Michael Berman,2009-03-26 Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables or fables However the definitions of the terms have a tendency to overlap making it difficult to classify and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that

contains a number of the elements typical of such a journey Other characteristics include the way in which the stories all tend to contain embedded texts often the account of the shamanic journey itself how the number of actors is clearly limited as one would expect in subjective accounts of what can be regarded as inner journeys and how the stories tend to be used for healing purposes Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with divination and examples are presented and analysed to support this hypothesis By means of textual analysis it can be shown they all share certain attributes in common the identification of which forms the conclusion of the work *The Catalpa Bow* Carmen Blacker, 2004-08-02 This classic work describes shamanic figures surviving in Japan today their initiatory dreams ascetic practices the supernatural beings with whom they communicate and the geography of the other world in myth and legend [The Green Witch's Herbal: A Practical Guide to Magical Herbs, Natural Remedies, and Green Witchcraft](#) Vivienne Grant , Unlock the Ancient Magic of Plants for Modern Practice Are you drawn to the green path of herbal magic but unsure where to begin Do you yearn to develop genuine relationships with plant allies beyond basic correspondences Are you seeking authentic ethical ways to incorporate botanical wisdom into your spiritual practice The Green Witch's Herbal A Practical Guide to Magical Herbs Natural Remedies and Green Witchcraft is your essential companion for transforming casual interest into profound magical partnership with the plant kingdom This comprehensive guide bridges ancient herbal traditions with contemporary practice designed for today's conscious practitioners Inside this magical treasury you'll discover A thorough exploration of herbalism's historical roots across diverse magical traditions Practical systems for understanding plant energetics through multiple correspondence frameworks Step by step guidance for creating your own witch's garden in any space from windowsill to full plot Ethical wildcrafting practices that honor both plants and their ecosystems Complete instructions for creating effective herbal preparations from tinctures to talismans Seasonal frameworks for aligning your practice with nature's cycles Progressive techniques that evolve with you from first steps to advanced spirit communication Benefits you'll experience Deeper connection with the green world through conscious reciprocal relationships Enhanced ability to select precisely the right herbs for specific magical intentions Greater confidence in creating and using herbal tools for protection healing and manifestation Improved discernment between authentic plant communication and projection Practical skills for incorporating magical herbalism into everyday kitchen practice Increased self reliance through creating your own effective magical preparations A sustainable ethical practice that honors plants as conscious allies rather than mere ingredients Why this book stands out Relationship Centered Focuses on developing authentic partnerships with plants beyond utilitarian usage Practical Magic Detailed usable techniques and recipes not just theory or history Ethical Framework Conscious approaches to plant relationships that respect both tradition and sustainability Progressive Journey From beginner foundations to advanced plant spirit communication as your practice deepens Seasonal Integration Guidance for maintaining continuous practice aligned with natural cycles Balanced Approach
