O Strange New World:

O Strange New World Howard Mumford Jones, 1964 **The Old World, the New World, and the Creation of the Modern World, 1400-1650** Aaron M. Shatzman, 2013-08-01 The Old World the New World and the Creation of the Modern World 1400 1650 An Interpretive History provides a unique look at the early years of European discovery and colonization examining the impact of this period on the historical development of both the New and Old Worlds The text is enhanced by the incorporation of a wide variety of original source material allowing readers to benefit from a more first hand experience of the historical events of the period Providing the essential facts in conjunction with expert analysis the volume poses a number of important questions to enable readers to construct their own analysis of the evidence presented Uniquely the volume goes beyond the standard textbook formula of what when and where to delve more deeply into the specific as well as the wider significance of historical developments thereby providing the platform for a textured interpretive understanding of the history of the Atlantic world **O Strange New World** Clarence Ray Carpenter, 1964 **The Old World, the New World, and the Creation of the Modern World, 1400-1650 : an Interpretive History** Aaron M. Shatzman, 2013-08-15 This book provides a unique look at the early years of European discovery and colonization analyzing the impact of this period on the historical development of both the New and Old Worlds *English Aeneid* Sheldon Brammall, 2015-06-28 The first book length study of the English Renaissance translations of Virgil's Aeneid This study brings to light a history of English Renaissance Aeneids that has been lost from view Previous monographs have explored the complete translations by Gavin Douglas 1513 and John Dryden 1697 but there has been little research focussing on the Aeneid translations which appeared in between This book covers the period from the beginning of Elizabeth's reign to the start of the English Civil War during which time there were thirteen authors who composed substantial translations of Virgil's epic These translators include prominent literary figures such as Richard Stanyhurst Christopher Marlowe and Sir John Harington as well as scholars schoolmasters and members of parliament Rather than simply viewing these Aeneids as scattered efforts preceding Dryden and the golden age of Augustan translation this book argues that these works represent a recognizable and important period of English classical translation Drawing on manuscripts and printed sources the book sketches a continuous portrait of the English Aeneids as they developed through the ages of Elizabeth James and Charles I Key features Reconsiders the role that Virgil's epic played in the English Renaissance Identifies a period in translation history Offers original readings of influential texts Brings together the realms of literature and politics Sheldon Brammall is Leverhulme Trust Early Career Fellow Faculty of English Language and Literature University of Oxford **Political Shakespeare** Stephen Orgel, Sean Keilen, 1999 Shakespeare has never been more ubiquitous not only on the stage and in academic writing but in film video and the popular press On television he advertises everything from cars to fast food His birthplace the tiny Warwickshire village of Stratford Upon Avon has been transformed into a theme park of staggering commercialism and the New Globe in its second season is

already a far bigger business than the old Globe could ever have hoped to be. If popular culture cannot do without Shakespeare continually reinventing him and reimagining his drama and his life, neither can the critical and scholarly world for which Shakespeare has for more than two centuries served as the central text for analysis and explication, the foundation of the western literary canon and the measure of literary excellence. The Shakespeare essays collected in these volumes reveal a Shakespeare as fully as multifarious as the Shakespeare of theme parks, movies and television. Indeed, it is part of the continuing reinvention of Shakespeare. The essays are drawn for the most part from work done in the past three decades, though a few essential enabling essays from an earlier period have been included. They not only chart the directions taken by Shakespeare studies in the recent past but they serve to indicate the enormous and continuing vitality of the enterprise and the extent to which Shakespeare has become a metonym for literary and artistic endeavor generally.

The Lay of the Land Annette Kolodny, 2017-11-01. An original and highly unusual psycholinguistic study of American literature and culture from 1584 to 1860. This volume focuses on the metaphor of land as woman. It is the first systematic documentation of the recurrent responses to the American continent as a feminine entity: as Mother, as Virgin, as Temptress, as the Ravished, and it is also the first systematic inquiry into the metaphor's implications for the current ecological crisis.

Sensory Worlds in Early America Peter Charles Hoffer, 2005-12-12. Over the past half century, historians have greatly enriched our understanding of America's past, broadening their fields of inquiry from such traditional topics as politics and war to include the agency of class, race, ethnicity and gender, and to focus on the lives of ordinary men and women. We now know that homes and workplaces form a part of our history as important as battlefields and the corridors of power. Only recently, however, have historians begun to examine the fundamentals of lived experience and how people perceive the world through the five senses. In this ambitious work, Peter Charles Hoffer presents a sensory history of early North America, offering a bold new understanding of the role that sight, sound, smell, taste and touch played in shaping the lives of Europeans, Indians and Africans in the New World. Reconstructing the most ephemeral aspects of America's colonial past: the choking stench of black powder, the cacophony of unfamiliar languages, the taste of fresh water and new foods, the first sight of strange peoples and foreign landscapes, the rough texture of homespun, the clumsy weight of a hoe, Hoffer explores the impact of sensuous experiences on human thought and action. He traces the effect sensation and perception had on the cause and course of events conventionally attributed to deeper cultural and material circumstances. Hoffer revisits select key events, encounters and writings from America's colonial past to uncover the sensory elements in each and decipher the ways in which sensual data were mediated by prevailing and often conflicting cultural norms. Among the episodes he reexamines are the first meetings of Europeans and Native Americans, belief in and encounters with the supernatural, the experience of slavery and slave revolts, the physical and emotional fervor of the Great Awakening and the feelings that prompted the Revolution. Imaginatively conceived, deeply informed and elegantly written, *Sensory Worlds of Early America* convincingly establishes sensory experience as a legitimate

object of historical inquiry and vividly brings America's colonial era to life Richard Godbeer author of *Sexual Revolution in Early America* **Making America** Luther S. Luedtke, 1992 In this richly interdisciplinary work twenty eight of the nation's leading critics and scholars offer a comprehensive exploration of American society and culture Each outstanding in his or her own field the contributors address America from a diversity of perspectives The Chief American Poets Curtis Hidden Page, 1905

Science Encounters the Indian, 1820-1880 Robert E. Bieder, 2003-05-01 Brilliantly written and copiously footnoted this book details the life and work of five central figures in the development of American anthropology Albert Gallatin Samuel G. Morton Ephraim G. Squier Henry R. Schoolcraft and Lewis Henry Morgan Plains Anthropologist *General Nonfiction Award 1962 - 1993* Heinz-D. Fischer, 2012-02-14 The School of Journalism at Columbia University has awarded the Pulitzer Prize since 1917 Nowadays there are prizes in 21 categories from the fields of journalism literature and music The Pulitzer Prize Archive presents the history of this award from its beginnings to the present In parts A to E the awarding of the prize in each category is documented commented and arranged chronologically Part F covers the history of the prize biographically and bibliographically Part G provides the background to the decisions **Early Visions and Representations of America**

M. Carmen Gomez-Galisteo, 2012-11-22 When the Europeans first arrived in America they had a number of preconceptions prejudices expectations and hopes about what life in the New World would be like This book examines the different visions and representations of America conveyed in the writings of Spanish conquistador Ibarra N. ez Cabeza de Vaca and the Pilgrim leader William Bradford taking both writers within their respective literary and historical contexts Anthologies of American literature have consistently ignored Spanish language achievements on the grounds of a restrictive interpretation of American literature based on linguistic boundaries Consequently Spanish language texts such as Cabeza de Vaca's or the account by the Hidalgo de Elvas to name but two examples have been marginalized in the narrative of American literary history In seeking to redress this neglect Galisteo contributes to scholarship which seeks to analyze Early America as a whole including not only Anglo American perspectives but also the Spanish American aspect of the colonization process *Fast Food, Stock Cars, and Rock 'n' Roll* George O. Carney, 1995 The only anthology of its kind this collection brings together classic and recent essays by thirteen leading geographers exploring American popular culture The essays examine music food sports politics architecture clothing and religion within the context of five themes of cultural geography region diffusions ecology integration and landscape A list of suggested readings follows each section Fast Food Stock Cars and Rock n Roll is an excellent text for introductory courses appealing to students through its discussion of such topics as grunge rock fast food and blue jeans **American Narcissism** Wilber W. Caldwell, 2006 Nationalism is unique in America Our notions of superiority spring from visions of chosen-ness mission and high destiny frontier self-sufficiency and the triumph of the immigrant experience Where is the line between benign patriotism and malignant nationalism individual liberty and mass tyranny **The American Scene** Robert D. Marcus, David Burner, 1971 Jefferson and the Iconography of Romanticism

M. Kelsall, 1999-05-17 Jefferson and the Iconography of Romanticism is the first full length study to examine how Jefferson in the process of inventing the USA as the first new nation of the Romantic era sought to find an appropriate imagery to represent the people their homeland and the cultural ideal to which they should aspire It examines in detail the role of his villa at Monticello in embodying the national ideal shows how those ideals emerged and how they were subsequently challenged by the reinterpretation of Jefferson's iconography Myth and Southern History: The Old South Patrick Gerster, Nicholas Cords, 1989 Many historical myths are actually false yet psychologically true The contributors to this volume see myth and reality as complementary elements in the historical record Myth and Southern History is as much a commentary on southern historiography as it is on the viability of myth in the historical process Volume 2 The New South offers new perspectives on the North's role in southern mythology the so called Savage South twentieth century black and white southern women and the changes that distinguish the late twentieth century South from that of the Civil War era
