A quintessential summer read Marie Claire A warm and wonderfully vivid novel about taking second chances in life and in the sea One summer day on the beach in Florida two extraordinary things happen to Maeve Donnelly First she is kissed by Daniel the boy of her dreams Then she is bitten by a blacktip shark Eighteen years later Maeve has thrown herself into her work as a world traveling marine biologist discovering more about the minds of misunderstood sharks But when Maeve returns home to the legendarily charming and eccentric Hotel of the Muses where she was raised by her grandmother she finds more than just the blood orange sunsets and key lime pies she's missed waiting for her While Maeve has always been fearless in the water on land she is indecisive A chance meeting on the beach with a plucky irresistible little girl who is just as fascinated by the ocean as Maeve was growing up leaves her at a crossroads Should she rekindle her romance with Daniel the first love she left behind when she dove into her work Or indulge in a new romance with her colleague Nicholas who turns up in her hometown to investigate an illegal shark finning operation Set against the intoxicating backdrop of palm trees calypso bands and perfect ocean views The Shark Club is a story of the mysterious passions of one woman's life her first love and new love the sea and sharks that inhabit it **A Hitchhiker's Guide To Armageddon** David Hatcher

Childress, 2011-03-09 With wit and humor popular Lost Cities author David Hatcher Childress takes us around the world and back in his trippy final to the Lost Cities series He's off on an adventure in search of the apocalypse and end times Childress hits the road from the fortress of Megiddo the legendary citadel in northern Israel where Armageddon is prophesied to start Hitchhiking around the world Childress takes us from one adventure to another to ancient cities in the deserts and the legends of worlds before our own Childress muses on the rise and fall of civilizations and the forces that have shaped mankind over the millennia including wars invasions and cataclysms He discusses the ancient Armageddons of the past and chronicles recent Middle East developments and their ominous undertones In the meantime he becomes a cargo cult god on a remote island off New Guinea gets dragged into the Kennedy Assassination by one of the conspirators investigates a strange power operating out of the Altai Mountains of Mongolia and discovers how the Knights Templar and their offshoots have driven the world toward an epic battle centered around Jerusalem and the Middle East **Demon Fish** Juliet

Eilperin, 2011-06-14 A group of traders huddles around a pile of dried shark fins on a gleaming white floor in Hong Kong A Papua New Guinean elder shoves off in his hand carved canoe ready to summon a shark with ancient magic A scientist finds a rare shark in Indonesia and forges a deal with villagers so it and other species can survive In this eye opening adventure that spans the globe Juliet Eilperin investigates the fascinating ways different individuals and cultures relate to the ocean's top predator Along the way she reminds us why after millions of years sharks remain among nature's most awe inspiring creatures From Belize to South Africa from Shanghai to Bimini we see that sharks are still the object of an obsession that

may eventually lead to their extinction This is why movie stars and professional athletes go shark hunting in Miami and why shark s fin soup remains a coveted status symbol in China Yet we also see glimpses of how people and sharks can exist alongside one another surfers tolerating their presence off Cape Town and ecotourists swimming with sharks that locals in the Yucat n no longer have to hunt With a reporter s instinct for a good story and a scientist s curiosity Eilperin offers us an up close understanding of these extraordinary mysterious creatures in the most entertaining and illuminating shark encounter you re likely to find outside a steel cage Shark Dean Crawford,2008-08 In *Shark* Dean Crawford explores the long relationship between shark and man revealing that behind the fearsome caricature is a complex animal that deserves a thoughtful reconsideration The Whale Caller Zakes Mda,2006-10-17 A voice for which one should feel not only affection but admiration The New York Times *The Whale Caller* Zakes Mda s fifth novel is his most enchanting and accessible book yet a romantic comedy of sorts in which the changing face of post apartheid South Africa is revealed through prodigious lyrical storytelling As the novel opens the seaside village of Hermanus on the country s west coast is overrun with whale watchers foreign tourists wearing floral shirts and toting expensive binoculars determined to see whales in their natural habitat But when the tourists have gone home the Whale Caller lingers at the shoreline wooing a whale he calls Sharisha with cries from a kelp horn When Sharisha fails to appear for weeks on end the Whale Caller frets like a jealous lover oblivious to the fact that the town drunk Saluni a woman who wears a silk dress and red stiletto heels is infatuated with him After much ado which Mda relates with great relish the two misfits fall in love But each of them is ill equipped for romance and their on again off again relationship suggests something of the fitful nature of change in post apartheid South Africa where just living from one day to the next can be challenge enough Mda has spoken of the end of apartheid as a lifting of the South African novelist s burden to write on political subjects With *The Whale Caller* he has written a tender charming novel the work of a virtuoso among international writers **Sharks and People** Thomas P. Peschak,2014-02-27 At once feared and revered sharks have captivated people since our earliest human encounters Children and adults alike stand awed before aquarium shark tanks fascinated by the giant teeth and unnerving eyes And no swim in the ocean is undertaken without a slight shiver of anxiety about the very real and very cinematic dangers of shark bites But our interactions with sharks are not entirely one sided the threats we pose to sharks through fisheries organized hunts and gill nets on coastlines are more deadly and far reaching than any bite In *Sharks and People* acclaimed wildlife photographer Thomas Peschak presents stunning photographs that capture the relationship between people and sharks around the globe A contributing photographer to National Geographic Peschak is best known for his unusual photographs of sharks his iconic image of a great white shark following a researcher in a small yellow kayak is one of the most recognizable shark photographs in the world The other images gathered here are no less riveting bringing us as close as possible to sharks in the wild Alongside the photographs *Sharks and People* tells the compelling story of the natural history of sharks Sharks have roamed the oceans for more than

four hundred million years and in this time they have never stopped adapting to the ever changing world their unique cartilage skeletons and array of super senses mark them as one of the most evolved groups of animals Scientists have recently discovered that sharks play an important role in balancing the ocean including maintaining the health of coral reefs Yet tens of millions of sharks are killed every year just to fill the demand for shark fin soup alone Today more than sixty species of sharks including hammerhead mako and oceanic white tip sharks are listed as vulnerable or in danger of extinction The need to understand the significant part sharks play in the oceanic ecosystem has never been so urgent and Peschak s photographs bear witness to the thrilling strength and unique attraction of sharks They are certain to enthrall and inspire

Minority and Indigenous Trends 2020 - Focus on technology Peter Grant, Carl Söderbergh, 2020-10-15 Technology increasingly permeates every aspect of our lives, from the use of big data to information and communication technologies (ICTs) to artificial intelligence (AI) and automation. These developments are often framed around issues such as efficiency, speed, and innovation, but for minorities, indigenous peoples, and other marginalized groups, there are often very different forces at play: the replication of existing patterns of exclusion in new forms. While a central aim of the Sustainable Development Goals (SDGs) was to reduce social inequalities within societies, the outbreak of the Covid-19 pandemic has highlighted how profound the gap remains for minorities and indigenous peoples in many countries. Though there is much hope and uncertainty around the possibilities of track and trace, mobile applications, and other emerging technologies to resolve the crisis, without a firm commitment to social justice and universal access, it is likely that many will be denied their benefits. With minorities and indigenous peoples disproportionately represented among the world's poor, it is not surprising that poverty is itself a major barrier to these groups accessing mobile phones, computers, and other technologies. Besides the issue of affordability, there may be physical and geographic constraints, particularly for communities in rural or remote locations. In addition, other hurdles such as limited information in minority or indigenous languages can

compound lack of access For marginalized groups within minority and indigenous communities such as persons with disabilities further significant issues arise for instance whether websites are accessible and compatible with assistive technologies The need for a more holistic approach to technology is therefore more urgent than ever with an emphasis not only on affordable pricing and accessible delivery but also culturally appropriate and inclusive design Importantly an inclusive approach to technology should translate not only to equitable access as users but also meaningful participation in their development At present however minority and indigenous employment in sectors such as computing remains low This poses a fundamental challenge to the creation of more diverse technologies downstream

The Roof of Voyaging Garry Kilworth, 2011-09-29 When Kupe one of the great Polynesian voyagers chases a huge octopus across the ocean he discovers the strange and mysterious Land of Mists and rescues a man and a woman from the wild sea He carries them back to the island of Raiatea where the pale strangers witness the momentous events that follow the death of the king and the struggle for succession But the gods are watching also and when Prince Tangiia and his followers secretly flee the island in search of a new home their intervention becomes inevitable Delighting in the rich and colourful detail and myth of Polynesian life *The Roof of Voyaging* is the first part of a wonderful tale which will become a landmark in fantastic fiction
