

# GETTING STARTED

- Create an open and honest environment for discussing online behaviors and security risks.
- Start conversations regularly about practicing online safety and focus on offering guidance instead of trying to control children's online behavior.
- Emphasize the concept of credibility and encourage children to proceed with caution: not everything they see on the Internet is true, and people on the Internet may not be who they appear to be. Talk with children, and especially teens, about the importance of creating and maintaining a positive online identity.
- Watch for changes in behavior: if your child suddenly avoids the computer or smartphone, it may be a sign that he/she is being bullied online.
- Review security settings and privacy policies for the websites your child uses.
- Protect all Internet-enabled devices, including mobile phones and tablets.

Framing War Francesco Olmastroni,2014-10-10 Most research on framing has focused on media and elite frames the ways that the mass media and politicians present information about issues and events to the public Until now the process by which citizens opinions may affect the initial frame building process has been largely ignored The two way flow of influence between public opinion and decision makers has been analyzed more from a top down than a bottom up perspective Olmastroni addresses this issue by introducing a cyclical model of framing Additionally most empirical studies on media framing have centered on the United States Olmastroni s text seeks to overcome this limitation of prior research by examining different types of framing in three different countries Framing War uses the recent war on Iraq as a case study focusing on the elite and media framing of this event in order to examine the interaction between the political elite and the mass public in three Western democracies France Italy and the US during the early and on going stages of the military crisis The book analyzes whether and potentially the extent to which decision makers tracked and responded to public opinion in presenting their foreign policy choices It examines the strategies and approaches that governments potentially adopted to influence public opinion towards either the need for or the lack of need for a military intervention By representing the framing paradigm as a cycle Olmastroni shows how each actor within the system i e government and other elites news media and public opinion is linked to the others and contributes to the final representation of an issue In contrast with other theoretical perspectives of framing this book states that the framing influence does not only proceed from the government to the public but it often moves at the same level of the system with each actor playing different roles Olmastroni s insights on framing are significant for researchers in international relations political communication public opinion comparative politics and political psychology as well as policy analysts journalists and commentators The Impossible Imperative Jill Duerr Berrick,Erika Altobelli,2018 The Impossible Imperative brings to life the daily efforts of child welfare professionals working

on behalf of vulnerable children and families Stories that highlight the work written by child welfare staff on the front lines speak to the competing principles that shape everyday decisions The book shows that rather than being a simple task of protecting children the field of child welfare is shaped by a series of competing ideas The text features eight principles that undergird child protection practice all of which are typically in conflict with others These principles guide practice and direct the course of policymaking but when liberated from their aspirational context and placed in the real world they are fraught with contradiction The Impossible Imperative is designed to inspire a lively debate about the fundamental nature of child welfare and about the principles that serve as the foundation for the work It can be used as a teaching tool for aspiring professionals and as motivation to those looking to social work to make a difference in the world **The Smallest Victims**

Herbert C. Covey, 2018-07-20 This book provides a review of how child maltreatment has been socially constructed ignored and formally responded to as it tells the story of how America's system of child protection has evolved Additionally it identifies key questions and related issues When child maltreatment occurs it strikes chords in our hearts because we sense the terrible injustice inherent in the matter children are innocent and not able to protect themselves This book provides readers with an overview of how perceptions of child maltreatment have changed over the years and how the American child protection system has evolved to keep pace with them revealing the historical origins of current child protection issues and surveying efforts to find solutions The Smallest Victims is unique in stressing the subjective and relative nature of the social construction of child maltreatment as it includes abuse and neglect It identifies historical social factors and links them to perceptions of child maltreatment and responses to it How maltreatment was once perceived in pre American and American societies for example has had significant implications on the reactions it elicited from tolerance to outrage The book devotes a chapter to the exploitation of children in the labor market and as sexual victims timely subjects given the national interest in human trafficking Other chapters explore state intervention in family affairs and when children are removed from their homes The book also includes a detailed timeline that denotes critical milestones since antiquity *Journal of Proceeding and Addresses* National Education Association of the United States, 1924 Vols for 1866-70 include Proceedings of the American Normal School Association 1866-69 include Proceedings of the National Association of School Superintendents 1870 includes Addresses and journal of proceedings of the Central College Association *Eighth Pan American Child Congress, Washington, D. C., May 2-9, 1942*, 1948 *Child Abuse Prevention Act, 1973* United States. Congress. Senate. Committee on Labor and Public Welfare. Subcommittee on Children and Youth, 1973
