Malcolm, Michael Roe, 2003-06-30 Hello and welcome These are the proceedings of the 9th International Workshop on Security Protocols the first to be held in the new millennium This year our theme was mobile computing versus immobile security As usual the insights and challenges which emerged during the workshop are reflected in the position papers which appear here in rewritten form Transcripts are also included of the discussions which took place in Cambridge as the initial versions were presented These transcripts are intended to provide a perspective on lines of argument which are worth pursuing further Our desire is that you will join with us in this activity and that as a result you will like many of our participants feel moved to propound something quite different from what you originally planned Our thanks as always to Prof Roger Needham FRS and to Microsoft search Ltd Cambridge for the use of the meeting room and coffee machine Thanks also to Lori Klimasewska of the University of Cambridge Computing Service for transcribing the audio tapes and for revealing in Audrey James a previously unsuspected double life of a well known double agent and to Dr Mary Buchanan for her assistance

in editing the transcripts into a Thucydidean mould Actually we are often asked how we go about producing the transcripts especially upon those occasions when for various reasons no audio recording was made This year we bow to pressure and reveal the details of our methodology in the Afterword Security Protocols Bruce Christianson,Bruno Crispo,James A.
