Secularization And Fundamentalism Reconsidered:

Secularization and Fundamentalism Reconsidered Jeffrey K. Hadden, Anson D. Shupe, 1989 *Secularization and Fundamentalism Reconsidered: Religion and the political order* Jeffrey K. Hadden, Anson D. Shupe, 1989 Religion and the Political Order: Secularization and fundamentalism reconsidered ,1986 **The Secularization Debate** William H. Swatos (Jr.), 2000 Introduced to social scientific audiences by Max Weber the concept of secularization has had a major influence on the way in which religion has been understood in the West But at least since the late 1980s both the predictive and the descriptive adequacy of this concept have been seriously challenged In the face of this challenge The Secularization Debate offers a timely summary of the critical issues that have arisen over the past decade With its wide range of essays by prominent international scholars The Secularization Debate is sure to become a pivotal volume for anyone interested in the hotly contested concept of secularization and its continued relevance to the study of religion Public Religions in the Modern World José Casanova, 2024-05-31 In a sweeping reconsideration of the relation between religion and modernity Jose Casanova surveys the roles that religions may play in the public sphere of modern societies During the 1980s religious traditions around the world from Islamic fundamentalism to Catholic liberation theology began making their way often forcefully out of the private sphere and into public life causing the deprivatization of religion in contemporary life No longer content merely to administer pastoral care to individual souls religious institutions are challenging dominant political and social forces raising questions about the claims of entities such as nations and markets to be value neutral and straining the traditional connections of private and public morality Casanova looks at five cases from two religious traditions Catholicism and Protestantism in four countries Spain Poland Brazil and the United States These cases challenge postwar and indeed post Enlightenment assumptions about the role of modernity and secularization in religious movements throughout the world This book expands our understanding of the increasingly significant role religion plays in the ongoing construction of the modern world **Born Again** Jennifer S. Butler, 2006-08-20 The Christian Right wields massive political power in the United States and beyond This is the first book to reveal the growing influence of the Christian Right within the United Nations This book reveals how Christian conservative groups are able to shape policy in every corner of the world Drawing on interviews with religious leaders it reveals how today's most powerful Christian Right organisations are building interfaith coalitions connecting Catholic Mormon and Muslim allies to advance a conservative agenda The US under Bush Jr has given them a significant voice in shaping US policy on issues including women's rights reproductive health human cloning children's rights and AIDS In short the Christian Right is globalising a phenomenon that promises to challenge progressive social policy on a world wide scale as well as transform the Christian Right itself The Challenge of Religion after Modernity Raymond L. M. Lee, Susan E. Ackerman, 2018-05-08 This title was first published in 2003 If God has departed as Baudrillard claims is religion still relevant A new religious landscape is appearing in the new millennium The middle classes with their electronic

technologies are producing a culture of commodified images and signs that is radically transforming the religious landscape and re enchanting the world Ecstatic experiences pervade the reenchanted world Both fundamentalism and the New Age movement promote the free flow of charisma reshaping religion in unforeseen directions Analysing the crisis of modernity this book delves into the intricacies of these movements to examine the implications of religious change in the new millennium The authors provide an incisive assessment of religious change in the West and Asia to suggest an eclecticism in re enchantment that will usher in new ideas about charisma consciousness and spirituality These ideas focus on new forms of shamanism that point the way to experiences of empowerment beyond the structures of disenchantment

Sociology of Religion in Turkey Zuhul Ağilkaya Şahin, Asım Yapıcı, Sarah Demmrich, 2021-12-01 I find in this volume an admirable mix of empirical material on for example religious socialization and perceptions of gender and reflective pieces which interrogate the place of religion in Turkish society Key in this respect is the fact that Turkey is not simply a Muslim society but a distinctive one not least in terms of the functional differentiation of the modern republic and its consequent effect on religion a situation that offers a unique challenge to sociological enquiry The book concludes with a series of chapters that deal with the particularities of the modernization process in Turkey and the tensions social cultural and political that have emerged as the modern state developed a stage by stage process Prof Grace Davie University of Exeter Great Britain
