Heidegger: Off the Beaten Track Martin Heidegger, 2002-08-29 This collection of texts originally published in German under the title *Holzwege* is Heidegger's first post war book and contains some of the major expositions of his later philosophy Of particular note are *The Origin of the Work of Art* perhaps the most discussed of all of Heidegger's essays and *Nietzsche's Word God is Dead* which sums up a decade of Nietzsche research Although translations of the essays have appeared individually in a variety of places this is the first English translation to bring them all together as Heidegger intended The text is taken from the last edition of the work which contains the author's final corrections together with important marginal annotations that provide considerable insight into the development of his thought This fresh and accurate new translation will be an invaluable resource for all students of Heidegger whether they work in philosophy literary theory religious studies or intellectual history

On the Death of the Pilgrim: The Postcolonial Hermeneutics of Jarava Lal Mehta Thomas B Ellis, 2012-11-28 This searching examination of the life and philosophy of the twentieth century Indian intellectual Jarava Lal Mehta details among other things his engagement with the oeuvres of Martin Heidegger Hans Georg Gadamer and Jacques Derrida It shows how Mehta's sense of cross cultural philosophy and religious thought were affected by these engagements and maps the two key contributions Mehta made to the sum of human ideas First Mehta outlined what the author dubs a postcolonial hermeneutics that uses the ethnotrope of the pilgrim to challenge the philosophical hermeneutic emphasis on supplementation and augmentation For Mehta the hermeneutic encounter ruptures rather than supplements the self Secondly Mehta extended this concept of hermeneutics to interrogate the Hindu tradition arriving at the concept of the negative messianic In contrast to Derrida's emphasis on the one to come Mehta shows how the Hindu bhakti model represents the very opposite that is the withdrawn other identifying thereby the ethical pitfalls of deconstructivism's emphasis on the messianic tradition This is the only full length study in English of this high profile Hindu philosopher

Ron Shandler's 2021 Baseball Forecaster Brent Hershey, Brandon Kruse, Ray Murphy, Ron Shandler, 2021-01-19
The industry's longest running publication for baseball analysts and fantasy leaguers, *Ron Shandler's Baseball Forecaster* published annually since 1986 is the first book to approach prognostication by breaking performance down into its component parts. Rather than predicting batting average, for instance, this resource looks at the elements of skill that make up any given batter's ability to distinguish between balls and strikes, his propensity to make contact with the ball, and what happens when he makes contact, reverse engineering those skills back into batting average. The result is an unparalleled forecast of baseball abilities and trends for the upcoming season and beyond.
