The Life & the Work Charles G. Salas, 2007 It is often assumed that reading about the lives of artists enhances our understanding of their work and that their work reveals something about them but the relationship between biography and art is rarely straightforward In The Life and the Work art historians Thomas Crow Charles Harrison Rosalind Krauss Debora Silverman Paul Smith and Robert Williams address this fundamental if convoluted relationship Looking to such figures as Andy Warhol Bob Dylan Vincent van Gogh Paul C zanne Leonardo da Vinci and the artists associated with the name Art Language the volume s authors have written a set of provocative essays that explore how an artist s life and art are intertwined

Deleuze and the Schizoanalysis of Visual Art Ian Buchanan, Lorna Collins, 2014-07-31 The concept of schizoanalysis is Deleuze and Guattari s fusion of psychoanalytic inspired theories of the self the libido and desire with Marx inspired theories of the economy history and society Schizoanalysis holds that art s function is both political and aesthetic it changes perception If one cannot change perception then one cannot change anything politically This is why Deleuze and Guattari always insist that artists operate at the level of the real not the imaginary or the symbolic Ultimately they argue there is no necessary distinction to be made between aesthetics and politics They are simply two sides of the same coin both concerned with the formation and transformation of social and cultural norms Deleuze and the Schizoanalysis of Visual Art

explores how every artist good or bad contributes to the structure and nature of society because their work either reinforces social norms or challenges them From this point of view we are all artists we all have the potential to exercise what might be called a *aesthetico political* function and change the world around us or conversely we can not only let the status quo endure but fight to preserve it as though it were freedom itself Edited by one of the world's leading scholars in Deleuze Studies and an accomplished artist curator and critic this impressive collection of writings by both academics and practicing artists is an exciting imaginative tool for a upper level students and academics researching and studying visual arts critical theory continental philosophy and media
