Portraits of Pioneers in Psychology Gregory A. Kimble, C. Alan Boneau, Michael Wertheimer, 2012-08-21 A major aim of the books in this series is to promote psychology's appreciation of the neglected giants in its history The chapters document the significance of these early contributions many of them made more than a century ago Most of the chapters are revisions of invited addresses delivered at psychological conventions Several of the authors are students colleagues or offspring of their pioneers and all of them are intrigued by the life and work of the psychologists about whom they have written All of the portraits are informal on occasion even humorous Some are impersonations telling stories in what were or might have been the pioneer's own words This book provides source materials for teachers of undergraduate courses in psychology particularly the history of psychology who want to add a personal view in their lectures and offer interesting readings for their students Each of the five volumes in this series contains different profiles thereby bringing more than 100 of the pioneers in psychology more vividly to life

The Science of Premonitions Larry Dossey, 2010-05-04 Larry Dossey is one of America's most important thinkers When he talks I listen Marianne Williamson author of A Return to Love In his New York Times bestseller Healing Words Dr Dossey investigated why patients surrounded by prayer healed faster and more completely than patients who were not Now in The Science of Premonitions Dossey uses cutting edge science to make a convincing case that premonitions are real common and helpful Then Dossey explores research on mindfulness and meditation to show readers how they can cultivate and take advantage of premonitions Packed with compelling case studies and thought provoking findings this is a book for the skeptical mind and the believer's heart and will be greeted warmly by as Deepak Chopra said anyone who is interested in knowing about the deeper meaning of our existence Deepak Chopra M D

Infinite Possibility Audrey A. Irvine, 2008-07-07 Have you had experiences with telepathy precognition or subtle energies You are not alone These and many other extraordinary abilities have been reported since the earliest days of humankind and hint at an indwelling potential we all share To broaden our understanding of these abilities Infinite Possibility compares eight different spiritual traditions and the Scientific paradigm to understand How different cultures understand the extraordinary The range of abilities seen across cultures Where in the hierarchy of consciousness extraordinary abilities occur The methods used to

evoke abilities And the risks reported in undertaking the extraordinary Perhaps you are interested in what your particular tradition has contributed to our understanding of the extraordinary Or you may simply enjoy reading about the exploits of saints lamas shaman and intuitives Whatever your reason this exceptional survey of the worlds traditions is guaranteed to deepen your understanding of our infinite human potential Missing Pieces Robert A. Baker,1992-05 Readers wishing to investigate paranormal claims can learn how the professionals do it Missing Pieces is filled with practical information on checking out every type of mysterious anomaly including UFO sightings ghost hauntings psychic feats and other weird events This is a complete handbook featuring tactics and techniques you can use immediately to get at the truth Learn how to conduct investigations interrogate witnesses recognize deception and use the mental and electronic tools of the trade for ghostbusting Uncover the tricks used by those who say they can heal or influence behavior using only the power of their minds Expose those who allege that they were selected by gods or extraterrestrials to bring messages to humankind Baker and Nickell also address why otherwise intelligent people often accept paranormal claims without question and how the investigator can use the media to spread the truth The "E4" Method: Breaking the Mold of Paranormal Investigation Brian D. Parsons,2013-02-28 A blend of traditional and non traditional approaches toward client centered paranormal investigation The methodology provides a solid structure as compared to random methods used by ghost investigators

Birnes,Joel Martin,2025-06-25 In the tradition of their Haunting of the Presidents national bestselling authors Joel Martin and William J Birnes write The Haunting of America From The Salem Witch Trials to Harry Houdini the only book to tell the story of how paranormal events influenced and sometimes even drove political events In a narrative retelling of American history that begins with the Salem Witch Trials of the seventeenth century Martin and Birnes unearth the roots of America s fascination with the ghosts goblins and demons that possess our imaginations and nightmares The authors examine the political history of the United States through the lens of

the paranormal and investigate the spiritual events that inspired public policy channelers and mediums who have advised presidents UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union out of body experiencers deployed to gather sensitive intelligence on other countries and even spirits summoned to communicate with living politicians *The Haunting of America* is a thrilling exploration of the often unexpected influences of the paranormal on science medicine law government the military psychology theology death and dying spirituality and pop culture At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

The End of Materialism Charles T. Tart, 2009 Ideal for scientifically minded individuals curious about life's spiritual side as well as spiritually inclined people seeking to back up their beliefs this book offers evidence for the existence of telepathy precognition and psychic healing

N equals 1 Gerhard Mayer, 2020-03 Single case studies have a long tradition in the field of parapsychology and anomalistics research Naturally thorough case studies do not usually provide hard evidence for the existence of paranormal effects However they demonstrate the dynamics of occurrence of such extraordinary phenomena and experiences in the living world This volume is intended to give an overview of the methodological peculiarities of anomalistic field research On the basis of historical and current case studies certain specific psychosocial dynamics and problems in this interesting and challenging field of research are presented and discussed

A Sense of Presence Stephen H. Smith, 2016-09-15 Divided into five parts A Sense of Presence explores the central thesis that the resurrection of Jesus could be explained as a psychological event involving one hallucination possibly occurring to Peter and a hysterical reaction by colleagues which convinced them that Jesus had appeared to them too This approach is justified by showing that claims made by often impressionable people to have witnessed supernatural events in more recent times such as visions of the Virgin Mary or weeping statues have usually attracted a similar hysterical reaction involving large numbers Some of these reactions take hold sufficiently strongly to facilitate the development of new sects or movements which persist even when their credibility is challenged The remaining four parts set this thesis in context Part 1 shows that resurrection was already a widely accepted concept in the socio cultural world in which Jesus was born Part 2 deals with the New Testament accounts of the resurrection showing that they are often contradictory Part 4 presents and discusses the philosophical problems involved in a psycho physical person rising from the dead while Part 5 looks at the historical and theological issues associated with such an event The argument presented is not intended to be dogmatic but simply seeks to show that naturalistic alternative explanations to the one generally accepted by believers should be given far more attention than they usually receive A Sense of Presence invites readers to challenge the status quo and will appeal to those wishing to challenge generally accepted Christian views

The Haunting of Twentieth-Century America William J. Birnes, Joel Martin, 2011-09-13 In this sequel to *The Haunting of America* national bestselling authors Joel Martin and William J Birnes bring up to the present the story of how paranormal events influenced and sometimes even drove political events In unearthing the roots of America's fascination

with the ghosts goblins and demons that possess our imaginations and nightmares Martin and Birnes show how the paranormal has driven America's political public and military policies The authors examine the social history of the United States through the lens of the paranormal and investigate the spiritual events that inspired momentous national decisions UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union out of body experiences used to gather sensitive intelligence on other countries and even spirits summoned to communicate with living politicians The Haunting of Twentieth Century America is a thrilling evidence-based exploration of the often unexpected influences of the paranormal on science medicine law the government the military psychology theology death and dying spirituality and pop culture At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

The Scary Screen Dr Kristen Lacefield, 2013-04-28 In 1991 the publication of Koji Suzuki's Ring the first novel of a bestselling trilogy inaugurated a tremendous outpouring of cultural production in Japan Korea and the United States Just as the subject of the book is the deadly viral reproduction of a VHS tape so too is the vast proliferation of text and cinematic productions suggestive of an airborne contagion with a life of its own Analyzing the extraordinary trans-cultural popularity of the Ring phenomenon The Scary Screen locates much of its power in the ways in which the books and films astutely graft contemporary cultural preoccupations onto the generic elements of the ghost story in particular the Japanese ghost story At the same time the contributors demonstrate these cultural concerns are themselves underwritten by a range of anxieties triggered by the advent of new communications and media technologies perhaps most significantly the shift from analog to digital Mimicking the phenomenon it seeks to understand the collection's power comes from its commitment to the full range of Ring-related output and its embrace of a wide variety of interpretive approaches as the contributors chart the mutations of the Ring narrative from author to author from medium to medium and from Japan to Korea to the United States

The Invention of Modern Science Isabelle Stengers, 2000 The Invention of Modern Science proposes a fruitful way of going beyond the apparently irreconcilable positions that science is either objective or socially constructed Instead suggests Isabelle Stengers one of the most important and influential philosophers of science in Europe we might understand the tension between scientific objectivity and belief as a necessary part of science central to the practices invented and reinvented by scientists pub desc

The Philosophy of Human Nature Howard P. Kainz, 2015-11-05 What exactly is human nature What makes humans different from animals if there is any difference In this book Howard Kainz presents a philosophical analysis of the various concepts of human nature and the many controversies that have surrounded them for centuries He explores issues such as whether human beings are truly free whether human instincts differ from animal instincts and the realities of human maturity

The Trickster and the Paranormal George P. Hansen, 2001-08-20 Paranormal and supernatural events have been reported for millennia They have fostered history's most important cultural transformations e.g. via the miracles of Moses Jesus Mohammed Paranormal phenomena are frequently portrayed in the

world's greatest art and literature as well as in popular TV shows and movies. Most adults in the U.S. believe in them. Yet they have a marginal place in modern culture. No university departments are devoted to studying psychic phenomena. In fact, a panoply of scientists now aggressively denounces them. These facts present a deeply puzzling situation. But they become coherent after pondering the trickster figure, an archaic being found worldwide in mythology and folklore. The trickster governs paradox and the irrational, but his messages are concealed. This book draws upon theories of the trickster from anthropology, folklore, sociology, semiotics, and literary criticism. It examines psychic phenomena and UFOs and explains why they are so problematical for science.

The Intention Experiment Lynne McTaggart, 2008-02-05. Draws on original experiments as well as scientific research to explore a theory that the entire universe is connected by a vast energy field that can be manipulated for the betterment of the world using positive thought processes.

Parapsychology The Controversial Science: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels enthraling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the fascinating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover "It Ends with Us" This poignant tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Parapsychology The Controversial Science : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
