By exploring the diversity of Shakespeare's engagement with history in all its forms, these contributors open up a range of new interpretive possibilities for understanding the way history plays with the past. The book is divided into three sections: Memory and mourning; Counter-histories; Identity and performance. In each section, leading theorists, historicists, and performance critics offer fresh perspectives on the key issues that are transforming our understanding of Shakespeare. These include gender and violence, the mapping of Britain, cultural memory, and religion. This collection will appeal to all critically engaged readers of Shakespeare.
