      Shape of Community Serge Chermayeff,Alexander Tzonis,1971   **Teletechnologies, Place, and Community** Rowan Wilken,2014-02-07 Teletechnologies or technologies of distance cannot be ignored Indeed the present electronic age is said to have wrought profound changes to how we think about and experience who we are where we are and how we relate with one another Place and community have traditionally formed key concepts for thinking about these issues but what relevance do these concepts now hold for us In this wide ranging study Wilken re evaluates how ideas of place and community intersect with and help us make sense of a world transformed by information and communication technologies This interdisciplinary investigation ranges across diverse textual and contextual terrain exploring approaches from media and communications architectural history and theory philosophy sociology geography literature and urban design The rich analysis of these myriad texts reveals the complex and at times contradictory ways in which notions of place and community circulate in relation to these technologies of distance Wilken s examination underscores both the enduring importance of ideas of place and community in the present age and the urgent need to continue to engage with think about and reconfigure these twin ideas   **EPA-600/5** ,1974-02   Human Settlements Sam Stuart,2013-10-02 Human Settlements An Annotated Bibliography is an annotated bibliography on human settlements and includes books journal articles reports and documents Documents from Habitat United Nations Conference on Human Settlements with National Reports are arranged alphabetically by country along with other Conference documents This book is comprised of four chapters and begins with a list of books journal articles reports and documents dealing with topics such as housing policies housing problems in underdeveloped areas and the effects of land reform and rural ordinance programs The next chapter is devoted to a bibliography of bibliographies covering topics ranging from land use planning to rural roads and their potential The third chapter includes national reports from countries such as Afghanistan Algeria and Bangladesh The bibliography concludes with a subject index of key words subdivided geographically a secondary author index that includes personal and corporate authors editors compilers and authors of significant introductions and a list of libraries consulted This monograph should be of interest to housing officials and policymakers   *Quality Housing Environment for Rural Low-income Families: Papers* ,1980   Quality Housing Environment for Rural Low-income Families ,1980   *Bulletin* ,1980-05   Pedagogy and Place Robert A. M. Stern,Jimmy Stamp,2016-01-01 Marking the centennial of the 1916 establishment of a professional program Pedagogy and Place is the definitive text on the history of the Yale School of Architecture Robert A M Stern current dean of the school and Jimmy Stamp examine its growth and change over the years and they trace the impact of those who taught or studied there as well as the architecturally significant buildings that housed the program on the evolution of architecture education at Yale Owing to the impressive number of notable practitioners who have attended or been affiliated with the school this book also contributes a history beyond Yale of the architecture profession in the twentieth century Featuring

Department of the Interior. Library,1969   **Hegel's Phenomenology of Spirit** Richard Dien Winfield,2013-06-27 Hegel s Phenomenology of Spirit A Critical Rethinking in Seventeen Lectures provides a clear and philosophically engaging investigation of Hegel s first masterpiece perhaps the most revolutionary work of modern philosophy The book guides the reader on an intellectual adventure that takes up Hegel s revolutionary strategy of paving the way for doing philosophy without presuppositions by first engaging in a phenomenological investigation of knowing as it appears That preliminary investigation observes how the prevailing view of knowing that condemns cognition to operating with presuppositions proves unable to justify its own knowledge claims and ends up undermining the distinction between knowing and its object on which that view depends Unlike other studies of Hegel s Phenomenology of Spirit the work rethinks the entire argument with sustained attention to the project that gives the work its revolutionary significance Free of unnecessary jargon and always focusing on clearly unraveling the argument in its entirety Hegel s Phenomenology of Spirit A Critical Rethinking in Seventeen Lectures will be indispensable to undergraduate and graduate students of philosophy Hegel scholars and anyone interested in tackling the radical project of doing philosophy without foundations   **Serge Chermayeff** Mary A. Vance,1983   **Community Health Nursing Practice** Ruth B. Freeman,Janet Heinrich,1981   **Alasdair MacIntyre, George Lindbeck, and the Nature of Tradition** David Trenery,2014-11-06 What should we believe and why should we believe it This book addresses these questions through a critical exposition of the work of the contemporary philosopher Alasdair MacIntyre and of the theologian George Lindbeck the father of postliberal theology The book argues that MacIntyre s philosophical development can be seen as a response to the question of how belief in a comprehensive metaphysical system can be justified Such a system provides its believers with an account of the nature of the universe and human nature and a basis for their ethical reasoning and action The book draws on Lindbeck s cultural linguistic account of religion to argue that

such a system is primarily a way of interpreting the world and the place of humanity within it rather than a speculative theory The justification of belief in such systems can be understood in terms of MacIntyre s account of tradition constituted rationality provided that this notion of rationality is made more specific by the incorporation of elements of Lindbeck s theology Equally the book argues that Lindbeck s theology can be strengthened by the incorporation of elements drawn from MacIntyre s work This book will be of value to students of philosophy and theology and to the general reader who is interested in the question of the grounds of belief   **Urban Community** Anthony J. Filipovitch,Earl J. Reeves,1978

Community Interests Across International Law Eyal Benvenisti,Georg Nolte,2018-05-16 This book explores the extent to which contemporary international law expects states to take into account the interests of others namely third states or their citizens when they form and implement their policies negotiate agreements and generally conduct their relations with other states It systematically considers the various manifestations of what has been described as community interests in many areas regulated by international law and observes how the law has evolved from a legal system based on more or less specific consent and aimed at promoting particular interests of states to one that is more generally oriented towards collectively protecting common interests and values Through essays by experts in the field this book explores topics such as the sources of international law and the institutional aspects of developing the law and covers a range of areas within the law

Toward Sustainable Communities Mark Roseland,2012-07-17 Helps citizens and their governments apply the concept of sustainable development in their communities Original   **Catalogue** Harvard University. Graduate School of Design. Library,1974   **Shapes of Freedom** Peter C. Hodgson,2012-06-07 Peter C Hodgson explores Hegel s bold vision of history as the progress of the consciousness of freedom Following an introductory chapter on the textual sources the key categories and the modes of writing history that Hegel distinguishes Hodgson presents a new interpretation of Hegel s conception of freedom Freedom is not simply a human production but takes shape through the interweaving of the divine idea and human passions and such freedom defines the purpose of historical events in the midst of apparent chaos Freedom is also a process that unfolds through stages of historical cultural development and is oriented to an end that occurs within history the kingdom of freedom The purpose and the process of history are tragic however because history is also a slaughterhouse that shatters even the finest human creations and requires a constant rebuilding Hegel s God is not a supreme being or large entity but the true infinite that encompasses the finite History manifests the rule of God providence and it functions as the justification of God theodicy But the God who rules in and is justified by history is a crucified God who takes the suffering anguish and evil of the world into and upon godself accomplishing reconciliation in the midst of ongoing estrangement and inescapable death Shapes of Freedom addresses these themes in the context of present day questions about what they mean and whether they still have validity   *Inequality around the World* Deric Shannon,2025-02-06 A two volume set intended for readers interested in understanding the political and cultural underpinnings of socioeconomic inequality across the globe

Inequality around the World examines key drivers and shapers of inequality at the local national and international level The two volume set includes 33 in depth chapters covering such issues as public and private healthcare environmental protection and pollution housing disability women s rights land policies antisemitism sexual orientation and gender diversity race and racism political representation and access to higher education Each chapter compares and contrasts conditions in major countries including the USA Russia India China and Germany as well as in wider regions like the Middle East West Africa Central America and Eastern Europe Scrupulously researched and wide ranging in coverage Inequality around the World provides an in depth survey of socioeconomic inequality in the 21st century in all its many forms
