**Reimagining Shakespeare's Playhouse** Joe Falocco, 2010 Numerous attempts have been made in the modern and

postmodern era to recreate the staging conventions of Shakespeare's theatre from William Poel to the founders of the New Globe. This volume examines the work of these directors analyzing their practical successes and failures; it also engages with the ideological critiques of early modern staging advanced by scholars such as W. B. Worthen and Ric Knowles. The author argues that rather than indulging in archaism for its own sake, the movement looked backward in a progressive attempt to address the challenges of the twentieth century. The book begins with a re-examination of the conventional view of Poel as an antiquarian crank. Subsequent chapters are devoted to Harley Granville Barker and Nugent Monck; the author argues that while Barker's major contribution was the dubious achievement of establishing the movement's reputation as an essentially literary phenomenon, Monck took the first tentative steps toward an architectural reimagining of modern performance space, an advance which led to later triumphs in early modern staging. The book then traces the sporadic and irregular development of Tyrone Guthrie's commitment to early modern practices. The final chapter looks at how competing historical theories of playhouse design influenced the construction of the Globe, while the conclusion discusses the ongoing potential of early modern staging in the new millennium.

Procházka, Andreas Höfele, Hanna Scolnicov, Michael Dobson, 2013-12-12. Special attention is given to the impact of Shakespeare on diverse cultures from the Native Americans to China and Japan. *Lighting the Shakespearean Stage, 1567 - 1642* Robert B. Graves, 1999-12-08. In *Lighting the Shakespearean Stage 1567-1642*, R. B. Graves examines the lighting of early modern English drama from both historical and aesthetic perspectives. He traces the contrasting traditions of sunlit amphitheaters and candlelit hall playhouses, describes the different lighting techniques, and estimates the effect of these techniques both indoors and outdoors. Graves discusses the importance of stage lighting in determining the dramatic effect, even in cases where the manipulation of light was not under the direct control of the theater artists. He devotes a chapter to the early modern lighting equipment available to English Renaissance actors and surveys theatrical lighting before the construction of permanent playhouses in London. Elizabethan stage lighting, he argues, drew on both classical and medieval precedents.

**Shakespeare: The Evidence** Ian Wilson, 1999-01-15. This book takes on all of the famous Shakespearean debates, from whether or not Shakespeare actually wrote his plays to speculation regarding his sexuality to the mysterious curse he set upon his own grave.
