Sharpening the Marketing Edge Frank Lillie, Harvard Business Review Staff, 1987-06-01 *Sharpening the Marketing Edge*, 1991 **Sharpening the Marketing Edge** Leonard M. Lodish, 1989 **Building the Integrated Company** Malcolm A. Birkin, 2017-11-01 This title was first published in 2000 Global competition is increasingly impacting on even the most isolated of companies the only way for any company to sustain competitive advantage is by tapping into the single remaining area of great potential the management of people If we want to be an above average company we will need an above average ratio of above average people who perform at above average levels None of which will happen without above average levels of management Malcolm Birkin's Building the Integrated Company offers a model for exploiting the human potential within organizations This potential is one which in previous decades through an absence of focus on business basics and an adherence to mistaken ideas about sustainable competitive advantage we have contrived to turn into all too limited performance The first stage in any new learning process is to unlearn the misplaced concepts and bad habits we have developed Section One of the book describes and contrasts the similarities and differences of American European and Japanese management and then describes the characteristics of the Integrated Company which has absorbed and perfected the best systems and philosophies from around the world Anyone seeking to follow this lead needs to be able to distinguish the realities of these management systems from the myths Section Two is built around a series of 13 detailed and scored questionnaires containing over 240 individual questions enabling the reader to assess every aspect of their business from management focus to the behaviours of the workforce against the Integrated Company model Section Three the largest and most important section deals with integration addressing the practical implementation of the systems and philosophies in a clear logical and hands on manner As the name suggests the Integrated Company is a holistic model involving every aspect of the business Nevertheless managing people the unlimited potential remains the most complex **Marketing Information** Hiram C. Gonzo Marketing Christopher Locke, 2009-06-17 Ladies and gentlemen please return your tray tables to the fully upright and locked position suspend your disbelief and put on your tinfoil pyramid hats We are now entering cue lights cue music the Brand Dimension Gonzo Marketing is a knuckle whitening ride to the place where social criticism biting satire and serious commerce meet and where the outdated ideals of mass marketing and broadcast media are being left in the dust As master of ceremonies at the wake for traditional one size fits all marketing Locke has assembled a unique guest list from Geoffrey Chaucer to Hunter S Thompson to guide us through the revolution that is rocking business today as people connect on the Web to form powerful micromarkets These networked communities based on candor trust passion and a general disdain for anything that smacks of corporate smugness reflect much deeper trends in our culture which Locke illuminates with his characteristic wit Just as gonzo journalism arose in response to objective news standards that claimed to foster fairness but in practice discouraged writers from speaking their minds in their own voices so too does gonzo marketing call for a similar response to assumptions about consumer behavior that no longer relate to how people actually live their lives Gonzo Marketing is not yet another nostrum for hoodwinking the unwary It s about market advocacy It describes how the artist formerly known as advertising must do a 180 It s about transforming the marketing message from we want your money to we share your interests It s about tapping into listening to and even forming alliances with emerging on line markets who probably know more about your company than you do It s a hip hop cover of boring old best practices played backwards The paradox is that companies that support and promote these communities can have everything they ve always wanted greater market share customer loyalty brand equity Irreverent penetrating profoundly simple and on the money Gonzo Marketing is the raucous wake up that no one interested in any aspect of twenty first century business from the trading floor right up to the boardroom can afford to ignore
