Our Times, Our Lives Eve Otto, Jozef Otto, 2004-11 Eve Otto explains When I began writing this book I had in the back of my mind that those who are young now might someday be interested in what life was like when their grandparents were growing up how life changed drastically with the coming of World War II in Europe and the turbulent years that followed the traumas of our emigration to America with our three young children and the difficult adjustments we had to make My book then is sort of a legacy to them

Lovesick Alibi Theresa Dooley, **The New American Servitude** Cati Coe, 2019-04-02 Finalist 2020 Elliott P Skinner Award given by the Association of Africanist Anthropology Examines why African care workers feel politically excluded from the United States Care for America's growing elderly population is increasingly provided by migrants and the demand for health care labor is only expected to grow Because of this health care crunch and the low barriers to entry new African immigrants have adopted elder care as a niche employment sector funneling their friends and relatives into this occupation However elder care puts care workers into racialized gendered and age hierarchies making it difficult for them to achieve social and economic mobility In *The New American Servitude* Coe demonstrates how these workers often struggle to find a sense of political and social belonging They are regularly subjected to racial insults and demonstrations of power and effectively turned into servants at the hands of other members of the care worker network including clients and their relatives agency staff and even other care workers Low pay a lack of benefits and a lack of stable employment combined with a lack of appreciation for their efforts often alienate them so that many come to believe that they cannot lead valuable lives in the United States While jobs are a means of

acculturating new immigrants African care workers don't tend to become involved or politically active Many plan to leave rather than putting down roots in the US Offering revealing insights into the dark side of a burgeoning economy The New American Servitude carries serious implications for the future of labor and justice in the care work industry **The Tender Years** John Cortes, 2015-12-07 The Tender Years is the story of Carl and Ardensa who in the final days of their lives find themselves alone facing illness and the certainty of an approaching death The magnitude of their ordeal though as cruel as it may seem is overshadowed by the strength and trueness of their love for each other a love that refuses to yield to the painful demands of old age and the somber reality of impending death It is at this time in their lives that the strength of their love is magnified by the tender affection that they have for each other a tenderness imbedded in the depths of their hearts as they come to the end of their lives but not to the end of their love It is the kind of true love that leaps into the eternal realm sure of itself refusing to die even within the bosom of death itself **Right to Remain Silent** Monica L.

Seduction, Surrender, and Transformation Karen J. Maroda,2013-06-17 *Seduction Surrender and Transformation* demonstrates how interpersonal psychoanalysis obliges analysts to engage their patients with genuine emotional

responsiveness so that not only the patient but the analyst too is open to ongoing transformation through the analytic experience. In so doing the analyst moves from the position of an interpreting observer to that of an active participant and facilitator whose affective communications enable the patient to acquire basic self trust along with self knowledge. Drawing on the current literature on affect, Maroda argues that psychological change occurs through affect laden interpersonal processes. Given that most patients in psychotherapy have problems with affect management, the completing of cycles of affective communication between therapist and patient becomes a vitally important aspect of the therapeutic enterprise. Through emotionally open responses to their patients and careful use of patient prompted self disclosures, analysts can facilitate affect regulation responsibly and constructively with the emphasis always remaining on the patient's experience. Moments of mutual surrender, the honest emotional giving over of patient to analyst and analyst to patient, epitomize the emotionally intense interpersonal experiences that lead to enduring intrapsychic change. Maroda's work is profoundly personal. She does not hesitate to share with the reader how her own personality affects her thinking and her work. Indeed, she believes her theoretical and clinical preferences are emblematic of the way in which the analyst's subjectivity necessarily shapes theory choice and practice preferences in general. Seduction, Surrender and Transformation is not only a powerful brief for emotional honesty in the analytic relationship but also a model of the personal openness that, according to Maroda, psychoanalysis demands of all its practitioners.

Vampires at Midnight M.P. Starkweather, 2023-06-28

Two rival vampires walk into a bar, no it's not just a bad joke. That's the story of how my life turned upside down. Or maybe right side up. Because the one thing these powerful men agree on is that they want me all to themselves. But becoming entangled with them opens me up to a world of danger and secrets that may yet get me killed, whether I accept their claims on me or not. All of which gets more complicated when my world is thrown for another loop and I wind up bringing a third vampire into the mix. Hope they're prepared for the sexy wolf shifter I can't stop salivating over. If the five of us can all get on the same page, though, maybe we'll figure out a way to save this city we all call home.
