Lorden,2023-11-02 Jennifer Lorden reveals the importance of deeply felt religious devotion centuries before it is commonly said to arise Her ground breaking study establishes the hybrid poetics that embodied its form for medieval readers while obscuring it from modern scholars Working across the divide between Old and Middle English she shows how conventions of earlier English poetry recombine with new literary conventions after the Norman Conquest These new conventions for example love lyric repurposed as devotional song created hybrid aesthetics more familiar to modern scholars She argues that this aesthetic as much as changing devotional

practice rendered later affective piety recognizable in a way that earlier affective devotional conventions were not Forms of Devotion reconsiders the roots and branches of poetic topoi revising commonplaces of literary and religious history This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details

Bernard Williams Mark Jenkins, 2014-12-18 From his earliest work on personal identity to his last on the value of truthfulness the ideas and arguments of Bernard Williams in the metaphysics of personhood in the history of philosophy but especially in ethics and moral psychology have proved sometimes controversial often influential and always worth studying This book provides a

comprehensive account of Williams's many significant contributions to contemporary philosophy. Topics include personal identity, various critiques of moral theory, practical reasoning and moral motivation, truth and objectivity and the relevance of ancient Greece to modern life. It not only positions Williams among these important philosophical topics but also with regard to the views of other philosophers including prominent forerunners such as Hume and Nietzsche and contemporary thinkers such as Nagel, McDowell, MacIntyre and Taylor. The fragmentary nature of Williams's work is addressed and recurring themes and connections within his work are brought to light.

Managing Emotion in Byzantium Margaret Mullett, Susan Ashbrook Harvey, 2022-09-30

Byzantinists entered the study of emotion with Henry Maguire's ground breaking article on sorrow published in 1977. Since then classicists and western medievalists have developed new ways of understanding how emotional communities work and where the ancients' concepts of emotion differ from our own and Byzantinists have begun to consider emotions other than sorrow. It is time to look at what is distinctive about Byzantine emotion. This volume is the first to look at the constellation of Byzantine emotions. Originating at an international colloquium at Dumbarton Oaks, these papers address issues such as power, gender, rhetoric or asceticism in Byzantine society through the lens of a single emotion or cluster of emotions. Contributors focus not only on the construction of emotions with respect to perception and cognition but also explore how emotions were communicated and exchanged across broad multi-linguistic, political and social boundaries. Priorities are twofold: to arrive at an understanding of what the Byzantines thought of as emotions and to comprehend how theory shaped their appraisal of reality. *Managing Emotion in Byzantium* will appeal to researchers and students alike interested in Byzantine perceptions of emotion, Byzantine Culture and medieval perceptions of emotion.

Compassion and Remorse Steven Tudor, 2001

This book articulates in rich and complex ways the nature of two important moral emotions or ways of being: compassion and remorse. As an exemplar of the agent-centred tradition in normative ethical theory, it is a fine piece of work exhibiting one of the more admirable and enjoyable aspects of work in that tradition: the ability to build bridges between a variety of philosophical traditions. Steven Tudor makes excellent use of authors in both the analytic and continental traditions while maintaining an admirable clear style. The book elucidates in nuanced and quite sophisticated ways the various aspects of compassion and remorse and how they are distinguishable from neighbouring and less valuable states such as pity, empathy, guilt, feelings, shame and regret. At the same time, it acknowledges and combats various criticisms of compassion and remorse as moral responses by distinguishing between distorted and undistorted forms of these states.

Compassion and Remorse: Acknowledging the Suffering Other is an interesting and intelligent work of philosophy. Dr Christine Swanton, University of Auckland, New Zealand, author of *Freedom: A Coherence Theory*, winner of the Johnsonsian Prize 1990. Steven Tudor's book examines two important features of moral experience: compassion and remorse, both of which deserve a central place in the contemporary revival of virtue theory. Both involve the recognition of other people's suffering, while the second also involves a personal recognition of, in some cases, responsibility for that suffering. Drawing on a number of sources,

phenomenology theology postmodernism and the philosophy of Wittgenstein Tudor interprets these important moral responses not as bare cognitions but in terms of understanding feeling and practical engagement Following a path of clear and cogent arguments he develops a number of moral themes so as to sketch an illuminating conception of the moral life This is a book for the thoughtful and reflective participant in those moral debates which touch on our personal relations with and responsibility for each other What it offers the reader in the end is a strong defence of moral universality and a common human nature Professor Brenda Almond University of Hull author of *Exploring Ethics A Traveller's Tale* 1998 and Vice President of the Society for Applied Philosophy Dr Steven Tudor studied philosophy and law at the University of Melbourne Australia where he is currently a Senior Fellow in the Department of Philosophy He also practises law as a barrister

The Enlargement of Life John Kekes, 2018-07-05 Moral imagination according to John Kekes is indispensable to a fulfilling and responsible life By correcting a parochial view of the possibilities available to us and overcoming mistaken assumptions about our limitations moral imagination liberates us from self imposed narrowness It enlarges life by enabling us to reflect more deeply and widely about how we should live The material for this reflection Kekes believes is supplied by literature Each of the eleven chapters of the book focuses on a novel play or autobiography that exemplifies the protagonist's reflective self evaluation Kekes shows the enduring significance of these protagonists successes or failures and how we might apply what they teach to our very different characters and circumstances Kekes discusses John Stuart Mill's *Autobiography* the *Oedipus* tragedies by Sophocles *Age of Innocence* by Edith Wharton Henry James's *The Ambassadors* and *The Golden Bowl* Montaigne's *Essays* a story by Herodotus and Arthur Koestler's *Arrival and Departure*

Throughout Kekes shows that moral thought must be concrete not abstract that good reasons for or against how we live and what choices we make are available but must be particular not universal and that the rigid separation of literature psychology and moral thought is detrimental to all three Having William Schweiker, Charles T. Mathewes, 2004 In today's market economies people constitute much of their identity in relation to the things they possess and communities facilitate social intercourse and survival by means of property relations What if anything might the study of the biblical religions contribute to thinking about and responding to the basic reality of having In this book scholars in a variety of fields theology ethics economics and biblical studies address in new and penetrating ways the meaning of having in religious and social life and offer a number of compelling answers to challenging questions about property and possession in our present global age

The Darkened Light of Faith Melvin L. Rogers, 2023-09-26 A powerful new account of what a group of nineteenth and twentieth century African American activists intellectuals and artists can teach us about democracy Could the African American political tradition save American democracy African Americans have had every reason to reject America's democratic experiment Yet African American activists intellectuals and artists who have sought to transform the United States into a racially just society have put forward some of the most original and powerful ideas about how to make America live up to its democratic ideals In *The Darkened Light of Faith* Melvin Rogers provides a bold new account of African American political thought through the works and lives of individuals who built this vital tradition a tradition that is urgently needed today The book reexamines how figures as diverse as David Walker Frederick Douglass Anna Julia Cooper Ida B Wells W E B Du Bois Billie Holiday and James Baldwin thought about the politics people character and culture of a society that so often dominated them Sharing a light of faith darkened but not extinguished by the tragic legacy of slavery they resisted the conclusion that America would always be committed to white supremacy They believed that democracy is always in the process of becoming and that they could use it to reimagine society But they also saw that achieving racial justice wouldn't absolve us of the darkest features of our shared past and that democracy must be measured by how skillfully we confront a history that will forever remain with us An ambitious account of the profound ways African Americans have reimagined democracy *The Darkened Light of Faith* offers invaluable lessons about how to grapple with racial injustice and make democracy work
