Smarter Crime Control Irvin Waller, 2013-12-05 The U S is the world s biggest jailor and one of the most affluent murderous countries and yet its citizens pay more taxes to sustain law and order than their European counterparts Yet the U S has the most data in the world on the use of incarceration and its failure Its researchers have identified more projects able to prevent violence than the rest of the world put together Its legislators have access to pioneering data banks on cost effective ways to use taxes to reduce crime We are left wondering why we cannot implement measures that we know will work reduce crime and cost less for law and order Smarter Crime Control shows how to use recent knowledge and best practices to reduce the extraordinarily high rates of murder traffic fatalities drug overdoses and incarceration while avoiding the high taxes paid by families for policing and prisons Providing detailed examples Irvin Waller offers specific actions our leaders at all levels can take to reduce violence and lower costs to taxpayers He focuses on how to retool policing and improve corrections to reduce reoffending and crime while limiting criminal courts

He also shows how programs and investments in various strategies can help those youth on the path to chronic offending avoid the path all together Waller shows how to get smart on crime to shift the criminal justice paradigm from the failing outdated racially biased and exorbitant complex today to an effective modern fair and lean system for safer communities that spares so many victims from the loss and pain of preventable violence He makes a compelling case for reinvesting what is currently misspent on reacting to crime into smart ways to prevent crime Ultimately he demonstrates to readers the importance of reevaluating our current system and putting into place proven strategies for crime and violence prevention that will keep people out of jail and make our streets and communities safer for everyone **Professional Security**

Management Charles Swanson,2020-06-10 Historically security managers have tended to be sourced from either the armed forces or law enforcement But the increasing complexity of the organisations employing them along with the technologies employed by them is forcing an evolution and expansion of the role and security managers must meet this challenge in order to succeed in their field and protect the assets of their employers Risk management crisis management continuity management strategic business operations data security IT and business communications all fall under the purview of the security manager This book is a guide to meeting those challenges providing the security manager with the essential skill set and knowledge base to meet the challenges faced in contemporary international or tech oriented businesses It covers the basics of strategy risk and technology from the perspective of the security manager focussing only on the need to know The reader will benefit from an understanding of how risk management aligns its functional aims with the strategic goals and operations of the organisation This essential book supports professional vocational accreditation and qualifications such as the Chartered Security Professional CSyP or Certified Protection Professional CPP and advises on pathways to higher education qualifications in the fields of security and risk management It is ideal for any risk manager looking to further their training and development as well as being complementary for risk and security management programs with a focus on practice **Bulletin of the Atomic Scientists** ,1955-04 The Bulletin of the Atomic Scientists is the premier public resource
