

Oil In Uganda

Joseph Kasule

Oil In Uganda:

An Uncertain Future - Anticipating Oil in Uganda Annika Witte, 2018 The discovery of oil in Uganda in 2006 ushered in an oil age era with new prospects of unforeseen riches However after an initial exploration boom developments stalled Unlike other countries with major oil discoveries Uganda has been slow in developing its oil In fact over ten years after the first discoveries there is still no oil During the time of the research for this book between 2012 and 2015 Uganda's oil had not yet fully materialised but was becoming The overarching characteristic of this research project was waiting for the big changes to come a waiting characterised by indeterminacy There is a timeline but every year it gets expanded and in 2018 having oil still seems to belong to an uncertain future This book looks at the waiting period as a time of not yet ness and describes the practices of future and resource making in Uganda How did Ugandans handle the new resource wealth and how did they imagine their future with oil to be This ethnography is concerned with Uganda's oil and the way Ugandans anticipated different futures with it promising futures of wealth and development and disturbing futures of destruction and suffering The book works out how uncertainty was an underlying feature of these anticipations and how risks and risk discourses shaped the imaginations of possible futures Much of the talk around the oil involved the dichotomy of blessing or curse and it was not clear which one the oil would be Rather than adding another assessment of what the future with oil will be like this book describes the predictions and prophesies as an essential part of how resources are being made This ethnography shows how various actors in Uganda from the state the oil industry the civil society and the extractive communities have tried to negotiate their position in the oil arena Annika Witte argues in this book that by establishing their risks and using them as power resources actors can influence the becoming of oil as a resource and their own place in a petro future The book offers one of the first ethnographic accounts of Uganda's oil and the negotiations that took place in an oil state to be

Oil in Uganda Ben Shepherd, 2015-07-28 The resource curse is not inevitable Uganda has time on its side but it must not waste it The debate on oil must move beyond the politics of the present and look to the long term Oil will be central to Uganda for decades to come It is incumbent on today's leaders in government opposition and civil society alike to work together to ensure a bright future for generations to come Lessons can be learned from those countries that have successfully managed natural resources as well as those that have suffered from their mismanagement Transparency matters if Uganda's social cohesion is going to be maintained A well informed national conversation on how to balance spending with saving is vital to the health of the agricultural sector and key to a positive future The need to protect technical advice from political influence is vital across all governments And a population that understands how revenues are being spent is more likely to work with government rather than against it building a positive feedback mechanism between people and the state that can act as a bulwark against future abuses

Uganda Jörg Wiegratz, Giuliano Martiniello, Elisa Greco, 2018-11-15 For the last three decades Uganda has been one of the fastest growing economies in Africa Globally praised as an African success

story and heavily backed by international financial institutions development agencies and bilateral donors the country has become an exemplar of economic and political reform for those who espouse a neoliberal model of development The neoliberal policies and the resulting restructuring of the country have been accompanied by narratives of progress prosperity and modernisation and justified in the name of development But this self celebratory narrative which is critiqued by many in Uganda masks the disruptive social impact of these reforms and silences the complex and persistent crises resulting from neoliberal transformation Bringing together a range of leading scholars on the country this collection represents a timely contribution to the debate around the New Uganda one which confronts the often sanitised and largely depoliticised accounts of the Museveni government and its proponents Harnessing a wealth of empirical materials the contributors offer a critical multi disciplinary analysis of the unprecedented political socio economic cultural and ecological transformations brought about by neoliberal capitalist restructuring since the 1980s The result is the most comprehensive collective study to date of a neoliberal market society in contemporary Africa offering crucial insights for other countries in the Global South

Oil in Uganda N. Harris, J. W. Pallister, J. M. Brown, 1956 An Uncertain Future - Anticipating Oil in Uganda Annika Witte, 2018

The discovery of oil in Uganda in 2006 ushered in an oil age era with new prospects of unforeseen riches However after an initial exploration boom developments stalled Unlike other countries with major oil discoveries Uganda has been slow in developing its oil In fact over ten years after the first discoveries there is still no oil During the time of the research for this book between 2012 and 2015 Uganda's oil had not yet fully materialised but was becoming The overarching characteristic of this research project was waiting for the big changes to come a waiting characterised by indeterminacy There is a timeline but every year it gets expanded and in 2018 having oil still seems to belong to an uncertain future This book looks at the waiting period as a time of not yet ness and describes the practices of future and resource making in Uganda How did Ugandans handle the new resource wealth and how did they imagine their future with oil to be This ethnography is concerned with Uganda's oil and the way Ugandans anticipated different futures with it promising futures of wealth and development and disturbing futures of destruction and suffering The book works out how uncertainty was an underlying feature of these anticipations and how risks and risk discourses shaped the imaginations of possible futures Much of the talk around the oil involved the dichotomy of blessing or curse and it was not clear which one the oil would be Rather than adding another assessment of what the future with oil will be like this book describes the predictions and prophecies as an essential part of how resources are being made This ethnography shows how various actors in Uganda from the state the oil industry the civil society and the extractive communities have tried to negotiate their position in the oil arena Annika Witte argues in this book that by establishing their risks and using them as power resources actors can influence the becoming of oil as a resource and their own place in a petro future The book offers one of the first ethnographic accounts of Uganda's oil and the negotiations that took place in an oil state to be

Uganda International Monetary Fund. African Dept., 2017-07-12 This

2017 Article IV Consultation highlights that Uganda's recent economic performance has been sound notwithstanding a slowdown in growth. Real GDP growth is estimated to have slowed to 3.9 percent in FY2016/17 reflecting domestic factors and external headwinds including the drought in the Horn of Africa. The banking sector remains well capitalized overall. However, elevated nonperforming loans have constrained bank lending which contributed to the growth slowdown. Food price inflation increased owing to the drought but core inflation was 5.1 percent in May 2017 in line with the Bank of Uganda's target. The outlook is broadly favorable. With steadfast policy implementation and assuming improved weather conditions, growth could accelerate to 5 percent in FY2017/18.

The Energy Year - Uganda 2022 The Energy Year, Now is the time Uganda is the right destination for investment. H. E. Yoweri Kaguta Museveni, President of the Republic of Uganda. The Energy Year Uganda 2022 is a special edition celebrating Uganda's 60th anniversary of independence and covering the unlocking of the country's hydrocarbons and power sectors. This edition has been produced in partnership with Uganda's State House, the Ministry of Energy and Mineral Development and the Petroleum Authority of Uganda. Following Uganda's FID announcement in February 2022, The Energy Year Uganda 2022 analyses the latest developments and future prospects of the country's nascent oil and gas sector as well as its linkages with the power sector and wider economy and portrays the projects championed by the key players of the Ugandan energy value chain. Uganda is well on the road for its oil and gas resources to generate value for the country. The key drivers for the country's value from these resources are through the participation of its people and its enterprises in the provision of goods and services, enhancing the linkages between oil and gas and other sectors of the economy and the revenues to be generated when production of oil starts. Ernest Rubondo, Executive Director, Petroleum Authority of Uganda. The Energy Year Uganda 2022 also includes a map featuring Uganda's planned oil and gas infrastructure and licences as well as the East African Crude Oil Pipeline (EACOP) infrastructure. This second edition of The Energy Year's Uganda series is the most updated in-depth analysis and comprehensive guide on the evolving Ugandan energy market. It underlines the key projects that will shape the Ugandan oil and gas value chain of the future and identifies the country's potential and untapped opportunities.

Energy Law in Uganda Emmanuel B. Kasimbazi, 2023-03-20. Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides a systematic approach to legislation and legal practice concerning energy resources and production in Uganda. The book describes the administrative organization, regulatory framework and relevant case law pertaining to the development, application and use of such forms of energy as electricity, gas, petroleum and coal with attention as needed to the pervasive legal effects of competition law, environmental law and tax law. A general introduction covers the geography of energy resources, sources and basic principles of energy law and the relevant governmental institutions. Then follows a detailed description of specific legislation and regulation affecting such factors as documentation, undertakings, facilities, storage, pricing, procurement and sales, transportation, transmission, distribution and supply of each form of energy. Case law, intergovernmental cooperation

agreements and interactions with environmental tax and competition law are explained Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable resource for energy sector policymakers and energy firm counsel handling cases affecting Uganda It will also be welcomed by researchers and academics for its contribution to the study of a complex field that today stands at the foreground of comparative law *Oil In Ugandan* Myrtie Nix,2021-04 From 2006 onward a series of oil discoveries put Uganda on the global energy map These were the largest onshore oil finds in sub Saharan Africa in over two decades and part of an oil and gas surge in East Africa and a wider energy boom on the continent But almost immediately after the discovery of oil a series of regulatory disputes between the Ugandan government and international oil companies delayed development and production In this Oil Industry book you will discover Introduction Interview Process of crude oil production Oil extraction process Crude oil exploration storage and distribution Managing oil risks Oil and the stock market Has oil reached its peak Natural gas for electricity Use of petroleum by products Dangers of fracking Dangers of gushing oil fires And so much more Get your copy today **Historical Dictionary of Uganda** Joseph Kasule,2022-06-22 Uganda is one of the most fascinating countries in Africa Situated in the middle of the Great Lakes region of Eastern Africa it is home to diverse flora and fauna Little wonder Winston Churchill famously named it the Pearl of Africa Neighbored by South Sudan DRC Kenya Tanzania and Rwanda Uganda claims the source of the River Nile and a larger share of Victoria Africa s largest lake Uganda s capital Kampala is famous for hosting many international conferences and summits including the 2007 Commonwealth Head of Government Meeting Uganda is witnessing rapid development overseen by Yoweri Tibuhaburwa Museveni who has served as president since 1986 making him the longest serving leader in Uganda Museveni came to power on the backdrop of a 5 year guerilla struggle that toppled the regimes of Milton Obote and the military junta of Tito Okello Lutwa Historical Dictionary of Uganda Second Edition covers the history of Uganda using a chronology an introductory essay appendixes and a bibliography The dictionary section covers many entries on politics economy foreign affairs religion society culture and important personalities The book provides a quick access for researchers students tourists and anyone interesting in learning about Uganda
