Share the Fire Francis Patrick Sullivan, 1989 Cycle A Cover *Sharing*, 1982 The Functional Fire Company J. Scott Thompson, 2019-01-14 Scott Thompson author of *The Functional Fire Company* says the functional fire company concept was not created but realized I realized after many attempts at trying to view success in the organization from the top down that it wasn't possible Real indicators of success in the fire service come from the bottom up A fire department's success is best judged at the company level Many leaders and senior members have been taught the how but not the why and they don't understand the reasons for doing what they do Thompson says Because firefighting is such a technical activity we must ensure that we are explaining why we do things while we demonstrate the how It is essential that we develop critical thinking for solving fire suppression rescue and EMS problems WHAT OTHERS ARE SAYING Chief Scott Thompson combines his decades of experience and years of observation with today's leadership skills and provides a path for the successful fire department to follow The Functional Fire Company will take you step by step from being an ordinary fire department to one which defines excellence Rick Lasky Fire Chief ret Texas I found both motivation and a guide to implementation in this book Chief Thompson has provided a deep resource for all ranks from creating culture to setting up training structure I highly recommend this book to anyone with aspirations of making an organizational impact Brian Brush Chief Thompson has spent his entire career focusing on training and organizational effectiveness The Functional Fire Company is his life's work wrapped up into a playbook which offers insight into how to make your organization perform at maximum proficiency Experience perspective and a never quit mentality are evident as Chief Thompson provides a unique view to solving problems in the modern day fire service Terry McGrath Assistant Chief Lewisville TX Fire Department This book offers a living breathing example that Chief Thompson's principles truly work I hope you get as much value from this book as we have received from Chief Thompson's lessons and that you take what you learn back to your organization Garrett Rice The Colony Fire Department TX Battalion Chief A Shift **Cooperative Forest Management and Fire Protection, and Urban Environmental Forestry Program** United States. Boucher, 2025-08-30 *Light a Fire and Watch It Burn* Disruptive Qualitative Methods in Education Research revolutionizes how qualitative research is conceptualized taught and practiced

Edited by Michael L. Boucher Jr Ph.D. this groundbreaking collection of essays by emerging and established scholars introduces equity centered justice oriented methodologies designed to challenge entrenched systems of power and privilege. With a focus on amplifying marginalized voices and fostering transformative social action, this book serves as an inspiring accessible resource for educators, researchers, and graduate students. Traditional qualitative research texts provide invaluable foundations for understanding methods such as participant observation, coding, and analysis. Yet they often fail to address innovative approaches that challenge oppressive norms and center lived experiences of marginalized communities. *Light a Fire and Watch It Burn* fills this critical gap, presenting 15 concise practice oriented chapters on disruptive methods including photovoice, duoethnography, feminist critical discourse analysis, and arts based research like ethnodrama. These approaches reimagine qualitative inquiry as a vehicle for equity inclusion and justice, equipping readers with tools to create meaningful change. Each chapter follows a consistent structure, making the book an ideal classroom text for qualitative research courses. Readers will find clear explanations of the methodologies, their theoretical foundations, and how they disrupt systems of oppression while empowering participants. Practical examples, discussion questions, and curated lists of further readings encourage deep reflection and active engagement. This structure ensures seamless integration into weekly lessons for master's and doctoral students while also serving as a reference for scholars seeking to expand their methodological repertoire. From exploring anticolonial ethics to embracing culturally responsive frameworks like iwi methodologies and Pláticas, the book highlights the potential of qualitative research to humanize and transform. Contributors share personal narratives and research experiences that illuminate how these methodologies foster trust, amplify silenced voices, and dismantle academic hierarchies. The metaphor of lighting a fire reflects the catalytic potential of these methods to spark curiosity, disrupt traditional paradigms, and ignite transformative social action while watching it burn. Underscores the boldness and urgency of these practices in reimagining education research. Accessible, inspiring, and deeply rooted in critical theory, *Light a Fire and Watch It Burn* is an essential companion for students and educators who dare to confront power and reimagine research as a tool for justice. It challenges readers to move beyond the safe confines of traditional methods and embrace innovative practices that center humanity, equity, and resilience. Whether you are a graduate student beginning your journey, a scholar seeking to disrupt academic norms, or an educator looking for practical tools to inspire your students, this book provides the guidance and vision needed to reshape qualitative research and ultimately the world it seeks to understand. *Light a Fire and Watch It Burn* is not just a book; it is a call to action for those ready to create a more inclusive, equitable future through research. Perfect for courses such as Introduction to Qualitative Research Methods, Critical Theory in Education, Advanced Qualitative Research Design, Participatory Research in Education, Feminist Research in Social Sciences, Decolonizing Research Practices, Arts and Humanities Based Inquiry, Social Justice in Education, Education Policy and Practice, Research Ethics, and Methodologies.
