 Religious terrorism has become the scourge of the modern world What causes a person to kill innocent strangers in the name  
 of religion As both a clinical psychologist and an authority on comparative religion James W Jones is uniquely qualified to  
 address this increasingly urgent question Research on the psychology of violence shows that several factors work to make  
 ordinary people turn evil These include feelings of humiliation or shame a tendency to see the world in black and white and  
 demonization or dehumanization of other people Authoritarian religion or fundamentalism Jones shows is a particularly rich  
 source of such ideas and feelings which he finds throughout the writings of Islamic jihadists such as the 9 11 conspirators  
 Jones goes on to apply this model to two very different religious groups that have engaged in violence Aum Shinrikyo the  
 Buddhist splinter group behind the sarin gas attacks in the Tokyo subway system and members of the extreme religious right  
 in the U S who have advocated and committed violence against abortion providers Jones notes that not every adherent of an  
 authoritarian group will turn to violence and he shows how theories of personality development can explain why certain  
 individuals are easily recruited to perform terrorist acts *Literary Digest: a Repository of Contemporaneous Thought and

**The Culturalization of Caste in India** Balmurli Natrajan, 2011-07-20 In India caste groups ensure their durability in an era of multiculturalism by officially representing caste as cultural difference or ethnicity rather than as unequal descent based relations Challenging dominant social theories of caste this book addresses questions of how caste survives the system that gave rise to it and adapts to new demands of capitalism and democracy Based on original fieldwork the book shows how the terrain of culture captured by a new grammar of caste revitalizes castes as cultural communities so that the culture of a caste is produced organized and naturalized in the process of transforming jati fetishized blood and kinship into samaj fetishized culture Castes are shown to not be homogenous cultural wholes but sites of hegemony where class gender and hierarchy over determine the meanings and materiality of caste Arguing that there exists a new casteism in India akin to a new racism in the USA built less on biology and descent and more on purported cultural differences and their rights to exist the book presents an extended critique and a search for an alternative view of caste and anti casteist politics It is of interest to students and scholars of South Asian culture and society
