Seeking The Mythical Future

Trevor Hoyle

Seeking The Mythical Future:

Seeking the Mythical Future Trevor Hoyle, 1982 Sailing across the oceans of Earth IVn the crew of the ship Slave Trader encounters a mysterious castaway whose translucent skin is branded with a Q **Seeking the Mythical Future** Trevor Hoyle, 2014-07-24 An acclaimed scientist is chosen to travel through alternate futures to find safe haven and instead finds a totalitarian world of dictators and concentration camps Christian Queghan is a Myth Technologist a highly respected scientist on Earth IVN Like so many other worlds colonised generations ago the planet was created to be as much like Old Earth as possible even though Old Earth itself is now pretty much a myth the stuff of legend But Earth IVN has its problems too Now a machine has been developed to project a researcher into one of the infinite number of possible futures of Earth IVN and Christian Queghan is the ideal subject He can't resist the idea of going where no man has gone before but there are an infinite number of possible futures and no guarantee of a safe return On a parallel world a strange translucent figure is found floating in the blood red ocean on a craft of scorched metal Could the alien's claim to come from the future be true Or is this totalitarian world of dictators and concentration camps a dream projection from another dimension Seeking the Mythical Future is Book One of the Q Series an epic science fiction adventure through parallel worlds **Q, Seeking the Mythical Future** Trevor Hoyle, 1977 **The Q Series** Trevor Hoyle, 2018-06-14 The Q Series includes Seeking the Mythical Future Through the Eye of Time and The Gods Look Down An acclaimed scientist is chosen to travel through alternate futures to find safe haven and instead finds a totalitarian world of dictators and concentration camps Christian Queghan is a Myth Technologist a highly respected scientist on Earth IVN Like so many other worlds colonised generations ago the planet was created to be as much like Old Earth as possible even though Old Earth itself is now pretty much a myth the stuff of legend But Earth IVN has its problems too Now a machine has been developed to project a researcher into one of the infinite number of possible futures of Earth IVN and Christian Queghan is the ideal subject He can't resist the idea of going where no man has gone before but there are an infinite number of possible futures and no guarantee of a safe return On a parallel world a strange translucent figure is found floating in the blood red ocean on a craft of scorched metal Could the alien's claim to come from the future be true Or is this totalitarian world of dictators and concentration camps a dream projection from another dimension The Q Series is an epic science fiction adventure through parallel worlds **The Time Dimension** T K. Das, 1990-04-17 This is the first comprehensive bibliography of temporal scholarship research on the subject of time and the phenomenon of time itself As the author notes in his introduction the nature of research insights on the subject of time is difficult to comprehend within the confines of any specific discipline since relevant materials are scattered throughout the literature in numerous scholarly fields By bringing together the most significant published works in a wide variety of disciplines this unique compendium enables scholars and researchers to look beyond their own particular area of expertise when selecting appropriate resource materials Throughout the focus is on the time dimension itself as a problematic or

researchable phenomenon rather than on narrow topics such as time management time series analysis or forecasting

Organized by discipline the work begins with an initial chapter that lists general works on the time dimension Nineteen chapters then list works in particular disciplines ranging from anthropology and culture to biology economics futures studies history linguistics management studies psychology and more The final chapter lists miscellaneous entries which could not be categorized into any of the specific disciplinary headings Within each chapter entries are arranged alphabetically by author or editor Nearly all sources are from scholarly journals and books

Science Fact and Science Fiction Brian M. Stableford, 2006 Publisher description

Breaking the Time Barrier Jenny Randles, 2005-04-05 The race to build the first time machine

Knowing Future Time In and Through Greek Historiography Alexandra Lianeri, 2016-03-07 From the early modern period Greek historiography has been studied in the context of Cicero's notion *historia magistra vitae* and considered to exclude conceptions of the future as different from the present and past Comparisons with the Roman Judeo Christian and modern historiography have sought to justify this perspective by drawing on a category of the future as a temporal mode that breaks with the present In this volume distinguished classicists and historians challenge this contention by raising the question of what the future was and meant in antiquity by offering fresh considerations of prognostic and anticipatory voices in Greek historiography from Herodotus to Appian and by tracing the roots of established views on historical time in the opposition between antiquity and modernity They look both at contemporary scholarly argument and the writings of Greek historians in order to explore the relation of time especially the future to an idea of the historical that is formulated in the plural and is always in motion By reflecting on the prognostic of historical time the volume will be of interest not only to classical scholars but to all who are interested in the history and theory of historical time

Science Fiction and Fantasy Literature, 1975-1991 R. Reginald, Mary Wickizer Burgess, Daryl Furumi Mallett, 1992 Science fiction constitutes one of the largest and most widely read genres in literature and this reference provides bibliographical data on some 20 000 science fiction fantasy and horror fiction books as well as nonfiction monographs about the literature A companion to Reginald's *Science Fiction and Fantasy Literature 1700 1974* Gale 1979 the present volume is alphabetically arranged by approximately 10 000 author names The entry for each individual work includes title publisher date and place published number of pages hardbound or paperback format and type of book novel anthology etc Where appropriate entries also provide translation notes series information pseudonyms and remarks on special features such as celebrity introductions Includes indexes of titles series awards and doubles for locating volumes containing two novels Annotation copyright by Book News Inc Portland OR

Pacifism David A. Martin, 2013-07-04 First published in 1998 This book is divided into two parts The first part is concerned with expounding a broad framework and with illustrating it from a wide variety of historical examples The second part narrows the focus to modern Britain largely in the nineteenth and twentieth centuries and has particular reference to the years covered by the world wars 1914 1945 The aim of the second part is to exemplify the framework in detail within the

specific context of British history However it would have been quite as feasible to select American history for this purpose

Forever Pursuing Genesis Leonard Mustazza,1990 The title of this book Forever Pursuing Genesis derives from a statement that Vonnegut once made about the nature of the universe and humankind's place in it This study applies that statement to the narrative themes that Vonnegut has treated in his career

Big Tradition and Chinese Mythological Studies Jiansheng Hu,2020-08-11 This book focuses on reinterpreting mythical China from the perspective of the cultural theory of big tradition It is divided into two parts the first explains the theoretical development and features of the Chinese version of big tradition identifying the differences between the Eastern and Western cultural traditions big tradition and great tradition The second part then reinterprets the core values and mythical ideas of Chinese civilization and traditional culture from the perspective of big tradition Moving beyond the small tradition of text centrism and using new methods and materials the book reveals the original meaning and the cultural coding function of big tradition during the preliterate period Drawing on integrated evidence from literature handed down from ancient times oral and intangible cultural heritage tangible culture cross cultures image culture and unearthed documents the book interprets Chinese cultural traditions and spiritual values from local archaeological experiential and survival perspectives to help readers better understand the mythical codes and genes of early Chinese culture

Digital Technologies in the Lives of Young People Chris Davies,John Coleman,Sonia Livingstone,2015-10-14 This book examines the presence and effects of new technologies in the lives of young people The rapid pace of change in the development and use of digital technologies and the likely impact this has on youth means that the topic has wide implications for educational institutions theory and practice There is a demand for a concentration on the ways in which new devices such as smart phones and tablets as well as new platforms and recent notions such as the flipped classroom are affecting the way education is being provided However there is also still a small minority who do not have full access to the internet and the disadvantages suffered by this group must also be addressed The internet offers a vast range of opportunities for young people and yet for various reasons it is not always available This can partly be attributed to the controls that schools impose on the use of digital technology for reasons of safety and security and can in part be explained by the fact that policy makers have contradictory attitudes to technology While they may argue for the need to have a well educated and well trained workforce they fear the threats to privacy and safety posed by the internet This book asserts that society needs to have more open debate about the threats and opportunities of digital technology as it is a dynamic and ever changing topic for us all This book was originally published as a special issue of the Oxford Review of Education

Anthropologies and Futures Juan Francisco Salazar,Sarah Pink,Andrew Irving,Johannes Sjöberg,2020-05-15 Anthropology has a critical practical role to play in contemporary debates about futures This game changing new book presents new ways of conceptualising how to engage with a future oriented research agenda demonstrating how anthropologists can approach futures both theoretically and practically and introducing a set of innovative research methods

to tackle this field of research Anthropology and Futures brings together a group of leading scholars from across the world including Sarah Pink Rayna Rapp Faye Ginsburg and Paul Stoller Firmly grounded in ethnographic fieldwork experience the book's fifteen chapters traverse ethnographies with people living with HIV AIDS in Uganda disability activists in the U S young Muslim women in Copenhagen refugees in Milan future makers in Barcelona planning and land futures in the UK the design of workspaces in Melbourne rewilding in the French Pyrenees and speculative ethnographies among emerging communities in Antarctica Taking a strong interdisciplinary approach the authors respond to growing interest in the topic of futures in anthropology and beyond This ground breaking text is a call for more engaged interventional and applied anthropologies It is essential reading for students and researchers in anthropology sociology cultural studies design and research methods

The Routledge Companion to Narrative Theory Paul Dawson, Maria Mäkelä, 2022-07-18 The Routledge Companion to Narrative Theory brings together top scholars in the field to explore the significance of narrative to pressing social cultural and theoretical issues How does narrative both inform and limit the way we think today From conspiracy theories and social media movements to racial politics and climate change future scenarios the reach is broad This volume is distinctive for addressing the complicated relations between the interdisciplinary narrative turn in the academy and the contemporary boom of instrumental storytelling in the public sphere The scholars collected here explore new theories of causality experientiality and fictionality challenge normative modes of storytelling and offer polemical accounts of narrative fiction nonfiction and video games Drawing upon the latest research in areas from cognitive sciences to complexity theory the volume provides an accessible entry point for those new to the myriad applications of narrative theory and a point of departure for new scholarship

Deliver Us from Evil Richard H. Bell, 2007 My initial goal was to write a book on the defeat of Satan in New Testament theology covering all the witnesses of the New Testament using a title such as falling like lightning But it became evident that although the defeat of Satan is central to the exorcisms of the synoptic gospels many authors of the New Testament simply do not speak explicitly about a defeat of Satan For example Paul Ephesians and Colossians if they explicitly speak of the devil or allude to him speak instead of being redeemed from the dominion of Satan I therefore moved more in the direction of considering how the human being is redeemed from the effects of Satan Preface

Cassirer and Langer on Myth William Schultz, 2013-09-13 This book provides a detailed overview of the approach by two of the leading philosophical theorists of myth **St. James Guide to Science Fiction Writers** Jay P. Pederson, 1996 Concise discussions of the lives and principal works of prominent science fiction authors written by subject experts

Through the Eye of Time Trevor Hoyle, 2014-07-24 In an alternate universe Germany and not the United States has developed the first atomic bomb and now a group of scientists on the planet Earth IVn are seeking a way to bring that research back While investigating their research scientist and myth technologist Christian Queghan discovers that they are now attempting to duplicate Adolf Hitler's brain If Queghan is to avert this threat to the known world he himself must first

get to the alternate universe but the scientists are determined to let nothing and no one stand in their way to introduce a New Order to earth IVn Through the Eye of Time is Book Two of the Q Series a thrilling epic science fiction adventure through parallel worlds

Holy Yesterday Mythical Tomorrow Ricky Firman, 2025-02-01 From fiery sacrifices to viral memes the divine narrative of humanity has been anything but dull Holy Yesterday Mythical Tomorrow How Religions Become Myth is a bold darkly comedic exploration of the lifecycle of faith and a thought provoking follow up to Ricky Firman's acclaimed book Holy Olympics Religions War for Relevance and Dominance While Holy Olympics tackled the competitive struggle of religions to assert their dominance in a modern world this sequel shifts focus to the inevitable transformation of those same faiths into mythology In this latest work Ricky examines how gods are born from humanity's fears ignorance and creativity only to be retired to the realms of myth when time progress and logic outpace their relevance This book dissects the rise and fall of deities across civilizations from the grandeur of Zeus's thunderbolts to the eerie rituals of Mesoamerican gods and speculates how the gods worshipped today might fare in the distant future With biting wit and incisive commentary Ricky connects the sacred to the satirical revealing the absurdity of divine politics the commodification of faith and the endless human quest for meaning As humanity marches forward with science and technology as its new priests Holy Yesterday Mythical Tomorrow ponders the cosmic irony of how ancient beliefs persist in the age of information The book culminates in a speculative hilarious vision of what the gods of tomorrow might look like in a world ruled by AI aliens and billionaire messiahs Whether you're a skeptic a believer or something in between this book will provoke entertain and challenge your view of religion and its inevitable transformation into myth Because in the end the sacred and the absurd have always been partners in humanity's eternal cosmic joke
