An Introduction to Ethics Brian Besong,2018-01-01 It is natural for us to wonder what should I do and why And although a combination of common sense and upbringing aids us in answering our questions it is also natural for us to seek answers that are grounded in something deeper and more enduring than our personal dispositions and those of our parents We seek a genuinely good life and the practical wisdom necessary to arrive at happiness In this Introduction to Ethics Brian Besong presents a comprehensive and contemporary introduction to the practical wisdom handed down to us by Aristotle St Thomas Aquinas and many others a position now commonly called natural law Written as a beginner s guide the book systematically explores a range of moral issues including moral knowledge happiness right and wrong action and virtues to name a few Introduction to Ethics explains in a lively way how natural law provides principled and persuasive answers to our most fundamental moral questions

A Secular Europe: Law and Religion in the European Constitutional Landscape Lorenzo Zucca,2012-10-11 How to accommodate diverse religious practices and laws within a secular framework is one of the most pressing and controversial problems facing contemporary European public order In this provocative contribution to the subject Lorenzo Zucca argues that traditional models of secularism focusing on the relationship of state and church are out dated and that only by embracing a new picture of what secularism means can Europe move forward in the public reconciliation of its religious diversity The book develops a new model of secularism suitable for Europe as a whole The new model of secularism is concerned with the way in which modern secular states deal with the presence of diversity in the society This new conception of secularism is more suited to the European Union whose overall aim is to promote a stable peaceful and unified economic and political space starting from a wide range of different national experiences and perspectives The new conception of secularism is also more suited for the Council of Europe at large and in particular the European Court of Human Rights which faces growing demands for the recognition of freedom of religion in European states The new model does not defend secularism as an ideological position but aims to present secularism as our common constitutional tradition as well as the basis for our common constitutional future

Kant and the Interests of Reason Sebastian Raedler, 2015-07-01. This essay argues that we can only develop a proper grasp of Kant's practical philosophy if we appreciate the central role played in his thought by the notion of the interests of reason. While it is generally acknowledged that Kant does not regard reason as a purely instrumental faculty but sees it as endowed with its own essential interests, this book is the first to explain how the notion of the interests of reason lies at the heart of his philosophical project and how it allows us to make sense of some of the most puzzling aspects of his practical philosophy.
