emphasize intersectionality the book looks at how the gendered body has been conceptualized with special attention to body politics the power of appearance and the representation of embodied identity It also considers the interplay between body sex and sexuality and the way gendered bodies intersect with other dimensions of social inequality such as race age class and disability This exploration of the rich field of sociological inquiry into the gendered body will be an invaluable read for all seeking to understand gender sexuality and embodiment in contemporary society **The Future of Beauty** Dr I
