Shifts Wayne Hammer,2015-09-15 *The Geologic Model of Religion* Andrew Clifford,2012-07-17 Men are haunted by the vastness of eternity The opening line of the film Troy captures the tragic essence of personal mortality ones passing into oblivion and fading from all memory Since the prehistoric dawn of humanity death has shadowed everyone s footsteps Even into the current scientific era religion has long been the only defense The sole comfort against oblivion offering a promise of new life or even immortality *The Geologic Model of Religion* is a sympathetic study of this defense from its ancient beginnings drawing upon archaeology anthropology and comparative religion to clearly explain one of the most complex subjects known From the study a new model emerges which Decomposes religion into its distinct worldview and afterlife paradigms Categorizes evidence of belief systems held by prehistoric hunter gatherers culminating in the Temples of Rebirth such as Gobekli Tepe Concludes that spirituality began in the Fertile Crescent 11 000 years ago spreading with the Neolithic revolution throughout the world Shows why judgment in afterlife was the keystone in the emerging edifice of civilization and how it enabled hierarchies overcoming Dunbar s number which limited village sizes Overviews the interaction between science and religion and projects the ultimate fate of religion itself There might be 100 000 books written about religion but the *Geologic Model of Religion* is unlike any other Drawing upon evidence from anthropology archaeology and scripture religion is divided into worldviews and afterlife paradigms This new model evidences several long lost prehistoric religious belief systems and explains the origin of spirituality in settled societies **Lightning in the Andes and Mesoamerica** John E. Staller,Brian Stross,2013-02-05 Lightning has evoked a numinous response as well as powerful timeless references and

symbols among ancient religions throughout the world Thunder and lightning have also taken on various symbolic manifestations some representing primary deities as in the case of Zeus and Jupiter in the Greco Roman tradition and Thor in Norse myth Similarly lightning veneration played an important role to the ancient civilizations of Mesoamerica and Andean South America Lightning veneration and the religious cults and their associated rituals represent to varying degrees a worship of nature and the forces that shape the natural world The inter relatedness of the cultural and natural environment is related to what may be called a widespread cultural perception of the natural world as sacred a kind of mythic landscape Comparative analysis of the Andes and Mesoamerica has been a recurring theme recently in part because two of the areas of high civilization in the Americas have much in common despite substantial ecological differences and in part because there is some evidence of varying quality that some people had migrated from one area to the other Lightning in the Andes and Mesoamerica is the first ever study to explore the symbolic elements surrounding lightning in their associated Pre Columbian religious ideologies Moreover it extends its examination to contemporary culture to reveal how cultural perceptions of the sacred their symbolic representations and ritual practices and architectural representations in the landscape were conjoined in the ancient past Ethnographic accounts and ethnohistoric documents provide insights through first hand accounts that broaden our understanding of levels of syncretism since the European contact The interdisciplinary research presented herein also provides a basis for tracing back Pre Columbian manifestations of lightning its associated religious beliefs and ritual practices as well as its mythological symbolic iconographic and architectural representations to earlier civilizations This unique study will be of great interest to scholars of Pre Columbian South and Mesoamerica and will stimulate future comparative studies by archaeologists and anthropologists

perspectives This textbook is supported by a companion website providing core resources for students and lecturers The Way of Science Dennis R. Trumble,2013-07-16 How science can convey a profound sense of wonder connectedness and optimism about the human condition This book makes a compelling case that now more than ever the public at large needs to appreciate the critical thinking tools that science has to offer and be educated in basic science literacy The author emphasizes that the methods and facts of science are accessible to everyone and that contrary to popular belief understanding science does not require extraordinary intelligence He also notes that scientific rationality and critical thinking are not only good for our physical well being but also are fully in sync with our highest moral codes He illustrates the many ways in which the scientific worldview offers a profound sense of wonder connectedness and optimism about the human condition an inspiring perspective that satisfies age old spiritual aspirations At a time of daunting environmental challenges and rampant misinformation this book provides a welcome corrective and reason to hope for the future The Genesis of Israel and Egypt Emmet Sweeney,2023-10-01 The Genesis of Israel and Egypt examines the earliest phase of historical consciousness in the ancient Near East looking in particular at the mysterious origins of Egypt s civilization and its links with Mesopotamia and the early Hebrews The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it The author Emmet Sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes events which had a profound effect upon the ancient peoples and left its mark upon their myths legends customs and religions Ideas found in all corners of the globe concepts such as dragon worship pyramid building and human sacrifice are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett Terrified and traumatized by the forces of nature people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods These events which are fundamental to any understanding of the first literate cultures have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world s great libraries Starting with clues unearthed by history sleuth Immanuel Velikovsky and others Emmet Sweeney takes the investigation further While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC about 2 000 years before those of China and the New World Ages in Alignment demonstrates that they had no 2 000 year head start All the ancient civilizations arose simultaneously around 1300 BC in the wake of a terrible natural catastrophe recalled in legend as the Flood or Deluge Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition This chronology had already been established in its present form by the third century BC when Jewish historians utilizing the History of Egypt by the Hellenistic author Manetho sought to tie in Egypt s history with that of the Bible Apparent gaps and weird repetitions resulted Improbable feats like the construction of major cut stone engineering projects before the advent of steel tools or

Pythagorean geometry point to the weaknesses of the traditional view Taking a more rigorous approach and pointing to solid evidence Emmet Sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times Volume 1 The Genesis of Israel and Egypt looks at the archaeological evidence for the Flood evidence now misinterpreted and ignored This volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the great migration which led groups of early Mesopotamians westward toward Egypt where they helped to establish Egyptian civilization This migration recalled in the biblical story of Abraham provides the first link between Egyptian and Hebrew histories The next link comes a few generations later with Imhotep the great seer who solved the crisis of a seven year famine by interpreting pharaoh Djoser s dream Imhotep is shown to be the same person as Joseph son of Jacob
