

AN INTRODUCTION TO SHAMANISM

Shamans are an integral part of communal religious traditions, professionals who make use of personal supernatural experiences, especially trance, as a resource for the wider community's physical and spiritual wellbeing. This Introduction surveys research on the topic of shamanism around the world, detailing the archaeology and earliest development of shamanic traditions as well as their scientific "discovery" in the context of eighteenth- and nineteenth-century colonization in Siberia, the Americas, and Asia. It explores the beliefs and rituals typical of shamanic traditions, as well as the roles of shamans within their communities. It also surveys the variety of techniques used by shamans cross-culturally, including music, entheogens, material culture, and verbal performance. The final chapters examine attempts to suppress or eradicate shamanic traditions, the revitalization of shamanism in postcolonial situations, and the development of new forms of shamanism within new cultural and social contexts.

The Beauty of the Primitive Andrei A. Znamenski, 2007-07-12

Publisher description **The Nature of Shamanism and the Shamanic Story** Michael Berman, 2009-03-26 The book makes out a case for the introduction of a new genre of tale the shamanic story which has either been based on or inspired by a shamanic journey or contains a number of the elements that are typical of such a journey The stories featured are the Book of Jonah from the Old Testament two traditional stories from the Republic of Georgia *The Earth will take its Own* and *Davit* a contemporary German tale *Bundles* and the Korean story of *Shimchong the Blindman's Daughter* By making use of textual material from a number of different cultures and times the intention is to highlight the pervasive influence shamanism has had and to show how the new genre being proposed is a universal one The research questions addressed include

- 1 defining what shamanism is deciding whether it should be classified as a religion a methodology or a way of life
- 2 considering whether a case can be made out for the introduction of a new genre of tale and if so what its characteristics are

It is hoped the book will be of interest not only to those involved in the study of shamanism but also to those whose interest is in the study of literary texts Since the old bearers of shamanic traditions quite often were and even today are illiterate the study of their folklore epic songs laments narratives undoubtedly provides a rich source for research

Raising Up a Faithful Exegete K. L. Noll, Brooks Schramm, 2010-06-30 Twenty three colleagues friends and former students of Richard Nelson honor him by contributing essays to this volume Nelson is the former Kraft Professor of Biblical Studies at Lutheran

Theological Seminary in Gettysburg PA and current W J A Power Professor of Biblical Hebrew and Old Testament Interpretation as well as Associate Dean for Academic Affairs at Perkins School of Theology Southern Methodist University Dallas He is the author of numerous books commentaries and articles Raising Up a Faithful Exegete centers around topics of particular interest to Prof Nelson especially Deuteronomy the Former Prophets priesthods social interactions and theology In fact this book could be seen as a one volume summation of current thinking on Deuteronomy the Former Prophets Deuteronomism and Biblical Theology disguised as a Festschrift For eleven years I had the distinct pleasure and honor of having Richard Nelson as a senior faculty colleague He has served as a fine model of what it means to be a dynamic and innovative teacher an insightful mentor a world class scholar a supportive friend a dedicated leader in the church and a person who takes sheer delight in all facets of his calling Richard P Carlson Lutheran Theological Seminary Gettysburg PA Rich Nelson is a truly rare breed of man He is not only a passionate and respected scholar thoroughly trained and representative of historical critical approaches to the Hebrew Bible But he is also open and interested in the whole spectrum of different ways in which the Bible is read and understood both in the church and the academy He is a remarkable role model Roy L Heller Perkins School of Theology Southern Methodist University Dallas Rich Nelson was one of the best graduate students I ever taught In a seemingly effortless manner he did basic significant research that provided the grounds for a major but to that point generally undeveloped reading of the Deuteronomistic History Out of that early study and his later scholarly work he has rightly become one of our leading interpreters of Deuteronomy and the history that evolved out of its circle Patrick D Miller Jr Princeton Theological Seminary Shamanism Graham Harvey,2003 This is an essential tribute to the vitality and breadth of shamanic tradition both amongst the most distant tribes of America and Asia and within seemingly ordinary aspects of modern western culture *Ancient Prophecy* Martti Nissinen,2017 *Ancient Prophecy* Near Eastern Biblical and Greek Perspectives is the first monograph length comparative study on prophetic divination in ancient Near Eastern biblical and Greek sources Prophecy is one of the ways humans have believed to become conversant with what is believed to be superhuman knowledge The prophetic process of communication involves the prophet her his audience and the deity from whom the message allegedly comes from Martti Nissinen introduces a wealth of ancient sources documenting the prophetic phenomenon around the ancient Eastern Mediterranean whether cuneiform tablets from Mesopotamia the Hebrew Bible Greek inscriptions or ancient historians Nissinen provides an up to date presentation of textual sources the number of which has increased substantially in recent times In addition the study includes four analytical comparative chapters The first demonstrates the altered state of consciousness to be one of the central characteristics of the prophets public behavior The second discusses the prophets affiliation with temples which are the typical venues of the prophetic performance The third delves into the relationship between prophets and kings which can be both critical and supportive The fourth shows gender inclusiveness to be one of the peculiar features of the prophetic agency which could be executed by

women men and genderless persons as well The ways prophetic divination manifests itself in ancient sources depend not only on the socio religious position of the prophets in a given society but also on the genre and purpose of the sources Nissinen contends that even though the view of the ancient prophetic landscape is restricted by the fragmentary and secondary nature of the sources it is possible to reconstruct essential features of prophetic divination at the socio religious roots of the Western civilization
