**Sensational Devotion** Jill Stevenson,2013-04-15 In *Sensational Devotion* Jill Stevenson examines a range of evangelical performances including contemporary Passion plays biblical theme parks Holy Land re creations creationist museums and megachurches to understand how they serve their evangelical audiences while shaping larger cultural and national dialogues Such performative media support specific theologies and core beliefs by creating sensual live experiences for believers but the accessible familiar forms they take and the pop culture motifs they employ also attract nonbelievers willing to try out

these genres even if only for curiosity's sake. This familiarity not only helps these performances achieve their goals but it also enables them to contribute to public dialogue about the role of religious faith in America. Stevenson shows how these genres are significant and influential cultural products that utilize sophisticated tactics in order to reach large audiences comprised of firm believers, extreme skeptics, and those in between. Using historical research coupled with personal visits to these various venues, the author not only critically examines these spaces and events within their specific religious, cultural, and national contexts but also places them within a longer devotional tradition in order to suggest how they cultivate religious belief by generating vivid, sensual, affectively oriented, and individualized experiences.

### **Theology and Survival Movies**

Ioan Buteanu, 2023-03-03. This book provides an innovative analysis of the survival movie genre from an Orthodox Christian anthropological perspective. Grounded in the Orthodox tradition, the approach builds from the first chapter of Genesis where man is described as made in the image and after the likeness of God. It offers a nuanced theological exploration of the concept of the survival movie and examines a number of significant cinematic creations illustrating how issues of survival intersect romantic Western science fiction and war films. The author reflects on how survival movies offer a path for the study of human nature given they depict people in crisis situations where they may reveal their true characters. As well as discussing the role of a limit situation as a narrative element, the book highlights the spiritual aspect of survival and points to the common hope in survival movies for something more than biological survival. It is valuable reading for scholars working in the field of religion and film.

*Film as Religion* John C. Lyden, 2003-06-01. Choice Outstanding Academic Title 2003. *Film as Religion* argues that popular films perform a religious function in our culture. Like more formal religious institutions, films can provide us with ways to view the world and values to confront it. Lyden contends that approaches which interpret films only ideologically or theologically miss the mark in understanding their appeal to viewers. He develops an alternative method which shows how films can be understood as representing a religious worldview in their own right. Lyden surveys the state of the study of religion and film, offering an overview of previous methods before presenting his own. Rather than seeking to uncover hidden meanings in film detectable only to scholars, Lyden emphasizes how film functions for its audiences: the beliefs and values it conveys and its ritual power to provide emotional catharsis. He includes a number of brief case studies in which he applies this method to the study of film genres including westerns and action movies, children's films, and romantic comedies, and individual films from *The Godfather* to *E.T.* showing how films can function religiously.

**The Sacred and the Cinema** Sheila J. Nayar,2012-03-29 For more than half a century now scholars have debated over what comprises a genuinely religious film one that evinces an authentic manifestation of the sacred Often these scholars do so by pitting the successful films against those which propagate an inauthentic spiritual experience with the biblical spectacular serving as their most notorious candidate This book argues that what makes a filmic manifestation of the sacred true or authentic may say more about a spectator or critic s particular way of knowing as influenced by alphabetic literacy than it does about the aesthetic or philosophical and sometimes even faith based dimensions of the sacred onscreen Engaging with everything from Hollywood religious spectaculars Hindu mythologicals and an international array of films revered for their transcendental style The Sacred and the Cinema unveils the epistemic pressures at the heart of engaging with the sacred onscreen The book also provides a valuable summation of the history of the sacred as a field of study particularly as that field intersects with film
