Miller,2017-11-22 For the first 150 years of their existence natural foods were consumed primarily by body builders hippies religious sects and believers in nature cure And those consumers were dismissed by the medical establishment and food producers as kooks faddists and dangerous quacks In the 1980s broader support for natural foods took hold and the past fifteen years have seen an explosion everything from healthy eating superstores to mainstream institutions like hospitals schools and workplace cafeterias advertising their fresh from the garden ingredients Building Nature s Market shows how the meaning of natural foods was transformed as they changed from a culturally marginal religiously inspired set of ideas and practices valorizing asceticism to a bohemian lifestyle to a mainstream consumer choice Laura J Miller argues that the key to understanding this transformation is to recognize the leadership of the natural foods industry Rather than a simple tale of cooptation by market forces Miller contends the participation of business interests encouraged the natural foods movement to be guided by a radical skepticism of established cultural authority She challenges assumptions that private enterprise is always aligned with social elites instead arguing that profit minded entities can make common cause with and even lead citizens in advocating for broad based social and cultural change **History of Soy Flour, Grits and Flakes (510 CE to 2013)** William Shurtleff,Akiko Aoyagi,2013-12-01 The world s most comprehensive well document and well illustrated book on this subject With extensive index 28 cm **History of Soyfoods and Soybeans in California (1851-1982):** William Shurtleff; Akiko Aoyagi,2021-06-24 The world s most comprehensive well documented and well illustrated book on this subject With extensive subject and geographical index 526 photographs and illustrations mostly color Free of charge in digital PDF format
