Martinsen, 2003 Combines shame studies and literary criticism to uncover new perspectives on Dostoevsky as writer and psychologist with his lying characters as case studies **Shame** Robert H Albers, William M Clements, 2013-12-19 In this new guidebook designated as one of the Top Ten Books of the Year for 1996 by The Journal of the Academy of Parish Clergy author Robert H Albers provides both an analysis of and a Biblical and theological reflection upon the human experience of disgrace shame Albers approaches the subject from a pastoral perspective from which he makes suggestions on how this phenomenon can be dealt with from the background of a faith tradition He develops and explores new and existing valuable conceptual and pastoral resources to aid people in dealing effectively with the debilitating experiences of disgrace shame *Shame A Faith Perspective* is unique in that it incorporates deliberate theological reflection upon the human experience of disgrace shame Its value is in naming this phenomenon analyzing it and identifying the resources for dealing effectively with this experience It assists clergy and counselors in identifying this phenomenon and provides conceptual and practical suggestions on how to deal most effectively with disgrace shame Clergy as well as laypeople can find answers to their questions about the nature of shame and become better equipped to facilitate the process of healing Utilizing the findings of social sciences the author provides specific information on shame including Distinctions between shame and guilt Distinctions between discretionary shame and disgrace shame Identification of the dynamics of disgrace shame Analysis of the defenses used in dealing with disgrace shame Identification of the resources available from the Judeo Christian tradition in reflecting theologically on the issue of disgrace shame Suggestions for ways in which disgrace shame might be dismantled from the perspective of faith For parish pastors and priests counselors and therapists seminary professors teaching pastoral care and nonordained people within the Christian community *Shame A Faith Perspective* provides a theologically informed method for addressing issues of disgrace shame Readers can begin to distinguish between guilt and shame in human experience search out theological resources for understanding and learn to deal effectively with the experience of disgrace shame **Shame** Andrew P. Morrison, 2014-05-22 Morrison provides a critical history of analytic and psychiatric attempts to make sense of shame beginning with Freud and culminating in Kohut's understanding of shame in terms of narcissistic

phenomena The clinical section of the book clarifies both the theoretical status and treatment implications of shame in relation to narcissistic personality disorder neurosis and higher level character pathology and manic depressive illness

Shame in Context Susan Miller, 2013-05-13 In this enlightening and gracefully written study Susan Miller examines shame in a variety of clinical contexts en route to a richer understanding of shame dynamics Miller attends especially to the role of shame in creating and maintaining character pathology and devotes separate sections of the book to shame in the context of obsessive compulsive narcissistic and masochistic personality organizations Within each of these clinical contexts a chapter of theoretical discussion is followed by a chapter of engaging case examples Integral to *Shame in Context* is Miller's informed and thoughtful critique of current theories about shame including those of Broucek Morrison Schore Wurmser Nathanson and Kinston In reviewing the contributions of these and other writers she is most concerned with achieving a balanced comprehension of shame that incorporates the insights of different theoretical perspectives without embracing the selective emphases of any one investigator or school of thought Like Freud she appreciates the defensive utility of shame but she attends equally to the painful and at times pathogenic aspects of shame experiences In line with more recent shame literature she emphasizes the pathogenicity of early shaming but she is equally sensitive to the role of shame in sustaining character defenses And she goes beyond the purview of other shame researchers in examining the ways in which individuals unconsciously seek to maintain shame experiences when these experiences sustain their personality organizations Offering a critical evaluation and synthesis of contemporary shame theories and culminating in a balanced clinical understanding of shame in its various contexts *Shame in Context* takes its place as in the words of Frances Broucek the most sophisticated and definitive clinical study of shame to date

Global Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no *Global Dictionary of Theology* a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The *Global Dictionary of Theology* is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the *Global Dictionary of Theology* is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the *Global Dictionary of Theology* is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the *Global Dictionary of Theology* to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective

and inquiry Here is a new launching point for doing theology in today's global context

About Face Christopher L. Flanders, 2011-03-07 For Thais face is a fact writes Flanders However whether in theology evangelism or issues involving sin salvation or atonement Thai Christians and missionaries alike seem either uninterested in or possibly incapable of addressing issues related to face This glaring incongruity between the value of face for Thais and the lack of intentional engagement within the Thai Christian community is deeply troubling Surely such a lack of careful attention to face is a dangerous posture Uncritical views of face furtively attaching to the theology of the Thai church are potentially detrimental for its life and mission Such seems to be an unavoidable situation without proper attention to face Additionally to ignore face is to run the risk of missing valuable cultural resources implicit in the Thai experience of face for the critical task of authentic Thai theological reflection This lack of engagement with face raises critical issues with which we must wrestle How is it that such a central sociocultural issue has not been a more significant part of the Thai Christian vocabulary or experience How pervasive are these negative attitudes regarding face What lies behind them Might this lack of self-conscious engagement with face have any relationship to the persistent Thai perception of Christianity as a foreign Western religion How should Christians understand this notion of face and how it relates to the ways we understand and proclaim the gospel Quiet As It's Kept J. Brooks Bouson, 2000-01-01 Focuses on the role of shame and trauma as it looks at issues of race class color and caste in the novels of Toni Morrison *A Fast Road to the Study of Emotions* Arne Vikan, 2017-10-18 This book is an ideal introduction to work in psychology and the neurosciences Walking us through the key topics including historical developmental and cultural perspectives the book shows that the different types of emotions each is an evolved adaptive structure that serves a functional purpose It is shown how these types are expressed differently on the human face how they are developed in the child and how they influence and are influenced by culture health and the ways persons think and perceive Knowledge of emotions is essential for anyone who plans to work or whose work already involves helping instructing negotiating or controlling others This introductory level book teaches undergraduates as well as general readers the main components and methods and helps readers to better understand how emotions operate both within the body and out in the world It is a valuable resource for undergraduate students in psychology nursing social work physiotherapy and occupational therapy find this book an important accompaniment

 research on narcissism shows that behind a grandiose exhibitionistic side lies a shame ridden half of self loathing
 unworthiness and depression Capps says that traditional theologies of guilt are unable to address those gripped by shame
 and makes a case for a different pastoral approach in counseling and ministry **Honor-Based Violence** Karl Anton
 Roberts,Gerry Campbell,Glen Lloyd,2013-11-25 Honor based violence HBV is a crime committed to protect or defend the

 works dwell on the threshold between the extremes of poetic expression and philosophical reflection The divergent literary
 and critical idioms that have marked Celan s writing and that Celan s writing has come to mark for others Hamacher Derrida

Affect and Emotion in Multi-Religious Secular Societies Christian von Scheve,Anna Berg,Meike Haken,Nur
 Ural,2019-09-16 Emotions have moved center stage in many contemporary debates over religious diversity and multicultural
 recognition As in other contested fields emotions are often one sidedly discussed as quintessentially subjective and individual
 phenomena neglecting their social and cultural constitution Moreover emotionality in these debates is frequently attributed
 to the religious subject alone disregarding the affective anatomy of the secular This volume addresses these shortcomings

bringing into conversation a variety of disciplinary perspectives on religious and secular affect and emotion The volume emphasizes two analytical perspectives on the one hand chapters take an immanent perspective focusing on subjective feelings and emotions in relation to the religious and the secular On the other hand chapters take a relational perspective looking at the role of affect and emotion in how the religious and the secular constitute one another These perspectives cut across the three main parts of the volume the first one addressing historical intertwinements of religion and emotion the second part emphasizing affects emotions and religiosity and the third part looking at specific sensibilities of the secular The thirteen chapters provide a well balanced composition of theoretical methodological and empirical approaches to these areas of inquiry discussing both historical and contemporary cases
