Blits,2011-01-01 Turning Telling Moments in the Classical Political World examines developments in the classical political world which are both turning and telling moments

All the moments from Theseus's founding of Athens to Augustus's establishment of the Principate possess the double character of being turning points and revealing fundamental aspects of the ancient political world. While most books on ancient history are chiefly concerned with questions of literary sources and historical accuracy, this book deals with the significance of the facts and reports themselves. *Blitz* treats the ancient histories as works of reflection rather than works of research. Instead of focusing on whether or how the ancient historians meet the professional standards of present-day historiography, *Blitz* reveals the way they themselves understand and intend us to understand the ancient world.

If Truth Be Told Didier Fassin, 2017-05-18 What happens when ethnographers go public via books, opinion papers, media interviews, court testimonies, policy recommendations, or advocacy activities? Calling for a consideration of this public moment as part and parcel of the research process, the contributors to *If Truth Be Told* explore the challenges, difficulties, and stakes of having ethnographic research encounter various publics ranging from journalists, legal experts, and policymakers to activist groups, local populations, and other scholars. The experiences they analyze include Didier Fassin's interventions on police and prison, Gabriella Coleman's multiple roles as intermediary between hackers and journalists, Kelly Gillespie's and Jonathan Benthall's experiences serving as expert witnesses, the impact of Manuela Ivone Cunha's and Vincent Dubois's work on public policies, and the vociferous attacks on the work of Unni Wikan and Nadia Abu El Haj. With case studies from five continents, this collection signals the global impact of the questions that the publicization of ethnography raises about the public sphere, the role of the academy, and the responsibilities of social scientists. Contributors: Jonathan Benthall, Lucas Bessire, Jo o Biehl, Gabriella Coleman, Manuela Ivone Cunha, Vincent Dubois, Nadia Abu El Haj, Didier Fassin, Kelly Gillespie, Ghassan Hage, Sherine Hamdy, Federico Neiburg, Unni Wikan.

Imagining Jesus in His Own Culture Jerome H. Neyrey, 2018-08-09 Every disciple imagines Jesus reading the Gospels, we form images of him and of his surroundings. This has been constant practice for those who desire to know him more clearly. We however borrow stuff from stained glass windows, book illustrations, and the like, which is always familiar to us but which reflects our not his culture. This book invites readers to construct different scenarios about Jesus and his world from the study of his ancient culture. We do this with accuracy because of the advance of cultural studies of his and our worlds. Jesus should look different, wear different clothing, experience different grooming in settings foreign to us, in houses and boats from his own world. Jesus should speak differently so that the meaning of his words can only be known in his culture. In this book, readers travel through the Gospels with specific suggestions about what to see, namely Jesus in his cultural world. *Imagining Jesus* also suggests how to listen to him in his cultural language. Did Jesus laugh? How did he pray? This is what the incarnation means: imagining Jesus socialized in a particular culture at a time foreign to us and in a language strange to us.

The Sorrows of the Ancient Romans Carlin A. Barton, 2020-10-06 This inquiry into the collective psychology of the ancient Romans speaks not about military conquest, sober law, and practical politics but about extremes of despair, desire, and envy. Carlin Barton makes us uncomfortably familiar

Payback Thane Rosenbaum,2013-04-10 We call it justice the assassination of Osama bin Laden the incarceration of corrupt politicians or financiers like Rod Blagojevich and Bernard Madoff and the climactic slaying of cinema screen villains by superheroes But could we not also call it revenge We are told that revenge is uncivilized and immoral an impulse that individuals and societies should actively repress and replace with the order and codes of courtroom justice What if anything distinguishes punishment at the hands of the government from a victim s individual desire for retribution Are vengeance and justice really so very different No answers legal scholar and novelist Thane Rosenbaum in Payback The Case for Revenge revenge is in fact indistinguishable from justice Revenge Rosenbaum argues is not the problem It is in fact a perfectly healthy emotion Instead the problem is the inadequacy of lawful outlets through which to express it He mounts a case for legal systems to punish the guilty commensurate with their crimes as part of a societal moral duty to satisfy the needs of victims to feel avenged Indeed the legal system would better serve the public if it gave victims the sense that vengeance was being done on their behalf Drawing on a wide range of support from recent studies in behavioral psychology and neuroeconomics to stories of vengeance and justice denied to revenge practices from around the world to the way in which revenge tales have permeated popular culture including Hamlet The Godfather and Braveheart Rosenbaum demonstrates that vengeance needs to be more openly and honestly discussed and lawfully practiced Fiercely argued and highly engaging Payback is a provocative and eye opening cultural tour of revenge and its rewards from Shakespeare to The Sopranos It liberates revenge from its social stigma and proves that vengeance is indeed ours a perfectly human and acceptable response to moral injury Rosenbaum deftly persuades us to reconsider a misunderstood subject and along the way reinvigorates the debate on the shape of justice in the modern world
