[The Vestal and the Fasces](#) Jeanne Lorraine Schroeder, 2023-11-15 In this feminist exploration of the erotics of the marketplace Hegel's notion of property and Lacan's idea of the phallus serve parallel functions in creating the subjectivity necessary for self actualization Subjectivity requires intersubjective relationships mediated through a regime of possessing enjoying and exchanging an

object of desire For Hegel this regime is property for Lacan it is sexuality symbolized by the Phallus which we conflate with the male organ and the female body Property law in Jeanne Schroeder s account is implicitly figured by similar anatomical metaphors for that which men wish to possess and that which women try to be and enjoy This is reflected in imagery taken from ancient Rome the axe and bundle of sticks known as the Fasces and the virgin priestess called the Vestal Schroeder traces the persistence of phallic metaphors in modern jurisprudence Rejecting the dominant schools of legal feminism she reconceptualizes property the legal relationship as well as its not necessarily material object as a necessary moment in the human struggle for love and recognition The Feminine for Schroeder is the radical negativity at the heart of both Lacan s split subject and Hegel s concept of freedom Feminine emancipation and private property are therefore equally necessary conditions for the actualization of the free individual and the just society Feminist scholars social theorists political scientists philosophers and lawyers will find in Schroeder s analysis scintillating new perspectives on property theory and the feminine within the market and the law In this feminist exploration of the erotics of the marketplace Hegel s notion of property and Lacan s idea of the phallus serve parallel functions in creating the subjectivity necessary for self actualization Subjectivity requires intersubjective relations

Longacre, 2013-11-21 In that *The Anatomy of Speech* Notions 1976 was the precursor to *The Grammar of Discourse* 1983 this revision embodies a third edition of some of the material that is found here The original intent of the 1976 volume was to construct a hierarchical arrangement of notional categories which find surface realization in the grammatical constructions of the various languages of the world The idea was to marshal the categories that every analyst regardless of theoretical bent had to take account of as cognitive entities The volume began with a couple of chapters on what was then popularly known as case grammar then expanded upward and downward to include other notional categories on other levels Chapters on discourse monologue and dialogue were buried in the center of the volume In the 1983 volume the chapters on monologue and dialogue discourse were moved to the fore of the book and the chapters on case grammar were made less prominent the volume was then renamed *The Grammar of Discourse* The current revision features more clearly than its predecessors the intersection of discourse and pragmatic concerns with grammatical structures on various levels It retains and expands much of the former material but includes new material reflecting current advances in such topics as salience cline for discourse rhetorical relations paragraph structures transitivity ergativity agency hierarchy and word order typologies     *The Wind Band and Its Repertoire: Two Decades of Research As Published in the CBDNA Journal*
