecy for decades, these compelling and complex documents shed light on a boundary between victims and perpetrators as porous as the Iron Curtain itself.

Mysticism and the Early South German - Austrian Anabaptist Movement 1525 - 1531 Werner O. Packull, 2008-12-30 Werner Packull delineates more clearly than any previous scholar the theological and spiritual differences between South German and Swiss Anabaptists He examines thoroughly the dominant medieval mystical influence in the thought of Denck and Hut and the latter's immediate South German Anabaptist followers Indeed Packull decides that South German Anabaptism derives more from medieval mysticism than from the Reformation Packull is convincing in his

demonstration of this thesis because of his meticulous care in reading the primary sources and because he examines and refutes the arguments of those who would place the Protestant influence as the primary one He carefully isolates and explains particular ideas of the medieval mystics and demonstrates their influence on Denck and Hut Packull expands and elaborates the earlier suggestions of Kiwiet and Williams both of whom postulated a discrete Anabaptism in South Germany as against that of Switzerland He draws on the more recent and still unpublished work of Gottfried Seebass especially on Seebass selection of writings which he ascribes to Hut Packull s second major thesis is that the earliest form of South German Anabaptism was transitional both sociologically and theologically He demonstrates that there were indeed strains of Anabaptism which were not as clearly biblicist in emphasis as the one in Zurich Packull s work makes the phenomenon of early Anabaptism more complex less uniform but historically more accurate more in line with the realities of the religious ferment of the 1520s among German speaking people *The Secret Tradition in Goëtia* Arthur Edward Waite,1911
