Shapeshift Sherwin Bitsui:

Shapeshift Sherwin Bitsui, 2022-05-03 Fourteen ninety something something happened and no one can pick it out of the lineup In words drawn from urban and Navajo perspectives Sherwin Bitsui articulates the challenge a Native American person faces in reconciling his or her inherited history of lore and spirit with the coldness of postmodern civilization *Shapeshift* is a collection of startling new poetry that explores the tensions between the worlds of nature and man Through brief imagistic poems interspersed with evocative longer narratives it offers powerful perceptions of American culture and politics and their lack of spiritual grounding Linking story history and voice *Shapeshift* is laced with interweaving images the gravitational pull of a fishbowl the scent of burning hair the trickle of motor oil from a harpooned log that speak to the rich diversity of contemporary Din writing Tonight I draw a raven s wing inside a circle measured a half second before it expands into a hand I wrap its worn grip over our feet As we thrash against pine needles inside the earthen pot With complexities of tone that shift between disconnectedness and wholeness irony and sincerity Bitsui demonstrates a balance of excitement and intellect rarely found in a debut volume As deft as it is daring *Shapeshift* teases the mind and stirs the imagination Flood Song Sherwin Bitsui, 2009 I bite my eyes shut between these songs So begins *Flood Song* a concentrated interweaving painterly sequence in which Native tradition scrapes against contemporary urban life In his second book Sherwin Bitsui intones landscapes real and imagined populated with the wrens winds and reeds of the high desert and constructed from the bricks and gasoline of the city Reverent to his family s indigenous traditions while simultaneously indebted to European modernism and surrealism Bitsui is at the forefront of a younger generation of Native writers His poems are highly imagistic and constantly in motion drawing as readily upon Dine Navajo myths customs and medicine songs as they do contemporary language and poetics I map a shrinking map Bitsui writes a map tribal and individual elemental and modern and utterly astonishing **Speak Like Singing** Kenneth Lincoln, 2007 *Speak Like Singing* honors talk song visions for all relatives and seeks to plumb if not to reconcile Native and American poetics tribal chorus and solitary vision **The Science Fiction of Poetics and the Avant-Garde Imagination** Michael Golston, 2023-11-19 How the tropes of science fiction infuse and inform avant garde poetics and many other kindred arts This insightful playful monograph from Golston does exactly what it advertises modeling poetics based on how poetry and some parallel artistic endeavors has filtered through a century plus of science fiction This is not a book about science fiction in and of itself but it is a book about the resonances of science fiction tropes and ideas in poetic language The germ of Golston s project is a throwaway line in Robert Smithson s *Entropy* and the *New Monuments* about how cinema supplanted nature as inspiration for many of his fellow artists The movies give a ritual pattern to the lives of many artists and this induces a kind of low budget mysticism which keeps them in a perpetual trance Golston charts how the demotic appeal of sci fi much like that of the B movie cross pollinated into poetry and other branches of the avant garde Golston creates what he calls a regular Rube Goldberg machine of a critical apparatus drawing on Walter

Benjamin Roman Jakobson and Gilles Deleuze He starts by acknowledging that per the important work of Darko Suvin to situate science fiction critically the genre is premised on cognitive estrangement But he is not interested in the specific nuts and bolts of science fiction as it exists but rather how science fiction has created a model not only for other poets but also for musicians and landscape artists Golston s critical lens moves around quite a bit but he begins with familiar enough subjects Edgar Rice Burroughs Mina Loy William S Burroughs From there he moves into more alien terrain Ed Dorn s long poem Gunslinger the discombobulated work of Clark Coolidge Sun Ra Ornette Coleman and Jimi Hendrix all come under consideration The result of Golston s restless rich scholarship is the first substantial monograph on science fiction and avant garde poetics using Russian Formalism Frankfurt School dialectics and Deleuzian theory to show how the avant garde inherently follows the parameters of sci fi in both theme and form

legal or political actions cannot as well as why Native peoples are turning to creative forms of resistance to assert deeply held ethical values Red Ink, 2002 *American Indians and Popular Culture* Elizabeth DeLaney Hoffman, 2012-02-22 Americans are still fascinated by the romantic notion of the noble savage yet know little about the real Native peoples of North America This two volume work seeks to remedy that by examining stereotypes and celebrating the true cultures of American Indians today The two volume *American Indians and Popular Culture* seeks to help readers understand American Indians by analyzing their relationships with the popular culture of the United States and Canada Volume 1 covers media sports and politics while Volume 2 covers literature arts and resistance Both volumes focus on stereotypes detailing how they were created and why they are still allowed to exist In defining popular culture broadly to include subjects such as print advertising politics and science as well as literature film and the arts this work offers a comprehensive guide to the important issues facing Native peoples today Analyses draw from many disciplines and include many voices ranging from surveys of movies and discussions of Native authors to first person accounts from Native perspectives Among the more intriguing subjects are the casinos that have changed the economic landscape for the tribes involved the controversy surrounding museum treatments of American Indians and the methods by which American Indians have fought back against pervasive ethnic stereotyping **Ecopoetics** Angela Hume, Gillian Osborne, 2018-03-15 *Ecopoetics Essays in the Field* makes a formidable intervention into the emerging field of ecopoetics The volume's essays model new and provocative methods for reading twentieth and twenty first century ecological poetry and poetics drawing on the insights of ecocriticism contemporary philosophy gender and sexuality studies black studies Native studies critical race theory and disability studies among others Contributors offer readings of a diverse range of poets few of whom have previously been read as nature writers from midcentury Beat poet Michael McClure Objectivist poet George Oppen and African American poets Melvin Tolson and Robert Hayden to contemporary writers such as Din poet Sherwin Bitsui hybrid collage poets Claudia Rankine and Evelyn Reilly emerging QPOC poet Xandria Phillips and members of the Olimpias disability culture artists collective While addressing preconceptions about the categories of nature writing and ecopoetics contributors explore challenge and reimagine concepts that have been central to environmental discourse from apocalypse and embodiment to toxicity and sustainability This collection of essays makes the compelling argument that ecopoetics should be read as coextensive with post 1945 poetry and poetics rather than as a subgenre or movement within it It is essential reading for any student or scholar working on contemporary literature or in the environmental humanities today Contributors Joshua Bennett Rob Halpern Matt Hooley Angela Hume Lynn Keller Petra Kupperts Michelle Niemann Gillian Osborne Samia Rahimtoola Joan Retallack Joshua Schuster Jonathan Skinner **The Oxford Handbook of Language and Race** H. Samy Alim, Angela Reyes, Paul V. Kroskrity, 2020-10-02 Over the past two decades the fields of linguistic anthropology and sociolinguistics have complicated traditional understandings of the relationship between language and identity But while research traditions that

explore the linguistic complexities of gender and sexuality have long been established the study of race as a linguistic issue has only emerged recently The Oxford Handbook of Language and Race positions issues of race as central to language based scholarship In twenty one chapters divided into four sections Foundations and Formations Coloniality and Migration Embodiment and Intersectionality and Racism and Representations authors at the forefront of this rapidly expanding field present state of the art research and establish future directions of research Covering a range of sites from around the world the handbook offers theoretical reflexive takes on language and race the larger histories and systems that influence these concepts the bodies that enact and experience them and the expressions and outcomes that emerge as a result As the study of language and race continues to take on a growing importance across anthropology communication studies cultural studies education linguistics literature psychology ethnic studies sociology and the academy as a whole this volume represents a timely much needed effort to focus these fields on both the central role that language plays in racialization and on the enduring relevance of race and racism

Why Indigenous Literatures Matter Daniel Heath Justice,2018-03-08 Part survey of the field of Indigenous literary studies part cultural history and part literary polemic *Why Indigenous Literatures Matter* asserts the vital significance of literary expression to the political creative and intellectual efforts of Indigenous peoples today In considering the connections between literature and lived experience this book contemplates four key questions at the heart of Indigenous kinship traditions How do we learn to be human How do we become good relatives How do we become good ancestors How do we learn to live together Blending personal narrative and broader historical and cultural analysis with close readings of key creative and critical texts Justice argues that Indigenous writers engage with these questions in part to challenge settler colonial policies and practices that have targeted Indigenous connections to land history family and self More importantly Indigenous writers imaginatively engage the many ways that communities and individuals have sought to nurture these relationships and project them into the future This provocative volume challenges readers to critically consider and rethink

their assumptions about Indigenous literature history and politics while never forgetting the emotional connections of our shared humanity and the power of story to effect personal and social change Written with a generalist reader firmly in mind but addressing issues of interest to specialists in the field this book welcomes new audiences to Indigenous literary studies while offering more seasoned readers a renewed appreciation for these transformative literary traditions
