Movement and Silence Richard S. Kayne, 2005-07-14 This volume collects recent articles by Richard Kayne which illustrate the power of the comparative approach state his argument that syntax is generally more complex than it first appears

Merging Features José M. Brucart, Anna Gavarró, Jaume Solà, 2009-01-29 This book presents new work on how Merge and formal features two basic factors in the Minimalist Program should determine the syntactic computation of natural language Merge combines simpler objects into more complex ones Formal features establish dependencies within objects In this book leading scholars examine the intricate ways in which these two factors interact to generate well formed derivations in natural language It is divided into two parts concerned with formal features and interpretable features a subset of formal features The authors combine grammatical theory with the analysis of data drawn from a wide range of languages both in the adult grammar and in first language acquisition The mechanisms at work in linguistic computation are considered in relation to a variety of linguistic phenomena including A binding A dependencies and reconstruction agreement word order adjuncts pronouns and complementizers

Dravidian Syntax and Universal Grammar K. A. Jayaseelan, R. Amritavalli, 2017 This volume comprises twenty eight papers on Dravidian by K A Jayaseelan and R Amritavalli These papers cover the entire area of Dravidian syntax and they are simultaneously wide ranging and targeted in their analyses No future discussion of Dravidian languages is possible without taking into account the analyses set forth in these pages

The Oxford Handbook of Comparative Syntax Guglielmo Cinque, Richard S. Kayne, 2008-10-16 Its twenty one commissioned chapters serve two functions they provide a general and theoretical introduction to comparative syntax its methodology and its relation to other domains of linguistic inquiry and they also provide a systematic selection of the best comparative work being done today on those language groups and families where substantial progress has been achieved This volume will be an essential resource for scholars and students in formal linguistics Jacket

Language Change at the Interfaces Nicholas Catasso, Marco Coniglio, Chiara De Bastiani, 2022-04-15 This volume offers an up to date survey of linguistic phenomena at the interfaces between syntax and prosody information structure and discourse with a special focus on Germanic and Romance and their role in language change The contributions set within the generative framework discuss original data and provide new insights into the diachronic development of long burning issues such as negation word order quantifiers null subjects aspectuality the structure of the left periphery and extraposition The first part of the volume explores interface phenomena at the intrasentential level in which only clause internal factors seem to play a significant role in determining diachronic change The second part examines developments at the intersentential level involving a rearrangement of categories between at least two clausal domains The book will be of interest for scholars and students interested in generative accounts of language change phenomena at the interfaces as well as for theoretical linguists in general

Advances in Comparative Germanic Syntax Artemis Alexiadou, Jorge Hankamer, Thomas McFadden, Justin

Nuger, Florian Schäfer, 2009-05-14 The present volume contains a selection of papers presented at the 21st and 22nd Comparative Germanic Syntax Workshop held at the University of California Santa Cruz and the University of Stuttgart The contributions provide insightful discussions of several topics of current interest for syntactic theory on the basis of comparative data from a wide range of contemporary and historical Germanic languages The theoretical issues explored include the left periphery with a number of contributions touching on the pros and cons of cartographic accounts different aspects of word order and how it arises from movement and clause structure the interplay of thematic relations and case theory with the realization of DPs and the treatment of finiteness and modal structures This book is of interest to syntacticians working in a comparative perspective and to advanced undergraduates Rethinking Parameters Luis Eguren, Olga Fernandez-Soriano, Amaya Mendikoetxea, 2016-02-12 This collection of articles provides an overview of current generative theorizing and empirical work on the nature origin and scope of parameters of linguistic variation Often taking diverging views the papers in the volume address some or all of the main debated topics in parametric syntax **Questions of Syntax** Richard S. Kayne, 2019-03-22 There are far more syntactically distinct languages than we might have thought Yet there are far fewer than there might have been We need to understand why Questions of Syntax collects sixteen papers authored by Richard S Kayne a preeminent syntactician who has sought over the course of his career to understand why both these things are true **Historical Linguistics 2011** Ritsuko Kikusawa, Lawrence A. Reid, 2013-11-14 This volume of selected papers from the 20th International Conference on Historical Linguistics Osaka Japan July 2011 presents a set of stimulating and ground breaking studies on a wide range of languages and language families As the scope of studies that can be characterized as Historical Linguistics has expanded ICHL conferences have likewise seen a broadening of topics presented and this conference was no exception reflected by the inclusion in this volume of a plenary presentation on the grammaticalization of expressions of negation and gendered kinship in American Sign Language Three other papers propose new views of the role of grammaticalization in English Chinese and Niger Congo languages Four of the papers discuss specific problems that arise in the comparison and reconstruction of linguistic features in a range of languages from Asia Europe and South America The last six studies deal with innovative approaches to the historical development of suppletion in Romance languages possessive classifiers in Austronesian universal quantifiers in Germanic adjectival sequences in English exaptation in Celtic and Early English and drift in Ancient Egyptian **Advances in Formal Slavic Linguistics 2022** Berit Gehrke, Denisa Lenertová, Roland Meyer, Daria Seres, Luka Szucsich, Joanna Zaleska, 2025-05-12 Advances in Formal Slavic Linguistics 2022 brings together a collection of 22 articles originating as talks presented at the 15th Formal Description of Slavic Languages conference FDSL 15 held in Berlin on 5-7 October 2022 The contributions cover a broad spectrum of topics including clitics nominalizations participles the dual verbal prefixes assimilation verbal and adjectival morphology lexical stress vowel reduction focus particles aspect multiple wh fronting definiteness polar questions negation words and argument

structure in such languages as BCMS Bulgarian Czech Macedonian Polish Russian Slovenian Ukrainian and Upper Sorbian The wide range of topics explored in this volume underscores the diversity and complexity of Slavic languages The contributions not only advance our understanding of languages belonging to the Slavic group but also offer fresh perspectives for linguistics more broadly
