Secular Art with Sacred Themes. Derain - Chagall - Manzù - Picasso - Newman Jane Dillenger, 1969 Secular Art with Sacred Themes Jane Dillenger, 1969 *ReVisioning* James Romaine, Linda Stratford, 2014-05-20 *ReVisioning* Critical Methods of Seeing Christianity in the History of Art examines the application of art historical methods to the history of Christianity and art As methods of art history have become more interdisciplinary there has been a notable emergence of discussions of religion in art history as well as related fields such as visual culture and theology This book represents the first critical examination of scholarly methodologies applied to the study of Christian subjects themes and contexts in art *ReVisioning* contains original work from a range of scholars each of whom has addressed the question in regard to a well known work of art or body of work How have particular methods of art history been applied and with what effect The study moves from the third century to the present providing extensive treatment and analysis of art historical methods applied to the history of Christianity and art **The Oxford Handbook of Religion and the Arts** Frank Burch Brown, 2018 This volume offers 37 original essays from leading scholars on the crucial topics issues methods and resources for studying and teaching religion and the arts **Making Sense of Religion in America's Public Schools** David Gibbs III, Barbara Weller, 2013-04 In 1947 the United States Supreme Court took a sharp left turn in its interpretation of the Establishment Clause of the First Amendment to the United States Constitution as it was applied to public schools in America Since then students teachers school officials parents and local religious leaders have been struggling to understand the parameters of the Establishment Clause as it relates to religious expression in public schools This resource is intended to help individuals understand their rights to exercise their faith in the public school arena It is also designed to help families students teachers school officials and community leaders sort through the current legal maze of religious expression in America's public schools **A Theology of Artistic Sensibilities** John Dillenger, 2004-10-19 For most of history argues John Dillenger the visual arts were for better or worse part of the very fabric of the life and thought of the church But with the Reformation and the Counter Reformation a major change took place Protestant rejection of the visual was matched in Roman Catholicism by the reduction of its formative power While the visual arts dropped out of the lives of Protestant churches they became a memory rather than a source of ennoblement or power in the Roman Catholic Church Thus in different but allied ways Protestants and Catholics lost the power of the visual Part art history part historical theology and part theological reflection this book is both an argument and a program for the recovery of the visual arts in the life of the church for reclaiming seeing as part of religious perception It offers a theological understanding of the visual and provides a basis upon which the visual arts may again be incorporated into Protestantism and reinvigorated in Roman Catholicism The first part is devoted to historical reconstruction exploring those moments in Western history in which the relation between religion and the arts was in ferment Part 2 is given to contemporary delineation and analysis of spiritual perceptions in modern American painting and

sculpture of modern church art and architecture and of the changing views of contemporary theologians toward the visual arts Citing David Tracy Karl Rahner Langdon Gilkey and others as examples Dillenberger argues that contemporary theology is moving away from the modern rationalistic understanding of theological analogy to one far closer to the arts Part 3 is constructive developing a theological perspective that demands and includes the visual arts and suggesting ways in which this can be accomplished in pastoral and theological education The world of art says Professor Dillenberger is more aware of the role of religion in the arts than the world of religion is of art Thus it is time for the church to resume its historic association with the visual arts albeit in analogous rather than repristinating ways *Secular Steeples* Conrad

Ostwalt,2003-03-24 Conrad Ostwalt explores the confluence of religion and popular cultural forms in the secular world demonstrating that a secular religiosity has co opted some of the functions previously reserved for religions institutions

Images and Relics John Dillenberger, 1999 John Dillenberger has written the first comprehensive account of the relation between the visual arts and theological currents in Europe during the first half of the sixteenth century With an astute knowledge of the theology of the period and a keen interest in the lives and work of prominent artists Dillenberger makes incisive connections that illuminate the cultural movements of the time Images and Relics considers both popular and professional art within distinct religious contexts It examines the works of Matthias Grunewald Albrecht Durer Lucas Cranach the Elder Michelangelo Hans Holbein the Younger Hans Baldung Grien and Albrecht Altdorfer and demonstrates how these artists expressed and transformed the reigning theological ideas of their day The book also addresses the range of iconoclastic movements from the 1520s to the 1570s particularly in northern Europe Finally Dillenberger reflects on the ambiguity of the history of this period and its continuing impact on modern day life Art and the Church: A Fractious Embrace Jonathan Koestle-Cate, 2016-04-20 A vibrant critical exchange between contemporary art and Christianity is being increasingly prompted by an expanding programme of art installations and commissions for ecclesiastical spaces Rather than religious art reflecting Christian ideology current practices frequently initiate projects that question the values and traditions of the host space or present objects and events that challenge its visual conventions In the light of these developments this book asks what conditions are favourable to enhancing and expanding the possibilities of church based art and how can these conditions be addressed What viable language or strategies can be formulated to understand and analyse art's role within the church Focusing on concepts drawn from anthropology comparative religion art theory theology and philosophy this book formulates a lexicon of terms built around the notion of encounter in order to review the effective uses and experience of contemporary art in churches The author concludes with the prognosis that art for the church has reached a critical and decisive phase in its history testing the assumption that contemporary art should be a taken for granted element of modern church life Art and the Church A Fractious Embrace uniquely combines conceptual analysis critical case studies and practical

application in a rigorous and inventive manner dealing specifically with contemporary art of the past twenty five years and the most recent developments in the church's policies for the arts Dictionary Catalog of the Art and Architecture Division New York Public Library. Secular Steeples 2nd Edition Conrad Ostwalt,2012-11-29 The Scandinavian Nordic countries of Denmark Norway Sweden and Finland experienced the effects of the German invasion in April 1940 in very different ways Collaboration resistance and co belligerency were only some of the short term consequences Each country's historiography has undergone enormous changes in the seventy years since the invasion and this collection by leading historians examines the immediate effects of Hitler's aggression as well as the long term legacies for each country's self image and national identity The Scandinavian countries war experience fundamentally changed how each nation functioned in the post war world by altering political structures the dynamics of their societies the inter relationships between the countries and the popular view of the wartime political and social responses to totalitarian threats Hitler was no respecter of the rights of the Scandinavian nations but he and his associates dealt surprisingly differently with each of them In the post war period this has caused problems of interpretation for political and cultural historians alike Drawing on the latest research this volume will be a welcome addition to the comparative histories of Scandinavia and the Second World War **Book Review Digest** Leslie Dunmore-Leiber,1976 Through the Dark Field Susie Paulik Babka,2017-01-13 Theological discourse in the West has consistently valued the word over the image Aesthetics which discerns the criteria and value of the beautiful and what pleases the senses is the discipline that prioritizes sensual intelligence over the rational this book advocates a reconsideration of the doctrine of the incarnation through an aesthetics of vulnerability in which the ethical optics of attention to the vulnerable other becomes the standpoint in which to ponder the significance of God became human Relying on such diverse thinkers as Emmanuel Levinas Maurice Blanchot Karl Rahner and Masao Abe Susie Paulik Babka explores visual art images and poetry as theological sources designating what Blanchot called a region where impossibility is no longer deprivation but affirmation
