Okovango Desert River:

Ecology of Desert Rivers Richard Kingsford, 2006-06 Summarises current understanding of desert river ecology and its dependence on unpredictable river flows

Desert Landscapes of the World with Google Earth Andrew Goudie, 2023-01-01 This book presents an introduction to desert landscapes primarily landforms that are natural and man made It is based around the presentation of a series of beautiful and informative annotated Google Earth images These are accompanied by text that describes the features concerned their location and their origin There are also in some cases ground images taken by the author

Desert Water Gathering Raina Mooncrest, AI, 2025-02-27 Desert Water Gathering explores how communities in arid regions secure water highlighting their resourcefulness and environmental adaptation The book examines various traditional water harvesting methods from fog collection to groundwater extraction showcasing ingenuity in the face of water scarcity It emphasizes the importance of cultural knowledge and sustainable water management in these desert ecosystems offering insights into how communities have thrived for centuries The book progresses by first introducing water scarcity as a driver of innovation then methodically examining atmospheric surface and groundwater collection techniques It analyzes wadis farming rainwater harvesting and traditional well construction among other strategies A key insight is how these communities preserve and pass down critical knowledge through generations What makes this book unique is its emphasis on community based solutions integrating indigenous knowledge with modern challenges like climate change adaptation By presenting case studies and firsthand accounts Desert Water Gathering advocates for a more participatory and culturally sensitive approach to water management challenging conventional top down strategies

Rivers Nick Middleton, 2012-04-26 Rivers have played an extraordinarily important role in creating the world in which we live They create landscapes and provide water to people plants and animals nourishing both town and country The flow of rivers has enthused poets and painters explorers and pilgrims Rivers have acted as cradles for civilization and agents of disaster a river may be a barrier or a highway it can bear trade and sediment culture and conflict A river may inspire or it may terrify This Very Short Introduction is a celebration of rivers in all their diversity Nick Middleton covers a wide and eclectic range of river based themes from physical geography to mythology to industrial history and literary criticism Worshipped and revered respected and feared rivers reflect both the natural and social history of our planet
