Historical Romance Fiction Lisa Fletcher, 2016-04-22 The first book length study of romance novels to focus on issues of sexuality rather than gender Historical Romance Fiction moves the ongoing debate about the value and appeal of heterosexual romance onto new ground testing the claims of cutting edge critical theorists on everything from popular classics by Georgette Heyer to recent bodice rippers to historical fiction by John Fowles and A S Byatt Beginning with her nomination of I love you as the romance novel's defining speech act Lisa Fletcher engages closely with speech act theory and recent studies of performativity The range of texts serves to illustrate Fletcher's definition of historical romance as a fictional mode dependent on the force and familiarity of the speech act I love you and permits Fletcher to provide a detailed account of the genre's history and development in both its popular and literary manifestations Written from a feminist and anti homophobic perspective Fletcher's subtle arguments about the romantic speech act serve to demonstrate the genre's dependence on repetition Romance can only quote and the shaky ground on which the romance's heterosexual premise rests Her exploration of the subgenre of cross dressing novels is especially revealing in this regard With its deft mix of theoretical arguments and suggestive close readings Fletcher's book will appeal to specialists in genre speech act and performativity theory and gender studies

Morrison,1998 In *The Culture of Shame* Harvard psychiatrist Andrew P Morrison argues that shame pervades our culture From its early references in biblical stories to the works of philosophers such as Nietzsche and Sartre and contemporary novelists Philip Roth and Toni Morrison the experience of shame emerges as a theme of human experience Yet until recently professional psychology did not acknowledge the role of shame focusing instead on guilt Indeed our modern culture which emphasizes independence and personal responsibility tends to view shame as the mark of an inferior or self absorbed individual , *Fiction, Film, and Indian Popular Cinema* Florian Stadler,2013-10-30 This book analyses the novels of Salman Rushdie and their stylistic conventions in the context of Indian popular cinema and its role in the elaboration of the author s arguments about post independence postcolonial India Focusing on different genres of Indian popular cinema such as the Social Mythological and Historical Stadler examines how Rushdie s writing foregrounds the epic the mythic the tragic and the comic linking them in storylines narrated in cinematic parameters The book shows that Indian popular cinema s syncretism becomes an aesthetic marker in Rushdie s fiction that allows him to elaborate on the multiplicity of Indian identity both on the subcontinent and abroad and illustrates how Rushdie uses Indian popular cinema in his narratives to express an aesthetics of hybridity and a particular conceptualization of culture with which India has become identified in a global context Also highlighted are Rushdie s uses of cinema to inflect his reading of India as a pluralist nation and of the hybrid space occupied by the Indian diaspora across the world The book connects Rushdie s storylines with modes of cinematic representation to explore questions about the role place and space of the individual in relation to a fast changing social economic and political space in India and the wider world *Recognition, Conflict and the Problem of Global Ethical Community* Shannon Brincat,2017-10-02 Recognition is a fundamental aspect of all social interactions between individuals groups local communities and sovereign states Recognition refers to those sociological processes whereby two or more entities such as states groups such as ethnic or cultural communities or individuals interact with one another and come to understand themselves and the other as mutually free individuals as social agents whose identities interests and outlooks are equally bound together Without the foundational act of recognition relations can become unequal and antagonistic leading to social pathologies denigration and even open conflict This volume brings together leading international scholars of recognition theory in world politics to discuss the potential for recognition to pacify relations between states groups and individuals and to develop recognition processes in the global community It examines the implications of recognition theory in helping to understand the problem of conflict and the possibilities for forging a form of global ethical community This book was published as a special issue of *Global Discourse* The Robotic Imaginary Jennifer Rhee,2018-10-16 Tracing the connections between human like robots and AI at the site of dehumanization and exploited labor The word robot introduced

in Karel apek s 1920 play R U R derives from rabota the Czech word for servitude or forced labor A century later the play s dystopian themes of dehumanization and exploited labor are being played out in factories workplaces and battlefields In The Robotic Imaginary Jennifer Rhee traces the provocative and productive connections of contemporary robots in technology film art and literature Centered around the twinned processes of anthropomorphization and dehumanization she analyzes the coevolution of cultural and technological robots and artificial intelligence arguing that it is through the conceptualization of the human and more important the dehumanized that these multiple spheres affect and transform each other Drawing on the writings of Alan Turing Sara Ahmed and Arlie Russell Hochschild such films and novels as Her and The Stepford Wives technologies like Kismet the pioneering emotional robot and contemporary drone art this book explores anthropomorphic paradigms in robot design and imagery in ways that often challenge the very grounds on which those paradigms operate in robotics labs and industry From disembodied conversational AI and its entanglement with care labor embodied mobile robots as they intersect with domestic labor emotional robots impacting affective labor and armed military drones and artistic responses to drone warfare The Robotic Imaginary ultimately reveals how the human is made knowable through the design of and discourse on humanoid robots that are paradoxically dehumanized
