Digest of Appropriations for the Support of the Government of the United States United States. Department of the Treasury. Division of Central Accounts,1931 *Engineering Index* ,1925 **The Engineering Index** ,1925 **Digest of Appropriations for the Support of the Government of the United States for the Service of the Fiscal Year Ending ..., and on Account of Deficiencies for Prior Years, Made by the ... Session of the ... Congress** United States. Department of the Treasury. Division of Bookkeeping and Warrants,1930 *Global Powers of Horror* Francois Debrix,2016-12-19 *Global Powers of Horror* examines contemporary regimes of horror into horror s intricacies and into their deployment on and through human bodies and body parts To track horror s work what horror decomposes and perhaps recomposes Debrix goes beyond the idea of the integrality and integrity of the human body and it brings the focus on parts pieces or fragments of bodies and lives Looking at horror s production of bodily fragments both against and beyond humanity the book is also about horror s own attempt at re forming or re creating matter from the perspective of post human non human and inhuman fragmentation Through several contemporary instances of dismantling of human bodies and pulverization of body parts this book makes several interrelated theoretical contributions It works with contemporary post geo political figures of horror faces of concentration camp dwellers body parts of victims of terror attacks the outcome of suicide bombings graphic reports of beheadings re compositions of melted and mingled remnants of non human and human matter after 9 11 to challenge regimes of terror and security that seek to forcefully and ideologically reaffirm a biopolitics and thanatopolitics of human life in order to anchor today s often devastating deployments of the metaphysics of substance Critically enabling one to see how security and terror form a geo political continuum of violent mobilization utilization and often destruction of human and non human bodies and lives this book will be of interest to graduates and scholars of bio politics international relations and security studies

Earth and Sun Ellsworth Huntington,1923 *Healthy Urban Environments* Cecily Maller,2018-05-20 Set in the human environment interaction space this book applies new theoretical and practical insights to understanding what makes healthy urban environments It stems from recognition that the world is rapidly urbanising and the international concern with how to create healthy settings and

liveable cities in the context of a rapidly changing planet A key argument is that usual attempts to make healthy cities are limited by human centrism and bifurcated western thinking about cities health and nature Drawing on the innovative more than human scholarship from a range of disciplines it presents a synthesis of the main contributions and how they can be used to rethink what healthy urban environments are and who they are for In particular the book turns its attention to urban biodiversity and the many non human species that live in make and share cities with humans The book will be of interest to scholars and students in human geography health sociology environmental humanities public health health promotion planning and urban design as well as policymakers and professionals working in these fields *The Global Commons* Susan J. Buck, 2012-06-22 Vast areas of valuable resources unfettered by legal rights have for centuries been the central target of human exploitation and appropriation The global commons Antarctica the high seas and deep seabed minerals the atmosphere and space have remained exceptions only because access has been difficult or impossible and the technology for successful extraction has been lacking Now technology has caught up with desire and management regimes are needed to guide human use of these important resource domains In *The Global Commons* Susan Buck considers the history of human interactions with each of the global commons areas and provides a concise yet thorough account of the evolution of management regimes for each area She explains historical underpinnings of international law examines the stakeholders involved and discusses current policy and problems associated with it Buck applies key analytical concepts drawn from institutional analysis and regime theory to examine how legal and political concerns have affected the evolution of management regimes for the global commons She presents in depth case studies of each of the four regimes outlining the historical evolution of the commons development of interest in exploiting the resource domain conflicts among nations over the use of the commons and efforts to design institutions to control access to the domains and to regulate their use and concluding with a description of the management regime that eventually emerged from the informal and formal negotiations *The Global Commons* provides a clear useful introduction to the subject that will be of interest to general readers as well as to students in international relations and international environmental law and in environmental law and policy generally

Dictionary of Minor Planet Names Lutz D. Schmadel, 2012-06-10 The quantity of numbered minor planets has now well exceeded a quarter million The new sixth edition of the *Dictionary of Minor Planet Names* which is the IAU's official reference work for the field now covers more than 17 000 named minor planets In addition to being of practical value for identification purposes the *Dictionary of Minor Planet Names* provides authoritative information on the basis of the rich and colorful variety of ingenious names from heavenly goddesses to artists from scientists to Nobel laureates from historical or political figures to ordinary women and men from mountains to buildings as well as a variety of compound terms and curiosities This sixth edition of the *Dictionary of Minor Planet Names* has grown by more than 7 000 entries compared to the fifth edition and by more than 2 000 compared to the fifth edition including its two addenda published in 2006 and 2009 In

addition there are many corrections revisions and updates to the entries published in earlier editions This work is an abundant source of information for anyone interested in minor planets and who enjoys reading about the people and things minor planets commemorate *Sport Fishery Abstracts* ,1965 Revisiting Colonialism and Colonial Labour Sivachandralingam Sundara Raja,Shivalinggam Raymond,2023-07-31 This book argues that the prevailing view of colonialism that it was a negative and destructive phenomenon needs to be rethought It focuses on the experiences of the South Indian working class large numbers of which came to Malaya in the early years of the twentieth century emigrating from socially economically and environmentally inhospitable south India It examines the opportunities which colonialism presented for these people highlighting also the British approach to colonialism in Malaya an approach which emphasised conservatism and tradition and which protected the interests of the Malay aristocrat classes and by extension the Malay masses in order to compensate for European economic dominance and the influx of a non Malay labour force Overall the book demonstrates that the South Indians a class whose identity social existence and prospects were inextricably linked to imperial processes benefitted from colonialism and should be viewed as an active transnational entity within a constructive system rather than as passive victims of repressive destructive forces The Postcolonial Age of Migration Ranabir Samaddar,2020-05-11 This book critically examines the question of migration that appears at the intersection of global neo liberal transformation postcolonial politics and economy It analyses the specific ways in which colonial relations are produced and reproduced in global migratory flows and their consequences for labour human rights and social justice The postcolonial age of migration not only indicates a geopolitical and geo economic division of the globe between countries of the North and those of the South marked by massive and mixed population flows from the latter to the former but also the production of these relations within and among the countries of the North The book discusses issues such as transborder flows among countries of the South migratory movements of the internally displaced growing statelessness leading to forced migration border violence refugees of partitions customary and local practices of care and protection population policies and migration management both emigration and immigration the protracted nature of displacement labour flows and immigrant labour and the relationships between globalisation nationalism citizenship and migration in postcolonial regions It also traces colonial and postcolonial histories of migration and justice to bear on the present understanding of local experiences of migration as well as global social transformations while highlighting the limits of the fundamental tenets of humanitarianism protection assistance security responsibility which impact the political and economic rights of vast sections of moving populations Topical and an important intervention in contemporary global migration and refugee studies the book offers new sources interpretations and analyses in understanding postcolonial migration It will be useful to scholars and researchers of migration studies refugee studies border studies political studies political sociology international relations human rights and law human geography international politics and political economy It will also interest policymakers legal practitioners
