

A man with dark hair and a woman with short red hair are in a medieval-style room. The man is wearing a white long-sleeved shirt and a dark vest, and the woman is wearing a similar outfit. They are both looking down at something in the man's hands. The room has stone walls, a wooden door, and a small window. A large wooden barrel is visible in the background.

With both of her hands busy with the task, she was left defenseless as he began to gruffly kiss the pale, exposed flesh of the nape of her neck.

Boo Moon Boo Moon,1999 *Gnostic Anthropology*
Samael Aun Weor,2025-01-01 For centuries humanity has been caught between science evolutionism and religion creationism fighting about our origin and purpose Even though both sides have some truths both are crippled by blind faith in theories beliefs and speculations that are short on facts and abundant in contradictions and shortcomings What if the truth about life its origin purpose and future could be found through the union of science and religion What if rather than relying on fanatics who only repeat what they have been told one could learn to perceive and experience the truth for oneself This is the essential point of view of Gnosis knowledge from conscious experience By awakening consciousness which is religion to perceive reality as it is which is science one can begin to see that our history is far more incredible than modern science or religion suspect Based on this practical foundation Gnostic Anthropology explains the evolution of humanity as symbolized in the ancient teachings Rather than being the descendants of apes or of two divinely created people and the incest of their

children we are the outcome of a very long and slow spiral cycle evolution and devolution whose pattern includes the rise and fall of civilizations faintly remembered in myths and scriptures such as the stories of the universal flood Atlantis Lemuria Hyperborea Thule etc Just as a child resembles its parents but also is changed humanity also resembles its parents but with changes In the birth and development of a single human being we can find all the clues of our ancient origins All we need to know is how to look in order to see the truth for ourselves Modern science insists upon the doctrine of evolution so do human reason and the Secret Doctrine and the idea is corroborated by the ancient legends and myths and even by the Bible itself when it is read between the lines We see a flower slowly developing from a bud and the bud from its seed But whence the latter with all its predetermined programme of physical transformation and its invisible therefore spiritual forces which gradually develop its form colour and odour The word evolution speaks for itself The germ of the present human race must have preexisted in the parent of this race as the seed in which lies hidden the flower of next summer was developed in the capsule of its parent flower H P Blavatsky Isis Unveiled Vol I p 153
