Trauma and Forgiveness C. Fred Alford, 2014-01-09 Contrary to the view of trauma popularized by literary theorists Trauma and Forgiveness argues that the traumatized are capable of representing their experience and that we should therefore listen more and theorize less Using stories and case studies including testimonies from Holocaust survivors as well as the victims of ordinary trauma C Fred Alford shows that while the traumatized are generally capable of representing their experience this does little to heal them He draws on the British Object Relations tradition in psychoanalysis to argue that forgiveness which might be expected to help heal the traumatized is generally an attempt to avoid the hard work of mourning losses that can never be made whole Forgiveness is better seen as a virtue in the classical sense a recognition of human vulnerability The book concludes with an extended case study of the essayist Jean Am ry and his refusal to forgive *The Publishers Weekly*, 1882

Culture, and PTSD C. Fred Alford, 2016-06-09 This book examines the social contexts in which trauma is created by those who study it whether considering the way in which trauma afflicts groups cultures and nations or the way in which trauma is transmitted down the generations As Alford argues ours has been called an age of trauma Yet neither trauma nor post traumatic stress disorder PTSD are scientific concepts Trauma has been around forever even if it was not called that PTSD is the creation of a group of Vietnam veterans and psychiatrists designed to help explain the veterans suffering This does not detract from the value of PTSD but sets its historical and social context The author also confronts the attempt to study trauma scientifically exploring the use of technologies such as magnetic resonance imagining MRI Alford concludes that the scientific study of trauma often reflects a willful ignorance of traumatic experience In the end trauma is about suffering

The Confederacy Paul D. Escott, 2009-12-30 A sharp edged and revealing account of the transforming struggle for Southern independence and the inherent contradictions that undermined that effort Paul Escott's *The Confederacy The Slaveholders Failed Venture* offers a unique and multifaceted perspective on the United States most pivotal and devastating conflict examining the course of the Civil War from the perspective of the Southern elite class who were desperate to preserve the peculiar institution of its slave based economy yet dependent on ordinary Southerners slaves and women to sustain the fight for them Against the backdrop of the war's military drama and strategic dilemmas *The Confederacy* brings into sharp focus the racial class gender and political conflicts that helped destabilize the Confederacy from within Along the way Escott shows how time and time again the South's political and economic elite made errors that further weakened a South already facing a Union army with greater numbers and firepower **Economic Issues and Policies** John E.

Elliott, Arthur L. Grey, 1975 **What the Victorians Made of Romanticism** Tom Mole, 2020-06-09 This insightful and elegantly written book examines how the popular media of the Victorian era sustained and transformed the reputations of Romantic writers Tom Mole provides a new reception history of Lord Byron Felicia Hemans Sir Walter Scott Percy Bysshe Shelley and William Wordsworth one that moves beyond the punctual historicism of much recent criticism and the narrow horizons of previous reception histories He attends instead to the material artifacts and cultural practices that remediated Romantic writers and their works amid shifting understandings of history memory and media Mole scrutinizes Victorian

efforts to canonize and commodify Romantic writers in a changed media ecology He shows how illustrated books renovated Romantic writing how preachers incorporated irreligious Romantics into their sermons how new statues and memorials integrated Romantic writers into an emerging national pantheon and how anthologies mediated their works to new generations This ambitious study investigates a wide range of material objects Victorians made in response to Romantic writing such as photographs postcards books and collectibles that in turn remade the public's understanding of Romantic writers Shedding new light on how Romantic authors were posthumously recruited to address later cultural concerns What the Victorians Made of Romanticism reveals new histories of appropriation remediation and renewal that resonate in our own moment of media change when once again the cultural products of the past seem in danger of being forgotten if they are not reimagined for new audiences **Press and Publications Summary** United States Information Service (Taipei,

O'Connell,2013 Thomas Merton the Trappist monk who died in 1968 was one of the great spiritual writers of the twentieth century His published works include a hundred volumes in many genres But it was perhaps in the essay that he found his natural element Especially in the last decade of his life Merton showed in his essays an increasing willingness to

dispense with pre fabricated conclusions bringing his deeply spiritual profoundly Catholic sensibility to bear on matters beyond the usual religious and monastic milieu This volume is the first to provide a broad cross section of Merton s work as an essayist collecting pieces that reflect characteristic examples of his astonishing output and the fantastic breadth of his interests The 33 essays collected here range from interreligious dialogue to racial justice from the wisdom of the desert fathers to the novels of Faulkner and Camus from the nuclear threat to the philosophy of solitude and throughout the centrality of the Christian mystery to authentic human identity

Ethical Loneliness Jill Stauffer,2015-09-01

Ethical Loneliness Jill Stauffer,2015-09-01 Ethical loneliness is the experience of being abandoned by humanity compounded by the cruelty of wrongs not being acknowledged It is the result of multiple lapses on the part of human beings and political institutions that in failing to listen well to survivors deny them redress by negating their testimony and thwarting their claims for justice Jill Stauffer examines the root causes of ethical loneliness and how those in power revise history to serve their own ends rather than the needs of the abandoned Out of this discussion difficult truths about the desire and potential for political forgiveness transitional justice and political reconciliation emerge Moving beyond a singular focus on truth commissions and legal trials she considers more closely what is lost in the wake of oppression and violence how selves and worlds are built and demolished and who is responsible for re creating lives after they are destroyed Stauffer boldly argues that rebuilding worlds and just institutions after violence is a broad obligation and that those who care about justice must first confront their own assumptions about autonomy liberty and responsibility before an effective response to violence can take place In building her claims Stauffer draws on the work of Emmanuel Levinas Jean Am ry Eve Sedgwick and Friedrich Nietzsche as well as concrete cases of justice and injustice across the world

The Transformation of the Psyche in British Primary Care, 1870-1970 Rhodri Hayward,2014-02-25

Conflicting models of selfhood have become central to debates over modern medicine Yet we still lack a clear historical account of how this psychological sensibility came to be established *The Transformation of the Psyche in British Primary Care 1880 1970* will remedy this situation by demonstrating that there is nothing inevitable about the current connection between health identity and personal history It traces the changing conception of the psyche in Britain over the last two centuries and it demonstrates how these changes were rooted in transformed patterns of medical care The shifts from private medicine through to National Insurance and the National Health Service fostered different kinds of relationship between doctor and patient and different understandings of psychological distress *The Transformation of the Psyche in*

British Primary Care 1880 1970 examines these transformations and in so doing provides new critical insights into our modern sense of identity and changing notions of health that will be of great value to anyone interested in the modern history of British medicine
