

Ancient Athens

The most powerful Classical city-state was Athens. Its bustling town spread out around a rocky hill called the Acropolis, topped with gleaming marble temples.

Around 100,000 people lived in Athens, including craftsmen, merchants, philosophers, and politicians.

The city was surrounded by high walls. Towered gateways were designed to let troops through and keep enemies out.

The first great marketplace in Athens was on the Acropolis. Later, the hill became a sacred place for worshipping the gods.

The agora market was at the heart of the city. Athenians came here to buy and sell goods, and catch up on the latest news.

The city's streets

The agora was surrounded by open-fronted market buildings called stoa.

Stoa of Poros

Place for worshipping gods

Many gods were discussed by a group of Athenians called the Areopagus. They met here in the heart of the city to discuss important issues.

A long road called the Panathenaic Way led from the main city gate.

Men, women and children lined up to work for each other. They went to the market square.

This building was used as a library, museum and a school.

Men could be in charge of the local government.

There were many other buildings in the city.

Athenian officials brought goods to market, but no one was selling anything.

Teachers and poets lived and wrote but only the rich could afford them.
