Seeing Double:

Seeing Double Françoise Meltzer, 2011-05-01 The poet Charles Baudelaire 1821-1867 has been labeled the very icon of modernity the scribe of the modern city and an observer of an emerging capitalist culture *Seeing Double* reconsiders this iconic literary figure and his fraught relationship with the nineteenth century world by examining the way in which he viewed the increasing dominance of modern life In doing so it revises some of our most common assumptions about the unresolved tensions that emerged in Baudelaire's writing during a time of political and social upheaval Françoise Meltzer argues that Baudelaire did not simply describe the contradictions of modernity instead his work embodied and recorded them leaving them unresolved and often less than comprehensible Baudelaire's penchant for looking simultaneously backward to an idealized past and forward to an anxious future while suspending the tension between them is part of what Meltzer calls his double vision a way of seeing that produces encounters that are doomed to fail poems that can't advance and communications that always seem to falter In looking again at the poet and his work *Seeing Double* helps to us to understand the prodigious transformations at stake in the writing of modern life

Seeing Double Susan A. Stephens, 2003-01-27 When in the third century B C E the Ptolemies became rulers in Egypt they found themselves not only kings of a Greek population but also pharaohs for the Egyptian people Offering a new and expanded understanding of Alexandrian poetry Susan Stephens argues that poets such as Callimachus Theocritus and Apollonius proved instrumental in bridging the distance between the two distinct and at times diametrically opposed cultures under Ptolemaic rule Her work successfully positions Alexandrian poetry as part of the dynamic in which Greek and Egyptian worlds were bound to interact socially politically and imaginatively The Alexandrian poets were image makers for the Ptolemaic court *Seeing Double* suggests their poems were political in the broadest sense serving neither to support nor to subvert the status quo but to open up a space in which social and political values could be imaginatively re-created examined and critiqued *Seeing Double* depicts Alexandrian poetry in its proper context within the writing of foundation stories and within the imaginative redefinition of Egypt as Two Lands no longer the lands of Upper and Lower Egypt but of a shared Greek and Egyptian culture

Seeing Double Peter Pesic, 2016-06-17 The unknown history of surveillance in relation to changing systems of representation and visual arts practice The separateness and connection of individuals is perhaps the central question of human life What exactly is my individuality To what degree is it unique To what degree can it be shared and how To the many philosophical and literary speculations about these topics over time modern science has added the curious twist of quantum theory which requires that the elementary particles of which everything consists have no individuality at all All aspects of chemistry depend on this lack of individuality as do many branches of physics From where then does our individuality come In *Seeing Double* Peter Pesic invites readers to explore this intriguing set of questions He draws on literary and historical examples that open the mind from Homer to Martin Guerre to Kafka philosophical analyses that have helped to make our thinking and speech more

precise and scientific work that has enabled us to characterize the phenomena of nature Though he does not try to be all inclusive Pesic presents a broad range of ideas building toward a specific point of view that the crux of modern quantum theory is its clash with our ordinary concept of individuality This represents a departure from the usual understanding of quantum theory Pesic argues that what is bizarre about quantum theory becomes more intelligible as we reconsider what we mean by individuality and identity in ordinary experience In turn quantum identity opens a new perspective on us **Seeing Double** Raymond Geuss,2024-04-15 The world is never going to make complete sense to us yet we find that conclusion almost impossible to accept Can we live and feel at home in a world composed at best of incompatible fragments of meaning This is the theme that runs through this collection of essays by Raymond Geuss Drawing on a characteristically wide range of insights from moral and political philosophy history and aesthetics he addresses topics such as knowledge of self the world and others language the visual and the auditory authority hope and the success and failure of life projects He argues that to get by in our bewildering world we must embrace the virtue of double vision that is immersing ourselves in and learning the ways of the culture surrounding us even as we feel alienated from it Together the essays explore some of the consequences of abandoning the idea of a unitary view of the world while at the same time trying to avoid quietism Seeing Double is a compelling collection of work by one of the world s most versatile and creative philosophers *Aggie Sees Double* Izzy Auld,2011-06-06 Aggie suspects she was invited to the Vermont retreat because of her friendship with the President Before leaving home though she catches her husband and cousin in bed She is so enraged if she had a gun shed shoot them both Thus overwrought and convinced she knows what it feels like to contemplate murder Aggie pursues one red herring after another in her half hearted attempt to finger a serial killer running amok at the retreat before anybody else dies Coming under suspicion are several doubles or pairs attending the retreat people she thinks of now as her friends Meanwhile the Holloway brothers plan how to manipulate the scene from their pink canoe on Lake Bomoseen They have planted a live weapon a person theyve hypnotized to take out the President when he and the First Lady arrive at the retreat to visit their good friend Aggie Morissey whom the Holloways have been sure got an invitation to this conference on Improving Family Relationships **Seeing Double** J Block Richard,2013-06-17 A psychologist and collector Block has put his life s work his enthusiasm and his knowledge into this treasure trove of puzzles illusions and double diversions Each page is guaranteed to surprise and delight while celebrating the amazing flexibility and creativity of the human mind and mind bending illustrations that trick the eye into seeing two different images and never both at the same time Double illusions upside downs ambiguous images and ambigrams are smartly organized by technique and illusory effect with vivid descriptions of the psychological impact of each image as well as current scientific explanations for each stunning effect Psychologist and collector J Richard Block has put his life s work his enthusiasm and his knowledge into this wonderfully fun informative treasure trove of classic and contemporary puzzles illusions and double diversions **Seeing Double** J. Mirror Man Ronald A.Fenn,2011-07-20 The book is a compilation of short vignettes describing certain seen observations from the point of view of one living in an unreal environment and unreal reality except for sometimes far too much of both It tries to explain through a mental split of thinking the disorder of being black and white on a red and white flag which the flag of Nigeria was used to make a new flag for a young nation at peace Some of the book is autobiographical and some more involved in detailed analysis of control by technology and the human animal Man It may seem to be rather complex and hard to read but one must understand I wrote the book in a psychiatric hospital being brainwashed to get back on my feet again It spans a life time of observation in the nation of Canada as seen through an african who is white blinded by so many mindsets about colour and race and origins Leaving everything behind that was most precious in Africa I have had to live this nation s reality as my own sight seen or unseen often misplaced or taken for granted or isolated and or used and abused *The Director and Directing* Adam J. Ledger,2019-04-02 This book critically assesses the artistry of contemporary directors Its discussion includes the work of Declan Donnellan Thomas Ostermeier Deborah Warner Simon Stone and Krzysztof

Warlikowski Alongside the work of wider theorists Patrice Pavis and Erika Fischer Lichte it uses neuroaesthetic theory Semir Zeki and cognitive and creative process models to offer an original means to discuss the performance event emotion brain structures and concepts and the actor's body in performance It offers first hand observation of rehearsals led by Katie Mitchell Ivo van Hove Carrie Cracknell and the Steppenwolf Theatre It also explores devising in relation to the work of Simon McBurney and contemporary groups and scenography in relation to the work of Dmitry Krymov Robert Wilson and Robert Lepage The Director and Directing argues that the director creates a type of knowledge reward and resonant experience G Gabrielle Starr through instinctive and expert choices **Hand-books of Natural Philosophy and Astronomy** Dionysius

Dialogue and Deconstruction Diane P. Michelfelder,Richard E. Palmer,1989-07-03 Before the encounter in 1981 between Hans Georg Gadamer and Jacques Derrida there had been virtually no confrontation or dialogue between hermeneutics in Germany and post structuralism in France nor has there been since then Part I of this book makes available for the first time in English the complete texts of the encounter at the Goethe Institute in Paris This exchange raised such issues as Gadamer's relation to psychoanalytic interpretation the questionability of texts Heidegger's reading of Nietzsche and the dialogical aspect of language Part II offers further reflections by Gadamer on the encounter itself and its relation of hermeneutics to deconstruction Among the issues covered are Derrida's interpretation of Destruktion in Heidegger Derrida's attack on logocentrism in Heidegger's interpretation of Nietzsche and the relation of Heidegger hermeneutics and deconstruction to dialectic Part III offers commentaries on the encounter from a variety of perspectives The authors assess the original encounter as well as Gadamer's subsequent reflections on it **This Time Next Year We'll Be Laughing** Jacqueline

Winspear,2020-11-10 A 2021 Edgar Award Nominee for Best Critical Biographical Jacqueline Winspear has created a memoir of her English childhood that is every bit as engaging as her Maisie Dobbs novels just as rich in character and detail history and humanity Her writing is lovely elegant and welcoming Anne Lamott The New York Times bestselling author of the Maisie Dobbs series offers a deeply personal memoir of her family's resilience in the face of war and privation After sixteen novels Jacqueline Winspear has taken the bold step of turning to memoir revealing the hardships and joys of her family history Both shockingly frank and deftly restrained her story tackles the difficult poignant and fascinating family accounts of her paternal grandfather's shellshock her mother's evacuation from London during the Blitz her soft spoken animal loving father's torturous assignment to an explosives team during WWII her parents years living with Romany Gypsies and Winspear's own childhood picking hops and fruit on farms in rural Kent capturing her ties to the land and her dream of being a writer at its very inception An eye opening and heartfelt portrayal of a post War England we rarely see **This Time Next Year We'll Be Laughing** chronicles a childhood in the English countryside of working class indomitability and family secrets of artistic inspiration and the price of memory **Leviathan and the Air-Pump** Steven Shapin,Simon Schaffer,2011-09-04 Leviathan

and the Air Pump examines the conflicts over the value and propriety of experimental methods between two major seventeenth century thinkers Thomas Hobbes author of the political treatise Leviathan and vehement critic of systematic experimentation in natural philosophy and Robert Boyle mechanical philosopher and owner of the newly invented air pump The issues at stake in their disputes ranged from the physical integrity of the air pump to the intellectual integrity of the knowledge it might yield Both Boyle and Hobbes were looking for ways of establishing knowledge that did not decay into ad hominem attacks and political division Boyle proposed the experiment as cure He argued that facts should be manufactured by machines like the air pump so that gentlemen could witness the experiments and produce knowledge that everyone agreed on Hobbes by contrast looked for natural law and viewed experiments as the artificial unreliable products of an exclusive guild The new approaches taken in Leviathan and the Air Pump have been enormously influential on historical studies of science Shapin and Schaffer found a moment of scientific revolution and showed how key scientific givens facts interpretations experiment truth were fundamental to a new political order Shapin and Schaffer were also innovative in their ethnographic approach Attempting to understand the work habits rituals and social structures of a remote unfamiliar group they argued that politics were tied up in what scientists did rather than what they said Steven Shapin and Simon Schaffer use the confrontation between Hobbes and Boyle as a way of understanding what was at stake in the early history of scientific experimentation They describe the protagonists divergent views of natural knowledge and situate the Hobbes Boyle disputes within contemporary debates over the role of intellectuals in public life and the problems of social order and assent in Restoration England In a new introduction the authors describe how science and its social context were understood when this book was first published and how the study of the history of science has changed since then
