Buddhism and Empire Michael L. Walter, 2009 This book convincingly reassesses the role of political institutions in the introduction of Buddhism under the Tibetan Empire c 620-842 showing how relationships formed in the Imperial period underlie many of the unique characteristics of traditional Tibetan Buddhism Taking original sources as a point of departure the author persuasively argues that later sources hitherto used for the history of early Tibetan Buddhism in fact project later ideas backward thus distorting our view of its enculturation Following the pattern of Buddhism's spread elsewhere in Asia the early Tibetan imperial court realized how useful normative Buddhist concepts were This work clearly shows that while some beliefs and practices per se changed after the Tibetan Empire the model of socio-political religious leadership developed in that earlier period survived its demise and still constitutes a significant element in contemporary Tibetan Buddhist religious culture

Development and Decline of Fukien Province in the 17th and 18th Centuries Vermeer,2022-04-25 The history of China s Southeast coast has unusual features For many centuries overseas trade and migration internal and external warfare strong religious beliefs and receptiveness to foreign influences characterized this society of fiercely independent traders fishermen and mountain farmers The protracted struggle of Cheng Ch eng kung and the Southern Ming against the Ch ing dynasty precipitated Fukien into a crisis from which many chose to escape by emigration to the Philippines and Taiwan Recovery was slow The fourteen Western and Chinese contributors to this study focus on internal economic and social developments overseas and religious change From the rich Chinese and European source materials a picture emerges of great regional diversity Local interests and values were confronted by the central government s orthodox rule and Western influences of Jesuits and traders The Fukienese reaction to them produces fascinating insights into Chinese society and a truly local history which may qualify our ideas on the Chinese Empire REA sinologists social and economic historians
