**Coup D'Etat** Ben Coes, 2013-03-26 Wanting only a peaceful obscure life Dewey Andreas has gone to rural Australia far from turbulent forces that he once fought against But powerful men seeking revenge have been scouring the earth looking for Dewey And now they've finally found him forcing Dewey to abandon his home and to fight for his life against a very well armed well trained group of assassins Meanwhile a radical cleric has been elected president of Pakistan and upon taking power sets off a rapidly escalating conflict

with India As the situation spins quickly out of control it becomes clear that India is only days from resorting to a nuclear response one that will have unimaginably disastrous results for the world at large With only days to head this off the President sends in his best people including Jessica Tanzer to do whatever it takes to restore the fragile peace to the region Tanzer has only one viable option to set up and execute a coup d'etat in Pakistan and only one man in mind to lead the team that will try to pull off this almost unimaginable task in the nerve wrackingly short time frame Dewey Andreas If that is Jessica can even get to Dewey and if Dewey can get out of Australia alive

### **Living Chinese Philosophy** Roger T.

Ames,2024-10-01 In Living Chinese Philosophy Roger T Ames uses comparative cultural hermeneutics as a method for contrasting classical Greek ontology the science of being in itself with classical Chinese zoetology the art of living which is made explicit in the Yijing or Book of Changes Parmenides Plato and Aristotle give us a substance ontology grounded in being qua being or being per se to on he on that guarantees a permanent and unchanging subject as the substratum for the human experience This substratum or essence includes its purpose for being telos and defines the what it means to be a thing of this kind eidos of any particular thing thus setting a closed exclusive boundary and the strict identity necessary for a particular thing to be this and not that In the Book of Changes we find a vocabulary that makes explicit cosmological assumptions that are a stark alternative to this substance ontology It also provides the interpretive context for the canonical texts by locating them within a holistic organic and ecological worldview To provide a meaningful contrast with this fundamental assumption of on or being we might borrow the Greek notion of zoe or life and create the neologism zoe tology as the art of living shengshenglun This cosmology begins from living sheng itself as the motive force behind change and gives us a world of boundless becomings not things that are but events that are happening a contrast between an ontological conception of human beings and a process conception of what the author calls human becomings
