Lantis, 2016-03-22 This book shows how one of the most powerful tools of security studies strategic culture illuminates the origins and implications of the Asia Pacific region's difficult issues from the rise of China and the American pivot to the shifting calculations of many other actors Strategic culture sometimes challenges and always enriches prevailing neo realist presumptions about the region It provides a bridge between material and ideational explanations of state behavior and helps capture the tension between neoclassical realist and constructivist approaches The case studies in this book survey the role of strategic culture in the behaviors of Australia China Japan the Philippines South Korea and the United States They show the contrast between structural expectations and cultural predispositions as realist geopolitical security threats and opportunities interact with domestic elite and popular interpretation of historical narratives and distinctive political military cultures to influence security policies The concluding chapter devotes special attention to methodological issues at the heart of strategic cultural studies as well as how culture may impact the potential for future conflict or cooperation in the region The result is a body of work that helps deepen our understanding of strategic cultures in the Asia Pacific in comparative perspective and enrich security studies This book was published as a special issue of Contemporary Security Policy      **Asian Security Reassessed** Stephen Hoadley, Jurgen Ruland, 2006 This book traces changes in the concept of security in Asia from realist to cooperative comprehensive and human security approaches and assesses a number of policy alternatives to management of both old and new security threats It surveys not only orthodox security threats such as tensions between regional powers or armed ethnic antagonists but also new sources of anxiety such as resource scarcity economic instability irregular migration community fragmentation and international terrorism Security policies of major powers such as China Japan and the United States and the moderating roles of regional organizations such as ASEAN ARF SCO and KEDO are evaluated in historical and contemporary perspectives Contributors proffer policy relevant insights where appropriate The book concludes that traditional security approaches remain valid but need to be adapted to the new challenges and offers suggestions for incorporating fresh Asian security perceptions into the agendas of policy makers analysts and scholars      Japan, Australia and Asia-Pacific Security Brad Williams, Andrew Newman, 2006-09-27 The threats to security in Southeast Asia have been serious and constant since the end of the Second World War The book provides an absorbing account of the evolution of a key axis of regional stability defence contacts between Japan and Australia tracing the relationship from the early post war period to the post 9 11 present Though most works have focused on their economic nexus Japan and Australia's defences and security ties have assumed increasing importance since the mid 1990s With problems such as North Korea's nuclear program and the China Taiwan standoff

ASEAN's Half Century Donald E. Weatherbee, 2019-04-29 This authoritative book provides a comprehensive political history of the Association of Southeast Asian Nations ASEAN the ten members of which are Brunei Cambodia Indonesia Laos Malaysia Myanmar the Philippines Singapore Thailand and Vietnam Leading scholar Donald E Weatherbee follows ASEAN from its inception in 1967 when it

was founded with the goal of promoting peace stability security and economic growth in the region Throughout a basic assumption of its leaders has been that the achievement of the first three conditions is necessary for the fourth Weatherbee traces ASEAN's three reinventions in 1976 it made security a primary Cold War interest in 1992 it refocused on economic integration in 2007 it adopted the ASEAN Charter which was the legal basis for the establishment of the ASEAN Community in 2015 He shows how at each stage of its development ASEAN has dealt at three levels of action the regional international order intra ASEAN relations and the spillover of the domestic politics of member states into regional relations particularly on questions of democracy and human rights ASEAN's greatest contemporary political challenge is in adapting to the regional impact of the US China rivalry particularly over South China Sea issues For ASEAN to maintain its claim to centrality as a driving force in the regional security architecture the author argues a fourth reinvention may be required Dispelling the myths surrounding the organization's achievements fifty years after its founding this book will be invaluable for all readers interested in ASEAN's role in the broader Asia Pacific region

*The Cold War as Cooperation* Roger E. Kanet, Edward A. Kolodziej, 1991

*Security Cooperation in the Pacific Islands* Joanne Wallis, Henrietta McNeill, James Batley, Anna Powles, 2025-03-20 Wallis McNeill Batley Powles and the contributors examine the dynamics of Pacific Islands security cooperation analysing how it helps address regional security challenges amid the broader strategic competition between China and the United States that is increasingly playing out in the region Pacific Island countries do not want to become pawns in this competition but its impacts are inescapable and are creating additional security challenges Compounding these effects are climate change and COVID 19 both of which have intersected with existing traditional and non traditional security challenges facing the region In response Pacific Island leaders have vowed to pursue greater security cooperation amongst themselves and with partner states This book addresses partner states interests in the region how these interests and Pacific priorities align and if not what the possible consequences may be It also analyses successful areas of security cooperation and tackles how challenges may be improved Incorporating a range of perspectives from key leaders practitioners and scholars this is an empirically grounded analysis of security cooperation within the Pacific Islands region and by the region's major partners A vital resource for researchers and practitioners seeking to better understand Pacific Islands security collaboration and the inherent challenges it faces The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**The GCC and the Development of ASEAN** Julius Caesar Parreñas, 1998-11-24 The Association of South East Asian Nations ASEAN is a grouping of originally five now nine resource rich and mostly economically dynamic countries which lie strategically between the Pacific and Indian Oceans astride sea lanes that are vital to the economic and military security of several Northeast Asian countries As a grouping that exerts strong influence in the Asia Pacific Economic Cooperation APEC and forms the core of the ASEAN Regional Forum ARF ASEAN is emerging as a key player in the security

and economic development of the Western Pacific region. Due to these factors, ASEAN's stability and continued development are essential to the future stability and prosperity of the whole Asia Pacific. In some respects, a linkage exists between the security and economic development of ASEAN and the Arab Gulf. Oil from the Arab Gulf is a very important factor in the economy of ASEAN countries. It is also important to the economic security of Japan, and the fact that this commerce passes through sea lanes in Southeast Asia accounts significantly for the latter's importance to Tokyo. This in turn is an essential consideration in the US strategy in Asia as its relationship with Japan continues to be the cornerstone of its policy. While non-oil trade between the Gulf states and ASEAN is not substantial, the Gulf is important to many ASEAN countries as a major destination of overseas workers whose remittances play a large role in their economy. Religion also forms a bond between the Gulf and several ASEAN countries where Islam is the faith of either a majority or a significant minority of the population.
