Oildorado Boom Times On The West Side:

Oildorado William Rintoul, 1978 *Obscene in the Extreme* Rick Wartzman, 2009-09-01 Few books have caused as big a stir as John Steinbeck's *The Grapes of Wrath* when it was published in April 1939. By May it was the nation's number one bestseller, but in Kern County, California, the Joads' newfound home, the book was burned publicly and banned from library shelves. *Obscene in the Extreme* tells the remarkable story behind this fit of censorship. When W. B. Bill Camp, a giant cotton and potato grower, presided over its burning in downtown Bakersfield, he declared, "We are angry not because we were attacked but because we were attacked by a book obscene in the extreme sense of the word." But Gretchen Knief, the Kern County librarian, bravely fought back. "If that book is banned today, what book will be banned tomorrow?" *Obscene in the Extreme* serves as a window into an extraordinary time of upheaval in America, a time when, as Steinbeck put it, there seemed to be a revolution going on.

The Annotated Big Sleep Raymond Chandler, 2018-07-17 The first fully annotated edition of Raymond Chandler's 1939 classic *The Big Sleep* features hundreds of illuminating notes and images alongside the full text of the novel and is an essential addition to any crime fiction fan's library. One of *The Atlantic's* Great American Novels of the Past 100 Years, a masterpiece of noir, Raymond Chandler's *The Big Sleep* helped to define a genre. Today it remains one of the most celebrated and stylish novels of the twentieth century. This comprehensive annotated edition offers a fascinating look behind the scenes of the novel, bringing the gritty and seductive world of Chandler's iconic private eye Philip Marlowe to life. *The Annotated Big Sleep* solidifies the novel's position as one of the great works of American fiction and will surprise and enthrall Chandler's biggest fans. Including personal letters and source texts, the historical context of Chandler's Los Angeles, including maps and images, film stills, and art from the early pulps, an analysis of class, gender, sexuality, and ethnicity in the novel.

California Oil World, 1984 **I Feel Earthquakes More Often Than They Happen** Amy Wilentz, 2006-08-22 From one of our most astute contemporary writers, Amy Wilentz, comes an irreverent, inventive portrait of the state of California and its unlikely governor, Arnold Schwarzenegger. The prizewinning author, a lifelong easterner and an outsider in the West, takes the reader on a picaresque journey from exclusive Hollywood soirees to a fantasy city in the Mojave desert, from the La Brea Tar Pits to celebrity-besotted Sacramento, from the tents of Skid Row to surf-drunk Malibu, from a snowbird retreat near Mexico to the hippie preserve of tide-beaten Big Sur, along the way offering up sharp observations on politics, fund-raising, the water supply, the Beach Boys, earthquake preparedness, home economics, catastrophism, movie stars, politicians, political movie stars, Charlie Manson, and location scouts who want to rent your house in order to make television commercials for bathroom wall cleansers or Swedish banks. Wilentz moved to Los Angeles from a Manhattan wounded by September 11, only to discover a paradise marred by fire, flood, and mudslides. In what seemed like a joke to her, a Democratic governor nicknamed Gumby was about to be ousted by an Austrian muscleman in a bizarre election promoted by a millionaire whose business was car alarms. Intrigued, she set out to find the essence of the quirky, trailblazing state. During her

travels she spots celebrities but can't quite place them drops in on famous salons with habitués like Warren Beatty and Arianna Huffington and visits the neglected office of one very special 90-year-old woman Plunging into the traffic of California Wilentz noodles out meaning in some of the least likely of places she sees the political in the personal and the personal in the political By now an expert on tremors real and imagined she offers readers on both coasts insights into where California stands today and America as well

Doodlebug Days Dorothy Lockard Bristol, Nancy Lockard Gallop, 2000-09-05

Our 1935 black Oldsmobile and heavily loaded trailer drew hostile looks as we drove into Bakersfield and stopped at a shady park to check the tires When Mother Daddy we two girls and our young brother Skippy got out two work-hardened men in ranch straw hats and short-sleeved cotton shirts stood staring suspiciously at our California license plates Had those plates on long the shorter man challenged Daddy Guess you'd say so Daddy answered pleasantly Mother's hands were settling on her hips a sure sign her indignation would be expressed verbally at the first sign of an insult from the men The taller man took a step toward Daddy Hope you're not looking for farm work in Bakersfield cause there isn't any Deliberately the man spat on the curb Every damn fool in Texas Missouri Arkansas and Oklahoma is either here or on Route 66 trying to get here in some beat-up jalopy Not enough cotton or potatoes in all of Kern County to keep half of them busy No Daddy said evenly Not looking for work Just looking to head out of here in a few minutes While Daddy circled our car and trailer Mother glared at the men snapped open her white envelope purse and drew out a bottle of Coty's Emeraude dabbing a drop behind each ear It's so much hotter here than in Lynwood she said loftily I don't know how people can stand it Turning her back on the Bakersfield men she added Come on children let's get back in the car And don't step in that filth on the sidewalk As Daddy pulled away from the curb Mother fanned herself with her purse Imagine Bruce you a civil engineer looking for farm work I'd like to have given those Bakersfield men a piece of my mind and I would have too if your work weren't so secret They treated us as if we were Dust Bowl migrants In California in 1935 twenty percent of the country's labor force was unemployed and hobos regularly knocked on back doors for handouts To survive in the Great Depression our father had taken a job with an oil exploration party in the San Joaquin Valley Our family packed up and left southern California to join him Between 1900 and 1936 California led the nation in petroleum production Oil companies certain that great reserves of oil still lay hidden sent exploration crews called doodlebug parties throughout California to find new fields The intense competition among oil companies mandated secrecy concerning doodlebug party movements By setting explosives off in a series of holes doodlebuggers would measure the echoes and make a seismic record that might indicate the presence of oil Our new life was scary because we girls Nancy age 10 and Sunny 12 had been allowed to make the decision whether to follow our father or remain in comfortably familiar Lynwood just south of Los Angeles Still we knew that our father felt fortunate to be holding a job even one that worked a hardship on his wife and children We left our home in Southern California and headed north over the Ridge Route towing our possessions behind our car in a small canvas-covered trailer Even though the security of our

family unit buffered us against hardships we girls were apprehensive Still we were excited about the new life that was unfolding DOODLEBUG DAYS takes place in a California with a population of only six million The Valley towns in which we lived were small and agricultural with tight knit established families For the employed life was less complicated than it is today Radios not televisions were prominently enshrined in each living room In the small towns up and down the Valley people pulled their kitchen chairs close to their radio to listen to President Roosevelt s fireside chats as he discussed solutions to the problems that marked the era Geology of the Midway-Sunset Oil Field and Adjacent Temblor Range, San Joaquin Basin, California Tor Helge Nilsen,Albert S. Wylie,Glenn J. Gregory,1996 *Ten Dollars to Hate* Patricia Bernstein,2018-11-02 *Ten Dollars to Hate* tells the story of the massive Ku Klux Klan of the 1920s by far the most successful incarnation since its inception in the ashes of the Civil War and the first prosecutor in the nation to successfully convict and jail Klan members Dan Moody a twenty nine year old Texas district attorney demonstrated that Klansmen could be punished for taking the law into their own hands Bernstein s offering is a must read for those interested in Texas history and for those seeking to better understand the tenor of our own times Southwestern Historical Quarterly Bernstein has done Texas and the country a favor by documenting Moody s bravado and vanquishing of the Klan Corpus Christi Caller Times **The Oil Wars Myth** Emily L. Meierding,2020-05-15 Do countries fight wars for oil Given the resource s exceptional military and economic importance most people assume that states will do anything to obtain it Challenging this conventional wisdom The Oil Wars Myth reveals that countries do not launch major conflicts to acquire petroleum resources Emily Meierding argues that the costs of foreign invasion territorial occupation international retaliation and damage to oil company relations deter even the most powerful countries from initiating classic oil wars Examining a century of interstate violence she demonstrates that at most countries have engaged in mild sparring to advance their petroleum ambitions The Oil Wars Myth elaborates on these findings by reassessing the presumed oil motives for many of the twentieth century s most prominent international conflicts World War II the two American Gulf wars the Iran Iraq War the Falklands Malvinas War and the Chaco War These case studies show that countries have consistently refrained from fighting for oil Meierding also explains why oil war assumptions are so common despite the lack of supporting evidence Since classic oil wars exist at the intersection of need and greed two popular explanations for resource grabs they are unusually easy to believe in The Oil Wars Myth will engage and inform anyone interested in oil war and the narratives that connect them **From Mission to Microchip** Fred Glass,2016-06-28 There is no better time than now to consider the labor history of the Golden State While other states face declining union enrollment rates and the rollback of workers rights California unions are embracing working immigrants and voters are protecting core worker rights What s the difference California has held an exceptional place in the imagination of Americans and immigrants since the Gold Rush which saw the first of many waves of working people moving to the state to find work From Mission to Microchip unearths the hidden stories of these people throughout California s history The difficult task of

the state's labor movement has been to overcome perceived barriers such as race national origin and language to unite newcomers and natives in their shared interest As chronicled in this comprehensive history workers have creatively used collective bargaining politics strikes and varied organizing strategies to find common ground among California's diverse communities and achieve a measure of economic fairness and social justice This is an indispensable book for students and scholars of labor history and history of the West as well as labor activists and organizers
