Seizures Of Youth The Sixties And Australia:

APAIS 1992: Australian public affairs information service , The 1960s in Australia Shirleene Robinson, Julie Ustinoff, 2012-01-17 The 1960s is one of the most heavily mythologised decades of the twentieth century More than 50 years on the era continues to capture the public s imagination The 1960s in Australia People Power and Politics recognises the complexity of social and cultural change by presenting a broad range of contributions that acknowledge an often overlooked fact that not everyone experienced the 1960s in the same way The diversity of the time is confirmed by contributions from a number of expert Australian historians who each provide an insight into Australia in the 1960s offering an understanding of the social realities of this period as well as the ebbs and flows of transnational influence This collection includes a featured contribution by prominent Australian historian Raymond Evans who provides a personal insight into the 1960s Other contributors also place the lived experience at the centre of their analysis by considering the growth of modern flats the impact of cosmopolitanism and sex and sexuality in the Sixties The book also highlights the way power was deployed and deconstructed during this era by considering the psychiatric profession the agenda of the counter culture and the role that women s magazines played in reinforcing dominant gender paradigms The complex politics of the era are also explored through the transnational impact of figures such as Anthony Crosland the impact of the Vietnam War and the multiplicity of motivations behind the anti war protest and the Aboriginal rights movement of the era The 1960s in Australia Power People and Politics is a fresh focus on a significant time in Australia s history It brings together a collection of innovative and engaging explorations into the Australian Sixties which underline the complexity of the time *Anti-Disciplinary Protest* Julie Stephens, 1998-04-13 The sixties were a time when anti disciplinary politics blurred the boundaries between the political and the aesthetic and according to some critics the time when the possibility for revolution died In this book first published in 1998 Stephens questions the frameworks which inform commonplace understandings of this period arguing that the most distinctive forms of sixties protest are often marginalized or excluded from view She looks at the problematic ways in which sixties radicalism has been narrativised and critically evaluates the modernist and postmodern impulses that can be discerned in the anti disciplinary protest of the time Stephens develops a new theoretical framework for conceptualizing the relationship between the sixties and later political and theoretical developments Drawing on broad ranging lively and often rare sources this is a provocative contribution to contemporary social theory and cultural studies *Seizures of Youth* Robin Gerster, Jan Bassett, 1991 An overview of the impact and legacy of the turbulent 1960s in Australia Drawing on newspapers fiction drama and film the authors set the political and social upheaval of the decade in its historical context Written by an English lecturer from Monash University and an ex education lecturer from La Trobe University Includes an index

From a Ministry for Youth to a Ministry of Youth Ruth Lukabyo, 2020-09-30 At a time of unprecedented secularization and declining church attendance youth ministry in the twenty first century should be doomed So why is Protestant youth ministry in Sydney vibrant and in many places growing This book sets out to answer this question which is of such importance for the future of the Australian church A pioneering model of youth ministry evolved in the 1930s and was already flourishing in churches schools and university by the 1950s Its early high point was the Billy Graham Crusade of 1959 which may legitimately be seen as an Australian youth revival The new model broke with past practice by cultivating ministry leadership by young people by promoting peer groups to nurture and share faith and by fostering ministry collaboration between young men and women The model used by theological conservatives and liberals alike and has proved both enduring and fruitful This book will engage with the model of youth ministry and the religious experiences of young people in Sydney By reading it you will not only learn from the significant achievements of young people in the past but be better equipped to creatively consider new methods of ministry for the twenty first century **Food, Morals and Meaning**

John Coveney, 2002-01-04 Food Morals and Meaning examines our need to discipline our desires our appetites and our pleasures at the table However instead of seeing this discipline as dominant or oppressive it argues that a rationalisation of pleasure plays a positive role in our lives allowing us to better understand who we are The book begins by exploring the way that concerns about food the body and pleasure were prefigured in antiquity and then how these concerns were recast in early Christianity as problems of natural appetite which had to be curbed The following chapters discuss how scientific knowledge about food was constructed out of philosophical and religious concerns about indulgence and excess in 18th and 19th Century Europe Finally by using research collected from in depth interviews with families the last section focuses on the social organisation of food in the modern home to illustrate the ways that the meal table now incorporates the principles of nutrition as a form of moral training especially for children Food Morals and Meaning will be essential reading for those studying nutrition public health sociology of health and illness and sociology of the body Key Features l Health sociology is a rapidly growing subject area

USA and Australia this book explores the rise of the Aboriginal Black Power Movement in the 1960s and early 1970s. Aboriginal adaptation of the American Black Power movement paved the way for future forms of radical Aboriginal resistance including the eventual emergence of the Australian Black Panther Party. Through analysis of archival material including untouched government records, previously unexamined newspapers and interviews conducted with both Australian and American activists, this book investigates the complex and varied process of developing the Black Power movement in a uniquely Australian context. Providing a social and political account of Australian activism across Victoria, New South Wales and Queensland, the author illustrates the fragmentation of Aboriginal Black Power marked by its different leaders, protests and propaganda.

Poverty Law and Social Change John Chesterman, 2015-09-07. Law for the Poor and Lawyers for the People declared the headlines that announced the opening of the Fitzroy Legal Service in December 1972. In a dingy town hall basement in one of the poorest suburbs of Melbourne, this new legal service set out to do the unthinkable: to provide free legal advice to all comers. Almost a quarter of a century later, under an equally radical Liberal government, the Fitzroy Legal Service has found itself cast in the unlikely role of a defender of the status quo against reforms that threaten judicial independence and restrict the availability of legal aid. John Chesterman traces the evolution of the Fitzroy Legal Service from a thorn in the side of the legal profession to a valued contributor to legal debate. In this process, he provides an entertaining and perceptive account of the forces that have prompted legal reform in Australia from the early 1970s, particularly in the development of legal aid.

Living with the Aftermath Joy Damousi, 2001. This text on shifting patterns of mourning and grief focuses on the experiences of Australian women who lost their husbands during World War II and the wars in Korea and Vietnam. It makes use of oral testimonies to illustrate how widows internalized the traumas of their husbands' war experience.

Keeper Of The Faith Paul Strangio, 2013-06-14. Jim Cairns is a familiar sight around the markets of Melbourne, seated at a table stacked with copies of his latest book. It seems an unlikely occupation for a man who was once the driving force and major thinker in the Labor Party. Left a man who reached the positions of Deputy Prime Minister and Treasurer in Australia's most reformist government under Gough Whitlam, Cairns' post-1975 trajectory bewildered many of his one-time followers, not least the significant section of the baby boomer generation who rallied behind him during the Moratoriums against the Vietnam War. To some, he is a tragic fallen hero; to others, a relic of an earlier age of idealism. But Cairns was never a conventional politician. In this mature and sophisticated biography, Paul Strangio draws a compelling picture of the inner man, revealing a consistent thread running through the apparent contradictions of Cairns' public career. He explains how a policeman turned into a counter culture guru, how an opponent of capitalism became Treasurer of Australia, how a devoted husband could feel a kind of love for Junie Morosi. Both highly readable and carefully researched, *Keeper of the Faith* reassesses the part Cairns played in shaping Australian public life. In tracing his ideological and political rivalry with Whitlam, it challenges the popular nostalgia that surrounds his former leader. Strangio argues that Cairns' contribution to public life

especially as a voice of dissent against the established order has been seriously underestimated Drawing on a rich range of archival and oral sources and recounting many fascinating anecdotes this is a masterly portrait of one of those rare people who never waver in their search for truth

State Crime and Resistance Elizabeth Stanley, Jude McCulloch, 2012-11-27

Within criminology the state is often ignored as an active participant or represented as a neutral force While state crime studies have proliferated criminologists have not paid attention to the history and impact of resistance to state crime This book recognises that crimes of the state are far more serious and harmful than crimes committed by individuals and considers how such crimes may be contested prevented challenged or stopped Gathering together key scholars from the UK USA Asia Australia and New Zealand this book offers a deepened understanding of state crime through the practical and analytical lens of resistance This book focuses on crimes ranging from gross violations of human rights such as genocide war crimes mass killings summary executions torture harsh detention and rape during war to entrenched discrimination unjust social policies border controls corruption fraud resource plunder and the failure to provide the regulatory environment and principled leadership necessary to deal with global warming As the first to focus on state crime and resistance this collection inspires new questions as it maps the contours of previously unexplored territory It is aimed at students and academics researching state crimes resistance human rights and social movements It is also essential reading for all those interested in joining the struggles to champion ways of living that value humanity and justice over power

Pansy Peter McPhee, 2012-11-27 A stirrer and shaker a boat rocker and a confounded nuisance Geoffrey Serle Roy Douglas Pansy Wright was one of the great Australians of the twentieth century Born on a hill country farm in northern Tasmania in 1907 he became an extraordinarily successful medical scientist and a builder of institutions such as the Australian National University the Peter MacCallum Cancer Clinic and the Howard Florey Institute He was loved for his brilliant often ribald wit his fierce loyalties and his sympathy for the underdog He died in 1990 shortly after completing a decade as Chancellor of the University of Melbourne Wright was a legendary teacher and much loved colleague and mentor However his ebullient style disguised the private difficulties of a person who was often unhappy and awkward with intimacy He was also a controversial man His rivals interpreted his relentless energy in creating medical institutions as megalomania Others found his blunt personal style abrasive and offensive In particular his championing of Professor Sydney Sparkes Orr dismissed by the University of Tasmania in 1956 for allegedly having seduced one of his students embroiled him in a decade of public controversy In this delightfully lucid biography Peter McPhee reveals the many contradictions in this complex and brilliant man

What Were They Thinking? James Walter, Professor of Australian Studies James Walter, 2010-10 Ideas are at the heart of our politics They are the means by which people are influenced and mobilised Australian politics have been shaped by distinctive patterns of political thought from the colonial period to the Rudd government But how have these patterns arisen And what have been their effects on shaping what we think is politically possible or desirable This book is not a survey

"Jews, Race and Popular Music " Jon Stratton, 2017-07-05 Jon Stratton provides a pioneering work on Jews as a racialized group in the popular music of America Britain and Australia during the twentieth and early twenty first centuries Rather than taking a narrative historical approach the book consists of a number of case studies looking at the American British and Australian music industries Stratton's primary motivation is to uncover how the racialized positioning of Jews which was sometimes similar but often different in each of the societies under consideration affected the kinds of music with which Jews have become involved Stratton explores race as a cultural construction and continues discussions undertaken in Jewish Studies concerning the racialization of the Jews and the stereotyping of Jews in order to present an in depth and critical understanding of Jews race and popular music
