Secular And The Sacred Nation Religion And Politics:

The Secular and the Sacred William Safran, 2004-08-02 What is the place of religion in modern political systems This volume addresses that question by focusing on ten countries across several geographic areas Western and East Central Europe North America the Middle East and South Asia These countries are comparable in the sense that they are committed to constitutional rule have embraced a more or less secular culture and have formal guarantees of freedom of religion Yet in all the cases examined here religion impinges on the political system in the form of legal establishment semi legitimation subvention and or selective institutional arrangements and its role is reflected in cultural norms electoral behaviour and public policies The relationship between religion and politics comes in many varieties in differing countries yet all are faced with three major challenges modernity democracy and the increasingly multi ethnic and multi religious nature of their societies

Religion, Secularism and Politics Jeffrey Haynes, Guy Ben-Porat, 2018-10-24 Political debates in many Mediterranean countries today are increasingly framed in dichotomous terms highlighting divisions between religious and secular worldviews The role of religion in public life or put another way the public return of religion is a pertinent and controversial political question everywhere in the Mediterranean region How do we explain this phenomenon On the one hand we can point to both economic and demographic changes while on the other we can trace the impact of continuing secularisation Together these two sets of developments produce new challenges to existing political arrangements This book examines the contemporary interaction of religion and politics in the Mediterranean region with a specific focus on democratization and democracy and the role in this context of selected religious actors Individual contributions focus on several European countries France Italy and Turkey while others are concerned with states in the Middle East and North Africa Egypt Israel Morocco and Tunisia Among European countries France is widely regarded as a highly secular country with over 50% of people regarding themselves as without religion Morocco on the other hand is a much more religious country measured by the fact that an estimated 94.5% of Moroccans self identify themselves as Muslims The specific country studies were selected because whether they are religious or not each case has current controversies involving both religious and secular actors which impact upon key political relationships centrally involving religion secularization and democratization democracy This book was published as a special issue of *Mediterranean Politics*

Secularism and State Policies Toward Religion Ahmet T. Kuru, 2009-04-27 Comparing policy in America France and Turkey this book analyzes the impact of ideological struggles on public policies toward religion

World Religions and Democracy Larry Diamond, Marc F. Plattner, Philip J. Costopoulos, 2005-03-02 Can religion be compatible with liberal democracy *World Religions and Democracy* brings together insights from renowned scholars and world leaders in a provocative and timely discussion of religions role in the success or failure of democracy An essay by Alfred Stepan outlines the concept of twin tolerations and differentiation and creates a template that can be applied to all of the religion democracy relationships observed and analyzed throughout the

volume Twin tolerations means that there is a clear distinction and a mutual respect between political authorities and religious leaders and bodies When true differentiation is accomplished the religious sector enjoys freedom of activity and the ability to peacefully influence its members but does not wield direct political power A country's ability to implement the principle of differentiation directly affects the successful development of democracy Part two focuses on eastern religions Confucianism Hinduism and Buddhism and includes contributions from Nobel Prize winner Aung San Suu Kyi and His Holiness the Dalai Lama The third part addresses democracy in relationship to Judaism and the three branches of Christianity Catholicism Protestantism and Eastern Orthodoxy Sociologist Peter Berger offers a global perspective of Christianity and democracy The volume's final section discusses what is perhaps the most challenging example of the struggling relationship between religion and democracy today Islam and the governments of the Muslim nations Abdou Filali Ansary Bernard Lewis and others present a comprehensive exploration of Muslim thought and faith in an increasingly secular modern world It is in this volatile political and religious climate that solutions are most urgently needed but also most elusive Contributors Alfred Stepan Hahm Chaibong Francis Fukuyama Pratap Mehta His Holiness the Dalai Lama Aung San Suu Kyi Hillel Fradkin Daniel Philpott Tim Shah Robert Woodberry Elizabeth Prodromou Peter Berger Abdou Filali Ansary Bernard Lewis Robin Wright Abdelwahab El Affendi Radwan A Masmoudi Laith Kubba Ladan Boroumand Roya Boroumand

Religion and Democratizations Jeffrey Haynes, 2013-09-13 This book examines key debates on religion and democratization from three main perspectives Religious traditions have core elements which are more or less conducive to democratization and democracy Religious traditions may be multi vocal but at any moment there may be dominant voices more or less receptive to and encouraging of democratization Religious actors rarely if ever determine democratization outcomes However they may in various ways and with a range of outcomes be of significance for democratization The contributions are divided into two sections 1 Religion democratization and democracy and 2 Secularization democratization and democracy Overall they examine the three assertions in the bullet points above The book's starting point is that in general around the world religions have left their assigned place in the private sphere This means they have in many cases become recognisably politically active in various ways and with assorted outcomes This re emergence from political marginality dates back until at least the 1980s At that time the US sociologist Jose Casanova noted that what was new and became news was the widespread and simultaneous refusal of religions to be restricted to the private sphere This involved a remodelling and re assumption of public roles by religion which theories of secularisation had long condemned to social and political marginalisation This book was published as a special issue of *Democratization* *Religion and Politics in Europe, the Middle East and North Africa* Jeffrey Haynes, 2009-10-16 This book examines the political activities of selected religious actors in Christian Muslim and Judaist contexts in Europe and the Middle East It explores the challenges these religious actors face in terms of citizenship democracy and secularisation **The Multicultural Dilemma** Michelle Hale

Williams,2013 This work seeks to explore the contemporary challenge of government in multicultural societies drawing together a wide range of contributors to examine how ethnic difference could better understood and mediated by modern nation states Divided into three sections the book centres round the notion that changing patterns of migration bring escalating obstacles to integration or assimilation In the first section contributors focus on the theory that immigrants are the actors that catalyze contemporary multicultural dilemmas within states with a particular focus on diaspora and how a diaspora community may differ in some ways from other kinds of immigrant community Section two identifies key factors in shaping ethnic identity before moving on to examine the state of the debate over whether identity can be changed or manipulated The contributors to this section provide valuable insights into the catalysts and causes of ethnic division and tension by showing factors in the development of ethnic identity In the third section the focus turns to strategies for mediating multicultural challenges and managing internal diversity in multicultural society offering structural and institutional solutions with evidence of application in specific cases and country contexts Offering a comprehensive overview of this pressing issue and drawing on a wide range of case studies this work will be of interest to students and scholars of migration political sociology race and ethnic studies Nationhood, Migration and Global Politics Raymond

Hancock,Christopher J. Carman,Marjorie Castle,David P. Conradt,Raffaella Y. Nanetti,Robert Leonardi,William Safran,Stephen White,Michelle Hale Williams,Mary N. Hampton,2018-05-09 Politics in Europe Seventh Edition introduces students to the power of the European Union as well as seven political systems the UK France Germany Italy Sweden Russia Poland within a common analytical framework that enables students to conduct both single case and cross national analysis Each case addresses the most relevant questions of comparative political analysis who governs on behalf of what values with the collaboration of what groups in the face of what kind of opposition and with what socioeconomic and political consequences Packed with captivating photos and robust country descriptions from regional specialists the Seventh Edition enables students to think critically about these questions and make meaningful cross national comparisons *Religious Nationalism in Modern Europe* Philip W. Barker,2008-08-20 This volume examines the enduring nature of religious nationalism in modern Europe Through a series of in depth case studies covering Ireland England Poland and Greece the

author argues that religious frontiers or geographic lines of division between different and unique religions are central to the formation of religiously based national identities Typically as states develop economically and politically religion plays a lesser role in both individual lives and national identity However at religious frontiers religion becomes useful for differentiating and mobilizing groups of people This is particularly true when the religious frontier also represents a threat or conflict Although religion may not be the root of conflict in these instances the conflict takes on religious tones because of its ability to unite an otherwise diverse population Religion takes precedence over language culture or other national building blocks because the other can best be distinguished in religious terms The in depth case studies allow for a deep historical understanding of the processes which converge to create a modern religious nation Greatly expanding our current understanding of the conditions in which religious nationalism develops this important book has implications for our understanding of religion and politics secularization European politics and foreign policy

The Crisis of Secularism in India Anuradha Dingwaney Needham, Rajeswari Sunder Rajan, 2007-01-18 In this timely nuanced collection twenty leading cultural theorists assess the contradictory ideals policies and practices of secularism in India

Between State and Synagogue Guy Ben-Porat, 2013-03-25 Guy Ben Porat explores the evolving tensions between the liberal component in Israeli society and the constraints imposed by religious orthodoxy

Between Dispersion and Belonging Amitava Chowdhury, Donald Harman Akenson, 2016-06-01 As a historical and religious term diaspora has existed for many years but it only became an academic and analytical concept in the 1980s and 90s Within its various usages two broad directions stand out diaspora as a dispersion of people from an original homeland and diaspora as a claim of identity that expresses a form of belonging and also keeps alive a sense of difference Between Dispersion and Belonging critically assesses the meaning and practice of diaspora first by engaging with the theoretical life histories of the concept and then by examining a range of historical case studies Essays in this volume draw from diaspora formations in the pre modern Indian Ocean region read diaspora against the concept of indigeneity in the Americas reassess the claim for a Swedish diaspora

interrogate the notion of an invisible English diaspora in the Atlantic world calibrate the meaning of the Irish diaspora in North America and consider the case for a global Indian indentured labour diaspora Through these studies the contributors demonstrate that an inherent appeal to globality is central to modern formulations of diaspora They are not global in the sense that diasporas span the entire globe rather they are global precisely because they are not bound by arbitrary geopolitical units In examining the ways in which academic and larger society discuss diaspora Between Dispersion and Belonging presents a critique of modern historiography and positions that critique in the shape of global history Contributors include William Safran University of Colorado Boulder James T Carson Queen s University Eivind H Seland University of Bergen Don MacRaild University of Ulster and Rankin Sherling Marion Military Institute the Military College of Alabama

Identity, Belonging and Migration Gerard Delanty, Ruth Wodak, Paul Jones, 2008-02-01 This volume addresses the question of migration in Europe It is concerned with the extent to which racism and anti immigration discourse has been to some extent normalised and democratised in European and national political discourses Mainstream political parties are espousing increasingly coercive policies and frequently attempting to legitimate such approaches via nationalist populist slogans and coded forms of racism Identity Belonging and Migration shows that that liberalism is not enough to oppose the disparate and diffuse xenophobia and racism faced by many migrants today and calls for new conceptions of anti racism within and beyond the state The book is divided into three parts and organised around a theoretical framework for understanding migration belonging and exclusion which is subsequently developed through discussions of state and structural discrimination as well as a series of thematic case studies In drawing on a range of rich and original data this timely volume makes an important contribution to discussions on migration in Europe

Muslims and Political Participation in Britain Timothy Peace, 2015-05-01 This new volume showcases the latest research into Muslim political participation both in terms of electoral politics and civil society initiatives Muslims play a prominent role in British political life yet what do we actually know about the involvement of British Muslims beyond the existence of a handful of Muslim MPs What is unique about political participation in Muslim communities All the major parties actively seek to court a Muslim electorate but does such a phenomenon exist Despite the impact that Muslims have had on election campaigns and their roles in various political institutions research on this topic remains scant Indeed much of the existing work was couched within the broader areas of the participation of ethnic minorities or the impact of race on electoral politics The chapters in this volume address this lacuna by highlighting different aspects of Muslim participation in British politics They investigate voting patterns and election campaigns civil society and grassroots political movements the engagement of young people and the participation of Muslims in formal political institutions Written in an accessible style this book will be of interest to students and scholars of political participation and religious studies

State Traditions and Language Regimes Linda Cardinal, Selma K. Sonntag, 2015-05-01 Language policies are political They have political consequences as well as political

origins In *State Traditions and Language Regimes* scholars from Asia Europe and North America shift focus from the consequences of language policies to how and why states make language policy choices This shift theorized through the concept of language regime inserts an urgently needed political science perspective into the current dialogue between sociolinguists who research the societal effects of language policies and political theorists of language rights who analyze the normative implications of policies New analytical tools drawn from comparative politics are showcased to analyze paths taken by different states in establishing language regimes at times disrupted and redirected at critical junctures Contributions to the volume include analyses of Canada's increasingly court driven language policies the United States bifurcated language regime in the aftermath of 9 11 Ireland's conflicted protection of the Irish language France's linguistic Jacobin tradition disrupted by Europeanization the role of political parties and coalitions in language regime stability and change in Taiwan and Southeast Asia Poland's war torn history informing policy toward regional languages and the role of English in international peace building While other books look at the political and societal effects of language policy none seeks to employ a historical institutionalism approach which sets language policy choice in the context of power relations embedded in state traditions *State Traditions and Language Regimes* offers a comparative politics perspective one that enriches interdisciplinary debate on language policy

Nationalism and Democracy André Lecours, Luis Moreno, 2010-02-25 This book sheds light on the complicated multi faceted relationship between nationalism and democracy by examining how nationalism in various periods and contexts shapes or is shaped by democratic practices or the lack thereof This book examines nationalism's relationship with democracy using three approaches The challenge of democracy for sub state nationalism analyzing the circumstances under which sub state nationalism is compatible with democracy and assessing the democratic implications of various nationalist projects The impact of state nationalism on democratic practices examining the implications of state nationalism for democracy both in countries where liberal democratic principles and practices are well established and where they are not Understanding how state nationalism affects democratization processes and what impact sub state nationalism has in these contexts Featuring a range of case studies on Western Eastern and Central Europe Russia African and the Middle East this book will be of interest to students and scholars of political science sociology nationalism and democracy

Europe Old and New Ray Taras, 2008-07-31 Is Europe indeed uniting or instead falling apart as a result of anti immigrant prejudices a massive Islamic influx and ancient intra European hatreds This innovative and engaging book explores this key question by examining the national and religious phobias and prejudices antipathies and sympathies stereotypes and heterotypes of Europe west and east Considering the sources of Europe's culture based divide Ray Taras argues that the idea of two Europes is grounded both in reality and myth The accession process that brought a dozen new members into the European Union after 2004 highlighted the persisting gulf between old and new Europe While many concrete borders between east and west were removed commercial legal passport regimes many

remained absence of a single Euro currency zone labor market and security community Virtual borders too were invented or re imagined the postmaterialist inclusionary tolerant values supposedly found in old Europe versus the materialist nationalistic xenophobic ones of new Europe After reviewing the two Europes contrasting historical legacies Taras examines the EU institutions designed to overcome the historical European divide He considers the treaties political rhetoric citizen attitudes and literary narratives of belonging and separation that both bind and fray the fabric of Europe Throughout this interdisciplinary work provides a comprehensive hard hitting and unabashed review of how enlarged Europe embraces contrasting understandings of its political home and of who belongs and who does not
