manuscript then reviews the social worker's role in the group work process and the proposed model of the social group work process. The functions prior to first meeting and following group formation and elaboration of the proposed model are presented. The text elaborates on the uses of action and case studies on group work with elderly clients and young people at risk. Projective and Introjective Identification and the Use of the Therapist's Self Jill Savage Scharff, 1992-01-01. In this landmark work on object relations, Dr. Jill Savage Scharff addresses the psychological processes of projective and introjective identification and countertransference. She carefully traces the debates about projective identification—the neurotic versus psychotic arguments and the intrapsychic versus interpersonal views. She holds that disagreements stem from unrecognized shifts in meaning of the term identification and unacknowledged differences of opinion as to where the identification takes place. For her, projective identification is an umbrella term for phenomena that can affect the self, the object inside the self, and the external object. Dr. Scharff brings fresh insight to the neglected concept of introjective identification and a new understanding of the therapeutic action of projective and introjective identification. The book's unique distinction is in the author's integration of object relations theory and practice, particularly with regard to the handling of countertransference. The clinical material is written in the vivid and personally candid style that is a hallmark of her work. Dr. Scharff demonstrates how to understand and utilize projective and introjective identification, making this work indispensable for every dynamically oriented therapist.

Object Relations and Relationality in Couple Therapy James L. Poulton, 2012-11-16. During the course of psychoanalytic psychotherapy with couples, the practicing clinician is commonly faced with problems and issues that at times can seem nearly insoluble. In *Object Relations and Relationality in Couple Therapy: Exploring the Middle Ground*, James L. Poulton, PhD, surveys those problems and offers practical suggestions for their resolution. Through the use of extensive clinical material from couple cases, each chapter presents a specific issue, reviews the theoretical background that is essential for understanding it, and offers detailed illustrations of effective clinical interventions. The issues addressed by this book include the following: the influence of intergenerational trauma on the couple's functioning; dynamics of violence and sacrifice within the couple; the narcissistic couple; and disillusionment with the therapeutic process. Intensification of emotional stress that results when both partners share unconscious anxieties; appropriate and inappropriate uses of the therapist's self-disclosure; integration of cultural issues in couple therapy; negotiating individual and shared transferences in couple therapy; the place of truth and certainty in the couple's capacity to heal. *Object Relations and Relationality in Couple Therapy: Exploring the Middle Ground* draws upon leading edge innovations in both theory and technique to offer creative solutions to the common dilemmas in couple therapy. In current discussions of psychoanalytic treatment, two distinct but interrelated theoretical approaches predominate: object relations and relational theory. This book emphasizes the continuities

and commonalities between these two approaches particularly in their application to the treatment of couples and argues that modern relational theories can be read as clinically useful elaborations of similar intuitions that have already been developing in the object relations oeuvre The chapters in this book illustrate that there is a firm middle ground in which ideas and techniques from both theories can be integrated into a consistent therapeutic approach that provides a broad foundation for conceptualizing couple interactions and for designing interventions that facilitate the couple's growth *The Family, Politics, and Social Theory (RLE Social Theory)* D.H.J. Morgan, 2014-08-13 This book explores and clarifies all the major issues and developments within family theorising It covers the extraordinary growth and variety of approaches to the family over the last decade the most significant being the impact of feminism and the professional and state intervention into the family through marital and family therapy The author focuses on the growth of family counselling giving a detailed analysis of the Home Office publication *Marriage Matters* He looks at the rapid growth of historical studies of the family European theoretical developments the work of the Rapoport's the role of systems theorising and phenomenological and critical approaches to the family He shows the relevance of family theorising for contemporary debates about the state of marriage and the family and argues for the centrality of family themes within wider sociological debates **Marital Tensions (Psychology Revivals)** Henry V. Dicks, 2014-10-14 Originally published in 1967 this book gathers together the various aspects of Dr Dick's theoretical and clinical approach to marriage difficulties into a coherent system for the benefit of professional workers and students who were concerned with family and community psychiatry and case work at the time He preserves the essentials of the steps by which his concepts developed from one person therapy into hypotheses for understanding interaction with the couple as the unit of study **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1965 **Psychotherapy With Couples** Stanley Ruzsyczynski, 2018-04-17 A thought provoking persuasive challenging and above all practical guide for beginners and more experienced therapists alike It shows the demands and complexity of marital work and is an important reminder of the interdependence of theory and practice **Current Catalog** National Library of Medicine (U.S.), 1966 First multi year cumulation covers six years 1965-70 *Brief Casework with a Marital Problem* Lorna Guthrie, Janet Mattinson, 1971 **Family and Couple Psychoanalysis** Elizabeth Palacios, David E. psychiatrists and clinical and social psychologists in the British Army where they developed radical action oriented innovations in social psychiatry They became known as the Tavistock Group since the core members had been at the pre war Tavistock Clinic They created the post war Tavistock Institute of Human Relations and expanded on their wartime achievements by pioneering a new mode of relating theory and practice called in these volumes The Social Engagement of Social Science There are three perspectives the socio psychological the socio technical and the socio ecological These perspectives are interdependent yet each has its own focus and is represented in a separate volume Volume I The Socio Psychological Perspective extends the object relations approach in psychoanalysis to group organizational and wider social life This extension is related to field theory the personality culture approach and open systems theory Action oriented papers deal with key ideas in social psychiatry varieties of group process new paths in family studies the dynamics of organizational change and the unconscious in culture and society The Institute s dynamic social science approach to industrial problems which will be presented in Volume II began with Eric Trist s coal mining program for the development of more productive and personally satisfying self regulating forms of work organization The whole Quality of Working Life movement owes its theoretical and empirical basis to this pathfinding endeavor Volume III will focus on non hierarchical forms of organization facilitating inter organizational relations in complex and rapidly changing environments the socio ecological perspective This perspective is offered as a guide to institution building for the future
