Lost Chance In China The World War II Despatches Of John S Service:

Lost Chance in China John Stewart Service, 1974 Note on sources p xxv xxvi **The China Mission** Daniel Kurtz-Phelan, 2018-04-10 An Economist Best Book of 2018 New York Times Book Review Editor's Pick Gripping and splendid An enormous contribution to our understanding of Marshall Washington Post At the end of World War II General George Marshall took on what he thought was a final mission this time not to win a war but to stop one In China conflict between Communists and Nationalists threatened to suck in the United States and escalate into revolution Marshall's charge was to cross the Pacific broker a peace and prevent a Communist takeover all while staving off World War III At first the results seemed miraculous But as they started to come apart Marshall was faced with a wrenching choice one that would alter the course of the Cold War define the US China relationship and spark one of the darkest ever turns in American political life The China Mission offers a gripping close up view of the central figures of the time from Marshall Mao and Chiang Kai shek to Eisenhower Truman and MacArthur as they stood face to face and struggled to make history with consequences and lessons that echo today **Selections from Joseph Esherick, Ed., Lost Chance in China** John Stewart Service, Joseph Esherick, Brett Sheehan, 2002 [America's Cultural Experiment in China, 1942-1949](#) Wilma Fairbank, 1976 **The Nationalist Era in China, 1927-1949** Lloyd E. Eastman, 1991-08-30 In recent years historians of China have focused increased attention on the critical decades of National rule on the mainland This recent scholarship has substantially modified our understanding of the political events of this momentous period shedding light on the character of Nationalist rule and on the sources of the Communist victory in 1949 Yet no existing textbook on modern China presents the events of the period according to these new findings The five essays in this volume were written by leading authorities on the period and they synthesize the new research Drawn from Volume 13 of The Cambridge History of China they represent the most complete and stimulating political history of the period available in the literature The essays selected deal with Nationalist rule during the Nanking decade the Communist movement from 1927 to 1937 Nationalist rule during the Sino Japanese War the Communist movement during the Sino Japanese war and the Kuomintang Communist struggle from 1945 to 1949 *The Soviet Union and Communist China 1945-1950: The Arduous Road to the Alliance* Dieter Heinzig, 2015-06-18 Drawing on a wealth of new sources this work documents the evolving relationship between Moscow and Peking in the twentieth century Using newly available Russian and Chinese archival documents memoirs written in the 1980s and 1990s and interviews with high ranking Soviet and Chinese eyewitnesses the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino Soviet alliance An appendix contains translated Chinese and Soviet documents many of which are being published for the first time The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950 It also looks at China's relationship

with Moscow from 1920 to 1945 as well as developments from 1950 to the present The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion He also shows that the relationship between the two Communist parties was based on national interest politics and not on similar ideological convictions

Mission to Yen-an Carolle J. Carter, 2021-05-11 A deep dive into the Dixie Mission Aficionados of American political and diplomatic history may be pleasantly surprised at the riches in this book American Historical Review Conventional wisdom informs us that only Nixon could go to China In fact in 1944 nearly thirty years before his historic trip the American military established the first liaison and intelligence gathering mission with the Chinese Communists in Yen-an Commonly referred to as the Dixie Mission the detached military unit sent to Yen-an was responsible for transmitting weather information assisting the Communists in their rescue of downed American flyers and laying the groundwork for an eventual rapprochement between the Communists and Nationalists the two sides struggling in the ongoing Chinese Civil War Following extensive use of archival sources and numerous interviews with the men who traveled and served in Yen-an Carolle Carter argues that while Dixie fulfilled its assignment the members steered the mission in different directions from its original albeit loosely described intent As the months and years passed the Dixie Mission increasingly emphasized intelligence gathering over evaluating their Communist hosts contribution to the war effort against Japan Some American politicians in the 1950s portrayed the participants in the Dixie Mission as too sympathetic to the Chinese Communists But during the 1970s many looked back at these individuals as wise but ignored oracles who could have prevented the loss of China Carter strips away these simplistic portrayals to reveal a diverse and dedicated collection of soldiers diplomats and technicians who had ongoing contact with the Chinese Communists longer than any other group during World War II but who were destined to be a largely unused resource during the Cold War

Women and China's Revolutions Gail Hershatter, 2018-09-04 If we place women at the center of our account of China's last two centuries how does this change our understanding of what happened This deeply knowledgeable book illuminates the places where the Big History of recognizable events intersects with the daily lives of ordinary people using gender as its analytic lens Leading scholar Gail Hershatter asks how these events affected women in particular and how women affected the course of these events For instance did women have a 1911 revolution A socialist revolution If so what did those revolutions look like Which women had them Hershatter uses two key themes to frame her analysis The first is the importance of women's visible and invisible labor The labor of women in domestic and public spaces shaped China's move from empire to republic to socialist nation to rising capitalist power The second is the symbolic work performed by gender itself What women should do and be was a constant topic of debate during China's transformation from empire to weak state to partially occupied territory to nascent socialist republic to reform era powerhouse What sorts of concerns did people express through the language of gender How did that language work and why was it so powerful Drawing on decades of Hershatter's groundbreaking

scholarship and mastery of a range of literatures this beautifully written book will be essential reading for all students of China's modern history

progressives he lost his place on the 1944 Democratic ticket in a wild open convention resulting in Harry Truman becoming president upon FDR's death. Books, films, and even plays have since portrayed the circumstances surrounding Wallace's defeat as corrupt and the results catastrophic. Filmmaker Oliver Stone among others has claimed that Wallace's loss ushered in four decades of devastating and unnecessary Cold War. Now based on striking new finds from Russian, FBI, and other archives, Benn Steil's *The World That Wasn't* paints a decidedly less heroic portrait of the man of the events surrounding his fall and of the world that might have been under his presidency. Though a brilliant geneticist, Henry Wallace was a self-obsessed political figure blind to the manipulations of aides, many of whom were Soviet agents and assets. From 1933 to 1949, Wallace undertook a series of remarkable interventions abroad, each aimed at remaking the world order according to his evolving spiritual blueprint. As agriculture secretary, he fell under the spell of Russian mystics and used the cover of a plant gathering mission to aid their doomed effort to forge a new theocratic state in Central Asia. As vice president, he toured a Potemkin Siberian continent guided by undercover Soviet security and intelligence officials who hid labor camps and concealed prisoners. He then wrote a book together with an American NKGB journalist source hailing the region's renaissance under Bolshevik leadership. In China, the Soviets uncovered his private efforts to coax concessions to Moscow from Chiang Kai-shek, fueling their ambitions to dominate Manchuria. Running for president in 1948, he colluded with Stalin to undermine his government's foreign policy, allowing the dictator to edit his most important election speech. It was not until 1950 that he began to acknowledge his misapprehensions regarding the Kremlin's aims and conduct. Meticulously researched and deftly written, *The World That Wasn't* is a spellbinding work that shows how American history and world history could have turned out very differently if just a few things had gone the other way. *The Wall Street Journal* **The Awakening Giant** Harish Kapur, 2024-10-28 **Perceptions of China and White House Decision-Making, 1941-1963** Adam S.R.

Bartley, 2019-11-26 This book assesses and evaluates the decision-making behavior of United States presidents and their chief advisers from Roosevelt to Kennedy pertaining to China. Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a rational decision-making model, Bartley highlights the contradictions of adopted presidential decision-making processes and the nature of domestic politics as playing prejudicial and debilitating roles. The book demonstrates that elite decision-making processes interacted with assumptions made about Chinese behavior, interests, and attitudes only superficially and in some cases not at all. Misinformation and misperception were the natural outcomes. Reinforced by the politics of McCarthyism at home, intellectual debate on China policy was squashed, parochialism and nuance were shunned, and information was closed off. Ultimately, a divorce between the norm of behavior and the search for rational policy was registered in each administration. The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed; information was ignored, overlooked, and distorted. Offering new insights into the China policies of consecutive administrations from 1941 to 1963, this volume will be of great interest to scholars and students.
