an era of rapidly vanishing natural resources All Aboard! Stephanie Murphy-Lupo, 2016-01-15 Florida's size and shape meant a largely remote interior until shortly before the Civil War. The catalysts for blasting through that anonymity were three ambitious and very different visionaries who built railroads linking east to west and north to south: Henry Morrison Flagler, David Levy Yulee, and Henry Bradley Plant. Their iron horses transported people, rich tourists from New York, slaves from Africa sold in Havana, and goods from around the state and the globe: oysters, cattle, sugar cane, molasses, and phosphate. Versions of the main lines run today hauling freight in and out of the state and carrying passengers to connecting lines nationwide. Yet Florida's size and shape still get in the way of efficient auto trips and affordable inter-state air travel. A private company is today planning to build a high speed passenger train from Miami to Orlando. This book is the complete history of railways in the state of Florida, telling the tale of its beginnings as well as its future **Old Souls** Thomas

Shroder, 2011-05-17 A riveting firsthand account of one man's mission to investigate and document some of the most astonishing phenomena of our time: children who speak of past life memory and reincarnation. All across the globe, small children spontaneously speak of previous lives, beg to be taken home, pine for mothers and husbands and mistresses from another life, and know things that there seems to be no normal way for them to know. From the moment these children can talk, they speak of people and events from the past, not vague stories of centuries ago, but details of specific identifiable individuals who may have died just months, weeks, or even hours before the birth of the child in question. For thirty-seven years, Dr. Ian Stevenson has traveled the world from Lebanon to suburban Virginia, investigating and documenting more than two thousand of these past life memory cases. Now his essentially unknown work is being brought to the mainstream by Tom Shroder, the first journalist to have the privilege of accompanying Dr. Stevenson in his fieldwork. Shroder follows Stevenson into the lives of children and families touched by this phenomenon, changing from skeptic to believer as he comes face to face with concrete evidence he cannot discount in this spellbinding and true story **Twentieth Century United States**
